Driscoll of this city, who is a nurse in St. Joseph's hospital at Pendleton, was taken suddenly very ill early Wednesday morning, suffering an attack of tetanus or lockjaw, brought on, it is reported, from a burn on the hand received from the discharge of a firecracker. Members of the family were summoned to Pendleton immediately, and those remaining at Heppner were called to her bedside this forenoon, it being reported that her recovery was impossible as she failed to react to the serum treatment. Miss Driscoll has been taking nursing at Pendleton for three years, and her graduation would have been an event of next season. When PAIN Comes
WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips Milk of Magnesia.
One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.
Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

BOWELS need watching
Let Dr. Caldwell help whenever your child is feverish or upset; or has caught cold.
His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste.
You have a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3500 births without loss of one mother or baby is believed unique in American medical history.
Get a bottle of Dr. Caldwell's Syrup Pepsin from your drugstore and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels; increases appetite—makes digestion more complete.
