HOW THE GOVERNMENT HELPS

Autocaster Service. ONE hundred and sixteen million dollars for public works, forty-five millions for the relief of farmers who were affected by the 1930 drought—that is the sum which Congress has put into the President's hands since December 1, as a further effort toward getting money into circulation and getting men back to work.

That ought to help a lot. Many important Federal highway projects have been held up because the states concerned were not in a position to appropriate their share. Under the new appropriation Federal money will be lent to the states, in addition to what the Federal Government pays its share. It is definite now that the largest road-building program of any year will be carried through in 1931.

The trouble with public works as a means of relieving unemployment emergencies is that they can not be begun instantly. Until money has been appropriated by Congress, State Legislatures or municipal governments, the preliminary plans cannot be drawn. Everybody knows that the building of a great deal of preliminary time in selecting the lot and drawing the plans before the hauling of materials to the job can commence. How much more time it takes to start work on such a project as the Hoover dam few of us realize. Engineers have been at work for a year on the plans, and are only just now ready to get bids for materials and work. It will be several months before actual work, in the sense of employing any considerable body of workers, can be begun.

The Hoover dam is going through, however, and so are the new Federal highways and a great program of new Federal buildings. The preliminaries have been largely attended to in 1930; 1931 will see the money beginning to flow into the pockets of hundreds of thousands of workers.

THRIFT

Autocaster Service. THE week beginning January 17 is National Thrift Week. It is a good idea, to turn people's minds to the subject of thrift at least once a year. This year it is particularly timely.

We have been going through a year of hard times, and those hard times were brought about in large part by unthriftiness. There is thrift that is injurious, to be sure. The sort of thrift that hoards money in stockings and keeps it out of circulation benefits nobody and is a definite detriment to prosperity. But that is not the cause of the financial depression which now seems to be passing. Much of our trouble has come from thriftless spending.

SUNDAY SCHOOL LESSON

International Sunday School Lesson for January 18

THE MINISTRY OF JOHN THE BAPTIST Luke 3:7-17.

REV. SAMUEL D. PRICE, D. D. When John was thirty years of age the spiritual summons came to begin his work as the Forerunner of Jesus Christ. This man had grown up in the midst of nature.

Others might conduct formal prayers in a synagogue. John made a rock his pulpit in some wilderness arena and thither the people flocked to hear him. They could not stay away from such utterances. He dared to tell them about their most inner self, what they thought about that was vile, the things that they did which were contrary to all law and decency. He called them characterizing names such as "O generation of vipers." He demanded that they give up saying all kinds of well-sounding platitudes and "bring forth fruits worthy of repentance." When some one would fall back on the fact that he was a Jew, and thus one of God's chosen people, he was told that they could no longer clothe themselves in garments which they would call righteous. Henceforth they must evidence their professions by worthy works.

A new kind of philanthropy was demanded. They must share their extra possessions with those who were in actual need. If a man had a job from which he received wages, he was to stop complaining with his meal ticket and settle down to work as he rendered service for pay received. Further, they must testify of their penitence for past sins and express a solemn purpose after new obedience in the form of baptism. Then multitudes came to him to be baptized as he stood in the waters of the Jordan river. Such a person was thought of as the long promised Messiah. At once John the Baptist declared that he was just preparing the way for the one "who shall baptize you with the Holy Ghost and with fire."

It is that sort of thrift which those back of National Thrift Week are trying to teach. More power to them.

A FARMER'S VIEW ON WAR AND PEACE

A Worthwhile Editorial Selected by the National Editorial Association.

IT is carnival night in the home town and chief of attractions is the big parade of 20 Legion posts. All honor to the legionnaires! Smartly tailored uniforms in bright and

varied colors, shining helmets, music, rhythm, action—all these fascinate young and old and the small boy on the sidewalk links up the idea with war and decides he will be in on the next one.

Twenty miles south of the home town is a huge government hospital where are quartered veterans to whom the gods of war have been less kind; veterans some of whom may never again walk, others who may never again see and still others who may never again think with clear minds. This is the other side of the picture, sight of which unfortunately escapes the small boy on the sidewalk.

This war business is getting a lot of attention nowadays and rightly so. Since the dawn of history war has been regarded as inevitable but the last conflict was so much more of a war than anything in the past that men and nations have been joined out of their complacency and are now looking for a better way to compose international differences in the future.

Judged by any standard war is a failure. When a dispute arises between two countries it is futile to take up arms if right be the objective sought. War will establish the fact that one nation has a bigger and better army or more food or more money but the one sure thing it will not do is establish right. There are several aspects of war which have our downright disapproval. One of these is the system whereby one set of men creates the war and another is sent out to fight the war. In no man's land the boy from South Dakota meets the boy from Saxony. Back home there is as much they have in common; a mother, perhaps a sweetheart, friends, work, play and the right to live. Yet here they are face to face with fixed bayonets, boys between whom there could be no natural quarrel or enmity and yet one will presently kill the other "in defense of the fatherland" or "to make the world safe for democracy" as the case may be. Monstrous scheme at best!

The last war was said to be a war to end war and the claim may not prove empty when one considers the progressive movements of the last decade such as the world court, the Kellogg pact and repeated attempts at naval limitations. But Mars having reigned long and supreme will die hard and his destruction remains a big job. In Germany a large society hinges its activities around the slogan, "nie wieder krieg" which translated literally is "never again war." This society has a fruitful field for work and like Abou Ben Adhem, and in all lands, may their tribe increase.—C. F. Preston, Chester County, Pennsylvania, in Capper's Farmer.

Seasonable Hints

The crisp, invigorating days of autumn somehow inspires one with renewed courage and faith in the things about us. The appetite becomes keener, the breathing deeper; the morning walk in the open air takes on a new luster; in short, we "feel better all over."

In time, the housewife will escape the exacting duties of canning fruits; they can be put up fresh by the great and expert technicians, cheaper, more convenient to handle, and can be obtained ready to use with little outlay, compared with the drudgery of home canning.

We are well past the age when copper was used to color the glass jar of commercial pickles. Poisons are no longer used as bleaches or preservatives. The tin can is used where such employment is scientifically appropriate. I hear of little or no illness caused by the impure canning of fruits and vegetables.

The summer, with its host of invaders of the partially-eaten canned food is gone. The "culture season" is over. But I am horribly afraid of the partly-used, hot-weather can of pigs' knuckles and other potted meats!
