

LEXINGTON NEWS

By MRS. HARRY DUVAL. Lexington Parent Teacher association held its first meeting on Wednesday evening, Sept. 30, at the high school auditorium. The program for the evening consisted of a piano duet by Mrs. Harry Schriever and Miss Clara Holey. This was followed by two solos by Lauriel Beach, accompanied by Miss Holey. A short business session was held. One of the chief items of interest to patrons of the entire school was the decision to convert the old typing room into a rest room to be used in case of accident or illness of pupils. A cot has been loaned, also a pillow, but the room is in need of sheets, blankets, towels, handgases and a few simple medical supplies. Everyone should be interested in this and any article they can give or loan for the school year will be gladly received. The next meeting will be held on Wednesday evening, October 28, at 7:30. A short health program will be given, followed by a brief business session. A get together party of parents and teachers will be held in the gym. All patrons and people interested in the school are invited and urged to attend. Light refreshments will be served. A large crowd from Lexington attended the Pomona Grange held at Ione last Saturday. In the afternoon Laurel Beach sang and he was accompanied on the piano by Miss Mae Gentry. Mr. and Mrs. Ernest Thornburg spent the week end here visiting relatives and friends. Mrs. Lorena Isen, who is visiting with Mrs. Lavilla Howell, made a trip to Portland Monday, returning Tuesday. R. H. Lane kindly conveyed the Lexington high school to Heppner last Friday. They went up in Mr. Lane's big truck to the practice football game between Lexington and Heppner. The Lex boys were defeated. Mr. and Mrs. Harry Duval and Winford spent Sunday in Stanfield, visiting with Mrs. Duval's parents, Mr. and Mrs. J. W. Wald. They went over to help Mr. Wald celebrate his eightieth birthday. Please remember Saturday, Oct. 24. This will be the Fifth Annual Pioneers reunion. Everybody is invited to come and enjoy the day visiting with old friends. Word has been received here that Eula McMillan and Helen Valentine have both pledged the Alpha Delta Pi sorority at the University of Oregon. Ruth Dinges has pledged the Alpha Omicron Pi at Oregon State college. Mr. and Mrs. Fred Lucas have moved into the Leach house and are getting nicely settled. Mrs. Lavilla Howell spent the week end shopping in Pendleton. Mrs. Lucy Rodgers from Heppner was in Lexington last Saturday on business. Mrs. Emma Breshers states that she has received her notarial commission from the governor, which is good for four years. She also received her commission for Post Office General from Washington, D. C. This is good for an indefinite period. Mrs. Roy Campbell of the Social Ridge district is enjoying a visit with her father, Mr. Severance, of Banks, Ore. The executive committee of the P. T. A. met at the home of Mrs. Harry Dinges Monday night. Those present were Mr. and Mrs. Robert Wilcox, Mr. and Mrs. Edwin Ingles, Mrs. Lester White, Mrs. Ed Kelly, Mrs. Lavilla Howell and Norma. Mrs. Katherine Owens and a little daughter Luella are here on a visit. Mrs. Owens was formerly Miss Katherine Eskelson and she is visiting her sisters, Mrs. Lawrence Palmer, Mr. Robert Wilcox and Mrs. William VanWinkle. She expects to visit her brother, Earl, in Heppner before returning to her home in Salem. A party composed of Mr. and Mrs. Paul Menegat of Heppner, Mr. and Mrs. Edwin Ingles, Mrs. Inderbitzen and Miss Clara Holey of Lexington, motored to Yakima for the week end to visit friends. Lester McMillan is still improving from his recent illness and he is planning to return to school next Monday.

