SUBSCRIPTION RATES: One Year \$2.00, Six Months 1.00, Three Months .75, Single Copies .05.

Official Paper for Morrow County.

"BUY NOW"

PHILADELPHIA deserves credit for initiating the "Buy Now" movement, which is being taken up by Chambers of Commerce all over the United States.

It is sound advice. If everybody would act upon it, business would pick up rapidly.

Everybody needs something. Many are holding off their purchases hoping for better times. So long as they continue to hold off, business will not improve.

That does not mean merely "do your Christmas shopping early," though that advice, always sound, is sounder than ever this year.

It means going ahead with the purchases you would like to make but have been hesitating about making.

Every retail purchase not only depletes the merchant's stock, making it necessary for him to order new goods, but it puts money or credit in the merchant's pocket which will pay for the new goods he orders.

Your dollar, once passed across the merchant's counter, will thus do its share toward increasing factory payrolls. Prosperity can only be restored by putting dollars into circulation—your dollars and your neighbor's dollars.

"Buy now" is a good slogan.

WHILE SOME PEOPLE ARE TALKING HARD TIMES—

WE SAW carpenters last week building a new \$50,000 cannery at Oregon City for B. W. Doyle & Associates, Los Angeles—parties the state chamber induced to invest in Oregon.

At North Bend we found men staking out 500 feet of waterfront on which the B-K-V Battery Separator company, San Francisco, are starting a new \$100,000 plant—they had already purchased the North Bend White Cedar company's mill adjoining.

At Eagle Point, in Jackson county, machinery was being moved into the new Laido Dairy Products creamery and cheese plant; over at Richland in Baker county equipment is being installed in the new \$15,000 creamery of the Pine-Eagle Dairyman's association, which will enable it to make up to a million pounds of butter annually.

The Barde Steel Co., Portland, has secured control of the Shorty-Hope gold mine near Ashland and plans placing it in production again soon; the Miller-Umpqua Copper company, Medford, is putting more men to work both in their copper and gold workings in the Trail-Tiller district.

At Klamath Falls federal building has been delivered and stone for the \$10,000 Walsh mausoleum, Mt. Angel, is going out.

Hundreds of timber and mill hands will be employed this winter getting out the order for 200 car loads of bridge timbers ordered by middle west parties from the Standard Seasoning Society who will enlarge their Cottage Grove plant.

Wheat yields on the experimental farm at the state college have been maintained and increased by a system involving the rotation of grain with clover and a cultivated crop such as corn.

Wet mash is often an aid in forcing slow-starting pullets into production, says the Oregon Experiment station.

THOMAS—THE HONEST DUBTER. John 11:14-16; 14:5-8; 20:24-29; 21:1-2.

Rev. Samuel D. Price, D. D.

When a special name is related to a person it is hard to get away from it. The nickname may not characterize the individual with any fairness but is merely the emphasis on some peculiarity.

It was toward the latter part of the ministry of Jesus, when he was in Berea, that word came from the sisters at Bethany that their brother Lazarus was sick unto death.

At this period in His ministry there were increasing threats against His

Their cold-process of seasoning has been a sensational success, and another and larger plant will be built soon somewhere in southern Oregon.

So, while some talk hard times, we suggest you get out, see our state, find out how others are investing, building plants, increasing payrolls, BUILDING OREGON.

THE FARM BOARD IS LEARNING.

The Federal Farm Board has had about sixteen months of experience in its work of administering the Cooperative Marketing Law. Its members have learned a great deal in that time.

There is evidence that the Farm Board members are acquiring a national point of view, and that they have discovered several fundamental facts concerning which there seemed at the beginning to be some doubt among the Board members.

The greatest assistance to agriculture by the Government will be the gradual development of grower-owned marketing systems.

Now that the Farm Board has learned those things, and we have Mr. Teague's word for it that all of the members now accept them as truth, there is hope that more rapid progress may be made in bringing agricultural marketing to a point where the growers really get what their products are worth.

Under-Age Permits Given Students Only

Requests are often received in the office of Hal E. Hoss, secretary of state, urging that special dispensation be allowed in the matter of issuing operators' licenses to persons under the age of 16 years.

The student permit is designed for only one purpose, says the secretary of state. "Any person over the age of fourteen years may make application for such a permit, but in addition to other required information the applicant must certify that he has no other available means of transportation by which he would be enabled to continue his education, and shall designate the road, highway or city streets over which it is desired to operate a motor vehicle in order to accomplish this purpose.

Wheat yields on the experimental farm at the state college have been maintained and increased by a system involving the rotation of grain with clover and a cultivated crop such as corn.

Wet mash is often an aid in forcing slow-starting pullets into production, says the Oregon Experiment station.

THE FAMILY DOCTOR JOHN JOSEPH GAINES, M.D.

VALUE OF PAIN

The best friend a man can possibly have is the one that warns him always of impending danger; oddly enough, pain is a very great blessing to human kind.

Primarily, it is the apprehension—the dread of suffering, that impels human kind to shun pitfalls that bring disease or death. Yet, for mere pleasure's sake, or in obedience to perverted appetite, fools rush in where angels fear to tread.

Pain in the left chest, transitory or persistent, should take one to the physician promptly, especially if the complainant is beyond middle age, is overweight, or suspects kidney derangement—a thorough examination should be made, no matter how robust the patient may look.

Hints for the Home by Nancy Hart

GRAPES FOR CHICKEN

A trick of some of the chefs at fashionable hotels is to serve grapes with quail. The quail are cooked "en casserole" and the grapes—apparently white Malaga grapes—are found floating about in the gravy.

Few of us ever have quail to serve in our own homes, but we often have chicken, and you will find that a few white grapes added to the gravy of a chicken cooked "en casserole" give an interesting and toothsome touch.

Some persons have a feeling that amounts almost to horror at seeing a milk bottle on the dining room table. To put milk on the table in the glass bottle in which it is delivered seems to betoken to them complete abandonment of regard for dining room convention.

are already protesting high rates on these, saying not enough seed is produced in America for the domestic supply.

Raises have been established on alfalfa, alsike and red clover, amounting to 4 cents a pound; white and ladino clover and blue grass, 3 cents; sweet clover, 2 cents; rye grass, hairy vetch, crimson and other clovers, 1 cent; and bent grass, 38 cents.

IRRIGON

Mrs. Merritt and Mrs. Amy Collins were Pendleton visitors Monday.

Mrs. Bertha Otto of Heppner spent a few days last week at her former home, now owned by H. V. Rutledge.

Mr. and Mrs. Alfred Houghton and family are moving into the Blanche Watkins house for the winter.

Mr. Doyle from Plymouth, Wash., spent Sunday with Mr. and Mrs. George Haskell.

Mrs. Bill Molton spent Sunday with her parents, Mr. and Mrs. Burckett.

Mr. and Mrs. Fred Markham, Mr. and Mrs. Jess Oliver and family moved to Echo Monday to attend the funeral of Mrs. Markham's daughter who passed away Saturday.

Ralph Benge, county judge, ad Wm. McCaleb, roadmaster, were out inspecting the road work Wednesday and Thursday.

William Campbell of Heppner was in this vicinity Friday.

Mr. and Mrs. O. Coryell and Mr. and Mrs. Henry Weir attended the dance at Boardman Saturday night.

Miss Florence Brace entertained a large party of young people Friday night at a Halloween party which was enjoyed by everyone.

Mrs. W. C. Isom entertained the Home Economics club ladies at her home Thursday afternoon. Eleven members and two visitors were present.

Mrs. John Grabel has been on the sick list several days this week.

Mrs. George Haskell made a shipment of 60 turkeys to San Diego, Cal., Monday.

Mr. and Mrs. Frank Fredericksen spent Sunday afternoon at the Haskell home.

Mr. and Mrs. Batie Rand were shopping in Pendleton Wednesday.

Two microbes sat on a pantry shelf. And watched, with expression pained. The milkman's stunts, and they both said at once, "Our relations are getting strained."

Largest Wheat Producer Predicts Feed Shortage

Spokane, Wash.—The United States is faced right now with a feed shortage of major proportions. Indirectly that spells a wheat shortage. Such words sound strange, I know, but they are true.

Mr. Campbell continued, "Look at the facts—the authoritative governmental facts. Corn is short 800,000,000 bushels. Feed, another 300,000,000. That totals 1,100,000,000 bushels. Now what can take the place of this huge shortage? Just 350,000,000 bushels of wheat. That's all. In a word, for every three bushels of grain short, wheat can supply but one. Does that look bad for wheat? Quite the reverse. Wheat is cheap—dirt cheap today.

"Mark my word, the United States will be on a domestic basis before we can produce another crop of wheat—no wheat available for export."

NOW WHO HAS A BIGGER ONE?

The largest apple ever seen by anyone connected with the horticultural department at Oregon State college was recently found beneath a Spokane Beauty tree in one of the college orchards at Corvallis. The apple weighed 2 1/4 pounds and had a capacity for exactly three pints inside its skin, or 86.7 cubic inches. It measured 17 inches around. It grew on a 15-year-old tree that bore several boxes of fruit.

WHEAT FARM FOR SALE

A good buy. 960 acres—450 acres in good summerfall wheat; 450 acres to summerfall next year; fair house and outbuildings, 18 head mules and harness; hitches; Case combine; Daisy reaper; plows, harrows and drills; Ford truck; blacksmith shop and all small tools sufficient to work all land. All goes at \$45 per acre; half cash, balance terms. Reason for selling, don't like to rent, getting too old to run place myself. J. H. HELMS, Lexington, Ore. 32-35P.

NOTICE OF FINAL SETTLEMENT
