

Local Happenings

Attending the state American Legion convention at Corvallis beginning today are Charles W. Smith, Paul Marble, Elbert Cox and W. R. Poulson, representing Heppner post, and attending the auxiliary convention held at the same time are Mrs. C. W. Smith, Mrs. P. M. Gemmill and Mrs. W. R. Poulson, representing Heppner unit. Mr. and Mrs. Smith and Mrs. Gemmill left for Corvallis yesterday morning, while Mr. Marble and Mr. Cox departed yesterday evening. Mr. and Mrs. Poulson expected to attend from Eugene. The Poulsons have sent word that they will be in Heppner by August 15 to start preparations for the school year, Mr. Poulson being city school superintendent.

Jay Hiatt, down from the Sanford canyon farm Monday, was exhibiting an unusual watch charm in the form of a wee monkey wrench which had been plowed up from some two feet under the ground. Though it had evidently been buried for years, the metal part was bright and shiny, and the movable parts worked freely.

Mrs. Lucy E. Rodgers and Mrs. Orve Rasmus left Sunday afternoon on a vacation trip to Bandon. On the way Mrs. Rodgers expected to attend a meeting of county school superintendents being held at Salem.

Mr. and Mrs. Harold Cohn and son Philip and Mr. and Mrs. Garnet Barratt departed yesterday for Browning, Mont. The men will look after their sheep flocks which have been on summer range in that vicinity.

Dean Carlton, small son of Mr. and Mrs. Melvin Moyer, was brought in from the farm home Saturday for treatment by a physician. The little lad fell and ran a tooth through his upper lip.

Vere Hale, while chopping wood the end of the week, had the misfortune to cut his forehead with the axe. The attending physician took six stitches to close the wound.

Frank Monahan and son James and Jerome O'Conner left the end of the week for Browning, Mont., to look after sheep on the range there.

Mrs. Chris Brown was up from the farm home on Willow creek Saturday. Harvest on the Brown farm was completed with a fair yield.

Oregon Dairy Herds Increasing In Size

In spite of the low prices received for milk and butterfat, Oregon dairymen are increasing rather than decreasing the size of their dairy herds.

This fact is brought out in the figures just being compiled for the second year of the Oregon dairy cost study carried on by the farm management department at Oregon State college, under the direction of H. E. Selby. On April 1, 1930, 514 dairy farms included in the study showed an average herd of 17 cows, while on April 1, 1931, the average had increased to 18 cows each.

The average value of the 8081 cows included in the survey was given as \$112.60 on April 1, 1929. By April 1, 1930, this had decreased to \$104 and by 1931 the figure had fallen to \$86.

For the purpose of the survey the farm management department picked at random dairy farms with six or more cows in 22 counties representing the various dairying districts of the state. When completed it is expected to show the cost of producing butterfat in the various parts of the state under varying conditions and types of management.

Drivers of sixes never want less

because it takes six cylinders to give the smooth, silent power that makes driving really enjoyable

Drivers of sixes are spoiled for anything less. Drivers of sixes are sold on multiple cylinders. They would no more think of giving up "six" performance than any other real advancement of motoring. For them, the whole cylinder question has been settled. Slip behind the wheel of a Chevrolet Six, and you'll know why these drivers feel as they do. Step on the starter, let the motor idle—and notice its silence. Throw in the clutch, shift into "low"—and feel that smoothness. Change into "second," hit a faster and faster clip, slip into "high," sweep along at top speed—then throttle down to barely a crawl. The smoothness and flexibility you always get are six-cylinder smoothness, six-cylinder flexibility. Annoying vibration is gone!

Over two million owners have tested and proved this six-cylinder Chevrolet engine. They have found that it costs less for gas and oil than any other. They have found that it actually reduces upkeep costs, by holding vibration to a minimum. They know a six is better in every way—and they would never be satisfied with less!

Twenty beautiful models, at prices ranging from \$475 to \$675. All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy G. M. A. C. terms.

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.
