HERE'S an opportunity... a \$2.50 Purina Poultry Chow feeding hopper with every four 100-pound bags of Purina Growing or Laying Chows and 50¢ in cash. This is a special offer that's good for the next thirty days. Take advantage of it before the hoppers are all gone.

This special hopper... easily adjusted for different size birds... can be used for the growing pullets out on the range or in the laying house for the laying hen. The feed is always kept clean and there is no waste as the hens can't scratch it out on the ground. It's rat proof, too. Each hopper holds 25 pounds of Chows... enough for ten days' feed for 25 birds in winter, or about six to eight days' feed for 25 birds during the summer and molting season.

SPECIAL CULLING SERVICE THIS MONTH
This is no time to feed loafers. Feed only the layers. We have a man in our organization who can help you in weeding out birds which are not paying their way. We are offering you his services without any cost to you. Come in and talk to us about it this week!
