COMMERCIAL CLUB JOINS STATE BODY

Al Rankin Named County Director; Action Taken at Lions Meet.

ATTEND CONCLAVES

Recent Discoveries in Medical and Criminal Apprehension Fields Told; Reports State Meet.

The Lions club luncheon Monday noon was turned into a meeting of the Heppner Commercial club long enough to vote that the club take out a membership in the state chamber of commerce and to elect Al Rankin as director from Morrow county. S. E. Notson, commerclub president, presided and explained the advantages to be gained by tying up with the state organization. At present the Hepp-ner club is the only active commercial organization in the county, but Mr. Notson expressed the hope that steps might shortly be taken to

form a county-wide organization.
Of interest to Lions were the reports of meetings attended during the week by C. J. D. Bauman, Dr. A. D. McMurdo and Jasper Crawford. Mr. Bauman attended the convention of the Northwest Association of Sheriffs and Police in Seattle, Dr. McMurdo a meeting of the Northwest Medical association in Seattle and Mr. Crawford the district convention of Lions Inter-Mr. Bauman of the recent organization of a chess and checker club in day nights in the sample rooms of Hotel Heppner, with an invitation to anyone interested in these inside sports to participate. Teletypewriter Exhibited.

Recent progress made in the art of apprehending criminals, as told at the convention, was stressed by Mr. Bauman. Working of the teletypewriter, an instrument used in receiving and sending telegraph messages, was exhibited, and gen-eral adoption of its use recommended for the purpose of broadcasting descriptions of wanted criminals. By means of these machines, already in use, Mr. Bauman said that bank robbers wanted in California were apprehended in three days time at Blaine, Wash., on the Can-Oregon and other prominent men. for medical attention.

The convention offered congratulations to Mr. Meier on the organization of the state police. Mr. Baualso cited the more general use of fingerprinting as a means of identification, saying that the time will not be long in coming when the fingerprints of everyone will be recorded. People should understand that there is no disgrace connected with being fingerprinted, he said. If one be innocent the fingerprints are a protection and should be look-

Dr. McMurdo told of recent discoveries made in treating old brain injuries, which were revealed at the medical convention. The idea has existed in the past that convulsions in cases where people had received a head injury were caused by pressure of the skull on the brain. It was shown that this is not the case, but that such convulsions are caused by adhesion of the brain to the skull through the growing scar tissue. The main treatment for such convulsions is a dehydrating diet, the doctor said. With such a diet the brain is caused to shrink, then through an operation the adhering scar tissue is removed. It makes little difference if some of the brain is taken along with the tissaid the doctor, "for everybody has about five times as much as he needs." A clinic was held showing such an operation, which verified all that the performing physician had said, Dr. McMurdo relat

Blind Work Adopted.

Mr. Crawford reported the adoption at the La Grande convention of blind work as the major project for all Lions clubs in the state for the coming year, and the voting by the convention of an amount to be used in distributing a braille maga zine among blind people. Earl W. Hodges, president of Lions International, was a convention speaker and made a stirring address on Lionism. Fred Walker of Springfield was elected district governor and O. F. Tate of Portland was reelected secretary for the new year. The 1932 convention was voted to Klamath Falls and the 1933 convention to Roseburg. Mr. Crawford was the only delegate present from the Heppner club, though Heppner was also represented by C. L. Sweek, late president of the Heppner club and retiring deputy district governor, Mr. and Mrs. Sweek were in La Grande for the convention Thursday, going on to Wallows lake to spend the week end.

Robert J. Carsner, receiver of U S. land office, The Dalles, was a visitor in Heppner on Tuesday, being called here on matters of business.

Morrow County Pomona Indorses Cook Plan

Morrow County Pomona grange at its meeting in Lexington last Saturday endorsed the Cook wheat Full Squad Goes to Pendleton for marketing plan. The resolution as prepared by S. E. Notson and pass-ed by the grange, follows:
