### OPINION UNITED.

the fact that Heppner's cemetery getting running water to the cemetery for irrigation purposes. Real-ization of needs there arising from formed. the discussion include more than obtaining running water, all of which has led to the conclusion that the problem is a difficult one, and that a large sum of money would be required to remedy the situation in acceptable manner. an acceptable manner.

entire community is vitally interest-Everyone knows that something should be done, and yet no one has advanced a practicable theory for exactly what can be done.

the cemetery put under city supervision. And one logical suggestion, that would necessitate no cash outlay, has been made that a holiday be declared when everyone would go to the cemetery and make a general cleanup, the day preferably to be set just before Memorial Day.

Whether or not the city can see its way clear to take over the obligation entailed by accepting supervision is a matter of conjecture. That pooling of interests in behalf of a more attractive city of the dead is commendable, none would gain-That the problem should not be ignored because of its magnitude, is certain; and by doing that which can be done as time moves along the day will yet come when the city cemetery will be an object of pride instead of one of regret.

#### DIG THE NICARAGUA CANAL Autocaster Service.

THERE could be no better time I than the present to begin the work of constructing a canal across Nicaragua, connecting the Atlantic and Pacific oceans. It would pro-vide work at good pay for tens of thousands of workers for years to be residing with her people in Sa-come, and it would benefit every lem. part of the United States.

and shipping men are wondering how long it will be before it is inadequate. Some people are talking of a plan to dig the Panama Canai deeper, to make it a sea-level passageway. But that would take as much time as to build a new canal across Nicaragua, and would cost as much money.

Under a treaty between the two nations, the United States and Nicaragua, ratified in 1916, we have the perpetual right to construct the Nicaragua canal and to operate it, as well as to fortify its approaches. Army engineers who have been surveying the route have finished their task and will shortly make a report which will indicate that it is entirely feasible. As soon as that report is in its hands, Congress should authorize the beginning of construc-

The Nicaragua Canal will be 350 miles shorter—a whole day's steam-in—than the Panama route between than a month in Portland. Jesus, however, made to say about daily living. His meaning very clear in our Gold-New York and Pacific ports. It will save 550 miles and two days time between New Orleans and Los Angeles. It will further reduce the cost of transporting passengers and merchandise between our two coasts and will expedite the transfer of our naval forces from one ocean to the other in case of war. Moreover, it will bring the five Central American republics into closer touch with the United States and thereby tend to remove much of the ill-feeling. born of ignorance, which exists towards us in those regions.

Those are some of the arguments in favor of the Nicaragua Canal. We cannot at the moment think of a good argument against it.

#### MUST AMERICA RESORT TO THE DOLE?

Autoenster Service

TWO million able-bodied English men are "on the dole." That is they are living at the expense of the taxpayers of Great Britain, being allowed enough money from the public treasury every week to keep

them and their families in idleness. That the dole has produced a new class of paupers is the testimony of every impartial observer. Once a man goes "on the dole" he becomes unwilling to work, even if work is The excuse for the dole which is offered by the Labor gov-ernment of England is that the government must support these unemployed men or face a revolution That may be true in England, but it is certainly not the case in Amer-

That there is much suffering among the people of certain parts of Arkansas and other regions which were ruined by the drought of last year is undeniable. Every good

American citizen wants to do what he can to help relieve this distress And, fortunately, we have a great national organization already set up and trained in the work of relieving uman suffering, already actively on the job of providing food, clothing and shelter for those in the stricken regions who are unable to fend for themselves at the present time.

That organization is the Amerian Red Cross. Its officials have surveyed the need and report that en million dollars is needed at once for this work of mercy. President VAWTER and SPENCER CRAWFORD Hoover has appointed a distinguished committee of private citizens headed by Calvin Coolidge and Alfred E. Smith, to help raise the The American people will money. give the Red Cross the ten million dollars, and as much more money as may be needed, if the politicians in Congress who are trying to make political capital out of human misery will keep their hands off. What is being proposed in Con-

gress is that the United States gov-ernment—that is to say, the taxpayers of the United States—shall con-tribute the money with which to feed those who need it this Winter and Spring. In other words, those members of Congress who advocate this would establish the British dole system in this country. That is a British system, but it is not, as SO FAR as can be discerned there President Hoover points out, an American system. The American principle of government is to give needs improvement. The subject to every man, so far as possible, the has been discussed by many since opportunity to work out his own opportunity to work out his own salvation, to protect him in his the proposal to the Lions club Mon-salvation, to protect him in his day looking to the feasibility of rights as an individual, but not to feed or clothe him at public expense

Never in our history has the Fedtary contributions. If Congress The subject is one in which the ntire community is vitally interest-directly or as a gift to the Red Cross it will be more than an imposition upon the taxpayers. be the beginning of the breakdown of the American system of govern-A step has been made to have all ment, reducing us to the level of Great Britain and our citizens to the pauper level of the beneficiaries of the dole. Moreover, it will deprive millions of generous-hearted Americans of the privilege of contributing to the relief of their suffering fellow-citizens.

> In considering the problem of improving the city cemetery, Heppner nay well take a lesson from her neighboring town of Ione. People of that little city recently complet-ed a road on good grade to the cemetery by volunteer labor. What is earned by toil of the hand and sweat of the brow often gives more asting satisfaction

object of the special clean-up day me remind my reader, it is time to think. vital importance to the people of Heppner.
