"EAT MORE LAMB" TO STABILIZE INDUSTRY.

It is to be regretted that there was so small attendance of Morrow county citizens at the meeting Monday afternoon in Heppner when President Hagenbarth of the National Wool Growers association and others from the national and state associations explained the proposed national Eat More Lamb campaign. These men brought to our citizenry a real message—one that cannot be reported in detail through the columns of the press—a message that spells success for the sheep industry, if carried out as outlined. If this campaign is not carried to a successful fruition, then we cannot but agree with the gentlemen that the sheep business of the nation is in for harder times and perhaps utter ruin.

It was asserted by one speaker that the sheep industry is a manufacturing business. He held that the grower is the manufacturer, and that it is now up to the manufacturer to find a market for his product or to cease manufacturing. In other words the manufacturer must merchandise—he must become a marketer of his wares. It was cited that but few states of this nation are mutton eating states. The Pacific coast states and the old New England section are the only states that can be truthfully termed as eaters of lamb. This left practically 75 per cent of the United States as a virgin field for marketing.

Sunday School Lesson

INTERNATIONAL SUNDAY SCHOOL LESSON FOR JULY 12. THE PREACHING OF THE APOSTLES. Acts 4:1-14. Rev. Samuel D. Price, D. D.

Faith in any religion is indicated by the way its followers seek to propagate it. Passing the truths of Christianity on to others is one of the basic principles which Jesus Christ proclaimed. Naturally the apostles' teaching aroused the opposition of those who were especially related to the Jewish Sanhedrin. One particular reason for opposing those of the new sect was that they asserted that the body of Jesus had been raised from death.

The Sanhedrin was summoned the healed man was present with at least his silent testimony. The question was asked, "By what power, or in what name have ye done this?" Again Peter had a lead for further witnessing concerning Jesus of Nazareth and the active work of the Holy Spirit. The climax of the message was in the statement about Jesus Christ, "And in none other is there salvation: for neither is there any other name under heaven, that is given among men, wherein we must be saved."

The Sanhedrin could not deny the fact of the healed man who was in their midst. Their sentence was that this kind of preaching must stop. Peter's bold answer to that injunction is given in the Golden Text: "We must obey God rather than men." Acts 5:29.

start in the right direction has been made. Definite results have already been obtained and through the cooperation of the growers success can be had.

A friend of ours in Texas read of the eat more lamb campaign being conducted here in Oregon. He called upon his corner grocer for a lamb roast. The grocer replied that he didn't carry lamb for the reason that he had no sale for it. He agreed to order a lamb roast for the patron on the following Saturday. The customer told him how to prepare the lamb and gave him a sales talk. In less than three months this corner grocer was selling three to five lambs every Saturday. Today, practically every grocery in a half dozen of the leading cities of Texas are featuring lamb. The people are now calling for lamb. Doctors will tell you that it is the invalid's food. It is easy to digest and there is no more delicately flavored meat to be had. Patent food manufacturers have done much to transform America into a package food consuming nation. They have directed the people from meat to other foods, and many of these not half so good nor nearly so nutritious as the meats. This was done through advertising and the fresh meat producers are going to have to resort to the same tactics if they care to survive.

Perpetuation of the sheep industry means much to Morrow county. It is one of the leading industries and it is the only crop industry the county has which means real cash money on the barrel head when market time comes. It is truly a money crop and it is the one crop that can be absolutely controlled providing the manufacturers are willing.

In Oregon there are 3,000 sheep growers. How easy these growers can form themselves into a close marketing organization can be visualized by anyone who cares to give the idea a second thought. This should be done, but it cannot be done if indifference is to be shown to the leadership of the National Wool Growers association plan. We believe the plan is entitled to a 100 percent support throughout the state. We cannot see how any honest grower can fail to assume his share of responsibility in a matter of such great importance to him and his fellows. Surely Morrow county growers will not do otherwise.

