A minister was in the habit of riding to church in his car. He received an anonymous letter from one of his congregation scoring him for riding in an automobile, saying Jesus Christ never

rode to church in an automobile. The minister read the letter to the congregation with this comment: "If the writer of this letter will come to church properly bridled and saddled, I'll ride just like Christ rode."
Sumner boarder: But why are those trees bending over so far?
Farmer: You'd be bending over too, miss.

In congratulating the winners in the great Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof,

moisture-proof cellophane wrapping the rich aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been air-sealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder, how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh hotness of stale cigarettes if you can.

Believe It, Or Not

A New York banker has figured out that if six copper coins recently unearthed, bearing the date of 600 years B. C., had been placed at compound interest since coined, the returns would have been immense.

How much? Well, it's past the power of comprehension. The American value of these coins was only 6 cents, yet they would have earned at compound interest during the past 2,500 years a ball of gold 62 times as large as this earth, so the New Yorker says.
