

BOARDMAN

MRS. A. T. HERREIM, Correspondent.

A farewell party was given for Mr. and Mrs. Charles Wicklander and family in the school auditorium Monday evening by the Grange. A large crowd attended and dancing was enjoyed. Refreshments were served late in the evening. The Wicklanders are leaving Wednesday for La Grande where they will make their home. Gladys Wicklander will attend business college. Carl will enter the normal school. Gloria will continue her high school work there, and Ellabel and Alice will both be in the grade school. Mr. Wicklander will continue his work with the Grange insurance. Mr. Wicklander and family located on the Boardman project about eleven years ago. Mrs. Wicklander had been here for about two years. The Wicklanders will be greatly missed in the community. Mr. and Mrs. Wicklander have been active members in the Grange.

Sometime in the early part of the summer someone took the two gasoline lanterns from the Juvenile Grange hall. Members of the Grange have reasons to believe that they know who that someone is, but they are willing to give this party a chance to put the lanterns back from where they were taken and no questions will be asked. If they are not returned within a reasonable time other steps will be taken to get the lanterns.

Are you losing your grip upon God in this day of uncertainty and unrest? We must look to God for help and have greater faith in Him who is able to take us thru the hard places and bring us through with a note of victory and of praise upon our lips. Our trust in God must be stronger than ever if we are to face the crisis of our day and come out victor. This is the time to get a hold upon God. We will discuss this topic at 11 a. m. Sunday morning. You are invited to our services, which we trust will be a blessing to your soul and a help to better Christian living.

When the dust of time has settled upon current controversies, as it has upon those of the past, it will not matter greatly which side claimed our allegiance.

What will matter greatly is whether in the course of the years we have moved closer to God or moved farther away from Him. God and Heaven are not theories. They are facts revealed to us by living at our best.

The Church is the gift of my fathers to me to help me to live. Humbly will I enter her open door to learn how others before me have met the issues of life with victory; to drink of the living waters of inspiration; to pray for courage, for faith, for light.

CARPING CRITICISM.

"But the tongue can no man tame; it is an unruly evil, full of deadly poison." James 3-8.

Would it be our calm, unbiased opinion that a person who never had had a single day at school in his or her life; or who had had but the most elementary sort of education, would be a proper critic of educational systems or methods; or properly fitted to supervise or plan educational programs?

Would we consider that some person, without the least understanding or knowledge of medicine, and perhaps equipped only with an active prejudice against doctors and medicine generally, would be fitted to make any criticism of doctors and the practice of medicine worth the attention of any thinking person? Would we feel that their criticism ought to influence or shape our thinking?

In these days of specialists of every sort and in every walk of life, who is there, with sound, common sense who would trust their affairs of any sort in the hands of some one with absolutely no knowledge of those affairs? Not one of us!

And yet today, this hour, on every street corner and in every loafing center, one may hear, from the lips of those who never knew a day of Christian living or thinking or service in their whole lives, blatant, CARPING CRITICISM of Churches, preachers, Christianity; even of the Bible and the proper observance of the Lord's Day come in for a share of this same CARPING CRITICISM.

Well, it takes less of a stock of

WOMEN: watch your BOWELS

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients.

When you've a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!

brains and sense and integrity to set up in the business of CRITICIZING than anything else on earth! It is surely a pin-head business; as anyone may see by noting those who engage in it. And it is also unportsmanlike and unfair. Any person on earth who had anything to sell would pick their very best possible sample for showing to possible customers; but not so with the derelict who sets out to CRITICIZE the Church. He snoops and peeps and hunts around till he finds the poorest old backslider in the community and then, like a pup dragging home a dead cat, he holds up his specimen and chortles, aha! look at it! I told you so! And if he would only go home and take a look in the mirror he would see a worse one. And then when he has

stood around CRITICIZING all his life, that of which he KNOWS NOTHING, when death comes to his habitation, he hurries to the Church, or to the preacher; he wants what they stand for then. Let us think of these things the next time we hear some of the prevalent CARPING CRITICISM! If you have not a Church home, come and get acquainted with our Church; enjoy the friendly, homelike atmosphere of this congregation. Our Bible School will prove an interesting experience. There is a class for you no matter how old or how young. Come, we invite you! For the coming Lord's Day the sermon topics are: Morning: "Lukewarm." And for the evening: "That Battle of the Baras."

A he-man is one who is not afraid to tell his wife the truth, regardless. Let the dishes fall where they may.

EARL ESKELSON, Editor.

Statistics show that fewer dishes are broken in kitchens planned or painted by Tum-A-Lum. The reason is obvious: it is easier to do work in a bright cheerful kitchen.

Well, folks, Rodeo's just 14 days away. With harvest over and all plans laid for fall repairing and larding the fuel supply with the Tum-A-Lum, there'll be nothing to worry about except having a good time.

A HOME OF YOUR OWN; IT DOESN'T COST MUCH TO BUILD IT NOW BUT IT WILL GIVE YOU A WORLD OF PLEASURE TO OWN A HOME OF YOUR OWN.

We notice the wool market is on the mend and the Chinese are about to make chop suey out of the wheat surplus—better times are ahead, but no better time to buy building materials than now.

"Fore!" yelled the golfer, ready to play. But the woman on the course paid no attention.

"Fore!" he shouted again with no effect.

"Aw," suggested his opponent in disgust. "try her once with 'three-ninety-eight.'"

Try it. Our Architectural Department will help with the planning of remodeling your old kitchen. Then new bright paint will make it the nicest place in the house.

MR. FARMER--- This is of Importance to You. It does not take a prophet to tell you your two main interests—outside of health for yourself and family, of course. They are: 1. Making the farm pay. 2. HAVING AS MANY COMFORTS AND CONVENIENCES AS POSSIBLE. Electrification of your farm and home is the answer. Electrification on the farm is no longer in the experimental stage. Actual tests with electrical machinery and appliances over a period of years have proved that electric power is the most efficient and economical form of mechanical power. In the home, electricity can shorten the working day by doing in less time and with little human effort tasks heretofore done by the women of the house. The cost of appliances and machinery? They more than pay for themselves in more economical farm operations; in a higher standard of living. If your farm and home are not electrified, you are doing work that a machine can do for you; you are wasting valuable time in farm operations. IT MEANS DOLLARS AND CENTS TO YOU!