As we see it this plan is not one originated for the personal aggrandizement of a few men, but it is the beacon light that will direct the industry's ship from the shoals of ill fate into the harbor of permanent security.

PISTOL POPPING OFFICER RELEASED BY JURY.

A QUICK-TRIGGER deputy sheriff at Ardmore, Okla., recently shot and killed two youthful Mexicans, students in one of our nation's universities. These young men happened to be near relatives of the president of our sister republic to the south. A third youth was in the party, but saved his life through pleading with one of the officers. At the trial it developed that the two dead boys were carrying fire arms, and due to this fact an Oklahoma jury found the deputy not guilty of wanton murder. The jury turned him loose to go kill again. These boys were peaceful. They were on their way back to their native country to spend the vacation and at the time of their murder they were traveling at night. The deputy gave as his excuse that he thought the boys were bandits and when he and his partner accosted them they drew pistols and it was then he began firing.

A STATESMANLIKE MOVE.

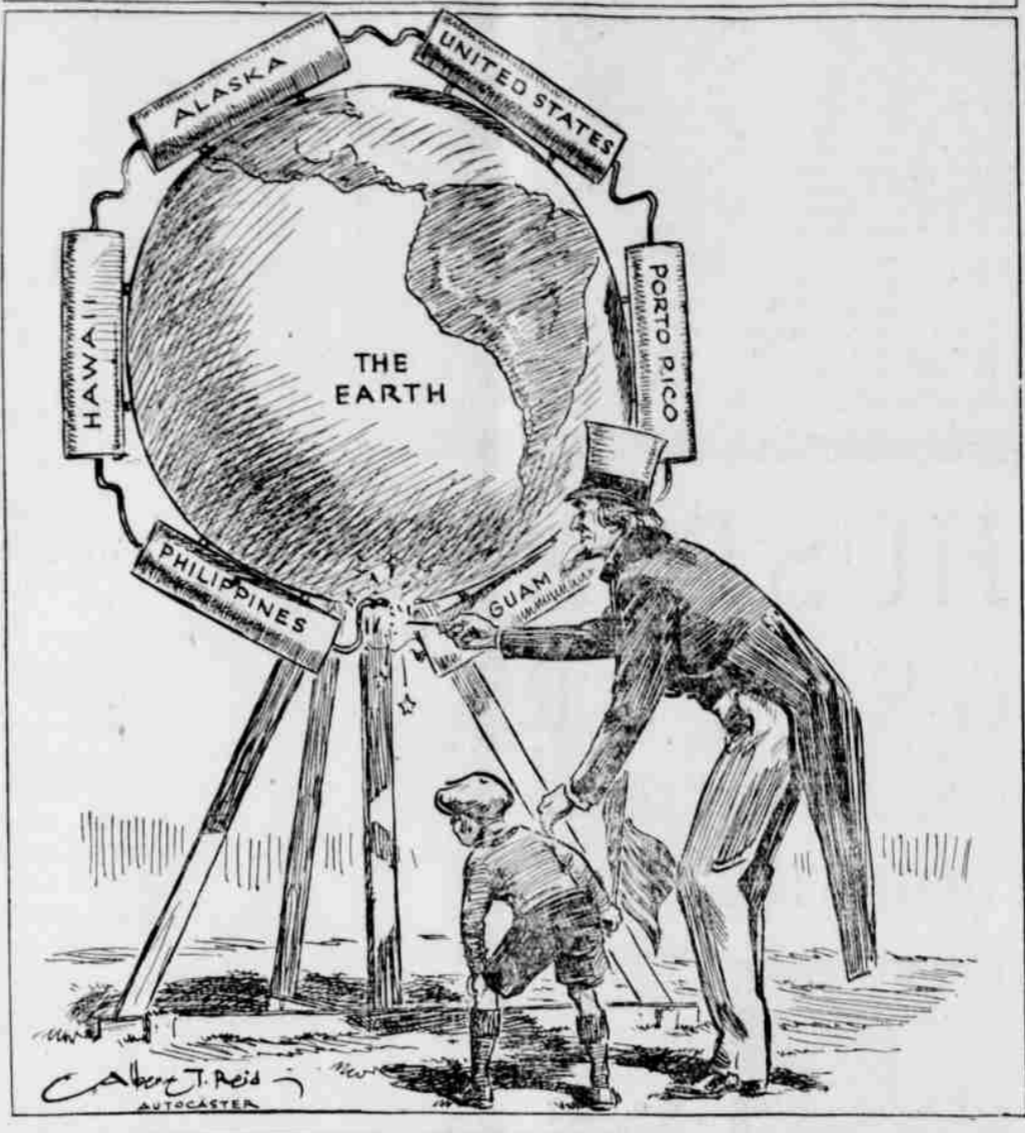

CALLING in the leaders of both the major political parties and getting their approval beforehand, President Hoover acted in a statesmanlike way in putting forward his proposal for a one year suspension of payment of principal and interest on war debts.

which we reached in 1928. But already the financial and business world is demonstrating its confidence that the upswing has begun, and the outlook for the coming year seems distinctly brighter than it did a month ago.

After all, it is only good business to give a debtor easy terms if he cannot meet the terms agreed on. That is true as between nations, as it is between individuals. Everybody who owes more money than he can immediately pay has found his creditors generally willing to take what he could give them, rather than to apply undue pressure. It is only fair to Germany to give that republic the same kind of a chance to catch up that private business interests grant to their customers who may be in difficulties.

THE FAMILY DOCTOR. By JOHN JOSEPH GAINES, M.D.

Mistaken Folks

People are still referring to sciatic neuritis as "sciatic rheumatism." It just seems impossible to educate people to the point where they can discriminate for the man or woman who limps,—to say that he or she may not have rheumatism at all. Remedies good for real rheumatism will not benefit cases that limp from other causes.

I have seen many patients who had teeth and tonsils out, in an effort to cure neuritis that came from overstrain or injury. I once had a case of sciatic neuritis—a severe one—whose left sciatic nerve became inflamed because of a diseased colon at the sigmoid flexure; he was quite disabled, confined to bed. This man had had his tonsils out and several teeth extracted without benefit, of course! Such diagnoses in this advanced day and time are positively inexcusable. A neuritis is never a rheumatism.

And I have met many patients who had synovitis in the knee-joints that might have been cured in the early stage by simple rest and the proper application of dry heat. Nine

out of ten of them had taken medicine for "rheumatism," which of course failed. The synovial membrane is a soft, cushion-like layer, lining the joint, which provides the lubrication for the smooth performance of the hinge. Inflammation of membrane by violent pressure, overstrain, or by external injury, and you have synovitis; the joint becomes feverish, dry, painful, and with little swelling. It is not rheumatic, is not necessarily caused by germs, and is not benefited by serums, vaccines, or drugs taken by mouth for rheumatism.

To me, another terrible misnomer, is to call a complaint "muscular rheumatism"—that is, between joints. One may get muscle-strain, myositis, or the vague aching and general tire of an exhausted nervous system, but not for goodness' sake "muscular rheumatism." I am not infallible, but to me there "is no such animal." The fellow with this complaint needs REST, change of scene, mild warm baths, and possibly change of diet and feeding. Rheumatism medicines do not cure it, and time should not be wasted on them. I wish I had more space to elaborate.

4-H CLUB MEETING.

The Standard 4-H club met Sunday afternoon at the Gooseberry schoolhouse, with eleven members present. Following the business meeting, a program was given by Elaine Nelson and Joyce Carlson. Elaine talked on "Ethics of the Show Ring," telling the best methods of exhibiting a calf at a county or state fair, and the paper was interesting and instructive. "Care and Management of the Dairy Cow" was reviewed by Joyce who set out the essential points to be considered in handling the producer of butterfat. The girls then gave a demonstration on making a milk shake, after which everyone present was given a sample of the drink. The meeting closed with club songs and club pledge.—Reporter.
