NO TIME TO CUT SALARIES.

ALL sorts of propaganda is being talked these days to the end that taxes be lowered. And many tax-cutters would begin by cutting the salaries of public employees.

In explaining the Marshfield city council's position for refusing to slash its employees recently, Mr. Ekblad said:

"We hear so much these days about high taxes, but do not study the cause of high taxes. The first thing that comes to our minds is to slash salaries. The county, the city, the schools, have been asked to cut salaries without any investigation whatsoever regarding the actual amount paid the employees.

International Sunday School Lesson for August 16

SOWING AND REAPING Galatians 6:1-10

Rev. Samuel D. Price, D. D.

This quarterly temperance lesson also suggests a profitable study for these summer days. One of the epistles of Paul furnishes the lesson text. Search out all the thirteen or fourteen letters that he wrote and relate them to the historical account in the Acts.

Moral problems faced the people in that day and these letters deal very directly with human affairs. Since the same difficulties are with us today we find even greater help in these same writings of Paul.

The Golden Text is just plain common sense as well as spiritual truth: "Whoever sows to himself shall also reap." That is certain in the material world and not the less positive in the spiritual realm. Wild oats take nourishment from the soil and produce their own crop. Alcoholic liquor is habit-forming and death dealing, no matter how slowly the poison may work.

spend less money, we must have efficiency in all departments, drawing a fair compensation for their work. "The City of Marshfield officials have been asked to cut all employees ten per cent, which matter we took under advisement and refused to do so at this time. Our total salaries paid out in the city of Marshfield to our city employees are little less than thirty thousand dollars, which is budgeted for this year. The city council could save the taxpayers of the city three-tenths of a mill in slashing our employees ten per cent for the balance of the year. This would mean, if you are paying one hundred dollars in taxes, saving you thirty cents in the next three months. The 1931 budget was carefully studied when made, and our employees are entitled to salaries as agreed upon for 1931.

"I noticed through the press yesterday that our Governor is raising wages instead of slashing, in some places, and no one is more sincere in lowering taxes than Governor Meier."

A GOOD CODE FOR ANYBODY.

Autocaster Service. MAHATMA GANDHI, the leader of the revolution against British rule in India, told newspaper men the other day the rules of conduct which have governed his own life. He would not presume to lay down rules for anybody else, he said, but he had a code which he had consistently followed. These are the rules of life, as Gandhi observes them!

Love. Truth. Chastity. Fearlessness. Service to others. Control of appetites. Belief in the equality of all mankind. Abstention from alcohol, tobacco and drugs. Belief that all great religions are of equal worth.

It seems to us that one of the causes of the trouble in which the world finds itself today is that most people have forgotten these ancient rules of life, which have always been sound and still are. We have been carried away, all of us, both in America and elsewhere, by the idea that there is some magic in material possessions which will make us happy in spite of ourselves. Nothing was ever farther from the truth.

BACK UP THE PRESIDENT.

Autocaster Service. PRESIDENT HOOVER has announced a policy of rigid economy in Federal Government expenditures. He has incurred the anger of many minor officials by ordering them to spend no money not necessary to the public welfare, to incur no further obligations to be paid for in the future, and to cut their estimates of their departmental needs for next year down to the bone.

In the face of a deficit of nearly a billion dollars this year, it would be absurd to suggest that the President is not more than justified in his stand. Much of the reduction in expense will have to be in the program for naval expansion; a large part of it will have to come out of the Army appropriation. In time of peace there seems to be no better place to cut off expenditures. We are not going to suffer if we don't have quite so many cruisers and battleships. Nobody much is going to worry over the abandonment of a few obsolete Army Posts. The country won't go to ruin if a good many of the more ornamental bureaus and activities of Uncle Sam are suspended until we can get back to an even keel and live within our National income.

One thing is certain; there is nothing which the people of the United States would resent more keenly in the present situation than an increase in Federal taxation. That goes, too, for state and local taxes. Political leaders who want to remain in office or to gain office can do nothing more popular now than to follow the President's ex-

ample and declare themselves for economy in state, county, and town expenditures. There is no part of the United States in which the burden of taxation is not already too heavy. Too much of it is carried on the shoulders of real estate, not enough on the shoulders of those who get the benefits of taxation without paying their proportionate share.

It seems to us that public funds should not be spent, for the time being at least, for anything which does not directly benefit all of the people. What benefits all of the people is public works which will give employment to the largest number of men and put them back in a position to become customers of the nation's industries and merchants. It also seems to us that ways and means should be found to apportion taxation in proportion not only to people's ability to pay, but also to the benefits derived.

We think that economy is just as sound Democratic doctrine as it is Republican doctrine. We cannot see any partisan reason in this move of Mr. Hoover's. It is just good business sense applied to national affairs.

THE FAMILY DOCTOR. JOHN JOSEPH GAINES, M.D.

"POISONED HEARTS"

My readers, I feel sure, will pardon this bit of personal history, since it might concern many thousands of people who are past middle age—at a time when we watch our common enemy from every possible angle of attack; life grows precious as years advance.

From one of these attacks I staggered into the office of a neighbor physician. After some examination he said, "you've got a poisoned heart, doctor—I don't think it is tobacco; on the other hand, I don't see at this moment just what it is; you need a heart tonic, and need it right away, till further investigation."