Adventure Spices Life Of Highway Engineer (Continued from First Page.) constructed by a county crew. Here the road joins the Eight Mile market road, which is wash-boarded at present. Mr. Norris believes on rough estimation that \$40,000 will put the Rock creek section in shape. The Bureau of Public Roads expended \$85,000 for the 5.2 mile stretch including engineering costs and \$1400 for drift fence. The 4.4 miles now being made will cost \$160,000 of bureau money, it being the heaviest construction on the entire route. Money is now available for surfacing the 5.2 mile stretch, and it is probable this work will be done in the spring, and the 4.4 miles along with it as it would be more economical to let the whole job in one contract. In addition to its money expended on the road, which, when present contracts are completed, will exceed \$400,000, the forest people are contemplating the construction of a public park near Wilson pass, similar to Blue Mountain park between Spray and Fossil on the John Day highway. The spot is ideal, overlooking a deep, wooded canyon, and having a fine flowing spring. The new grade has not been opened to the public as it is impossible to traverse the uncompleted portion by car. When it is opened many people will marvel at the wonderful grade and beauty of the road. Some steep country is traversed, but the grade is easy all the way. Five percent is not exceeded in reaching the highest point after leaving Chapin creek, where the road reaches an elevation of 4842 feet. Wilson pass, through which the 5.2 mile stretch passes, is 4650 feet. Going down the mountain on the Wheeler coun-

ty side of the pass, three loops were constructed in going two miles to overcome a distance of 1000 feet. The 1000-foot way was taken when moving materials in, by shooting them down over the mountainside on sleds. The forest service has signed all the connecting roads which join the new construction. A forest road built last year from Ukiah joins with the 5.2 mile stretch. It is 59 miles to Ukiah from this point. Other roads leading off, are the Dixon Ranger station, Lone Rock and The Notch roads. The Notch is a forest station overlooking the property of the Kinzua lumbering interests. The Heppner-Spray road passes through the belt of yellow pine timber being tapped by the Kinzua mill, and much of the timber is now overripe. Lumbering interests have timber leased adjacent to the road, and last week had a camp established not far from the highway construction camp for the purpose of treating bugs on the trees in that vicinity.

CHURCH OF CHRIST. JOEL R. BENTON, Minister. Mrs. Wm. Poulson, Director of Music. Bible School, 9:45 A. M. Morning Worship, 11 o'clock. Senior and Junior Christian Endeavor, 6:30 P. M. Evening Worship, 7:30 o'clock. Choir rehearsal, Wednesday evening, 7:30 o'clock. Church Night, Thursday evening, 8:30 o'clock. "Out of the Furnace." "Then Shadrach, Meshach, and Abednego came forth out of the midst of the fire—nor was an hair of their head singed, neither were their coats changed, nor the smell of fire had passed on them." Daniel 3:26-27. Out of the fiery furnace into which these young men were cast for the sake of their testimony for God, has come one of the world's richest legacies of heroic faith, heroic courage, and heroic sacrifice. Many of the world's greatest blessings and heritages have come out of the fiery furnace of trial and affliction. Pascal, the great writer and preacher, never knew what it was to have a day without pain after he was eighteen years of age. Richard Baxter wrote "Saint's Everlasting Rest" while he walked in the furnace of suffering. Pasture, who discovered the cure for rabies, lived twenty-seven years after a paralytic stroke, and did the very best work of his life in this period. Prescott, the historian, lost the sight of one eye, and though he could scarcely see out of the other eye, he went through more than a hundred volumes of musty literature to get his facts. Lord Nelson, in his early life was a weakling, and thru all his life was handicapped by physical infirmity. Milton's "Paradise Lost" was born in the furnace of affliction. Fanny Crosby's six thousand hymns came singing out of the furnace.

METHODIST CHURCH. GLEN P. WHITE, Pastor. 9:45 a. m., Sunday School. 11:00 a. m., Morning worship hour. Rufus Pieper, Lexington, Ore. 29-30 Will trade '24 ton and quarter Reo speed wagon, in good mechanical condition, for light car. Phone or write E. H. French, Hardman, Ore. 29-30

Most of the things that are good came out of furnaces—some sort of suffering that makes men and women strong and courageous and self-sacrificing. The furnace often proves to be our best chance to become something and do something, worth while. If you have not a church home, we very cordially invite you to come and worship with us. Begin the Lord's Day in our Bible School and have a part in all the services and activities of this Church of Christ. You will be interested and helped. For the coming Lord's Day the sermon subjects are: For the morning, "This Mind," evening, "Empty."

OCTOPUS ON DISPLAY.

E. Lathrop, sea captain who for 22 years sailed the Oregon coast, is displaying a large stuffed devil fish at the Curran Millinery shop, giving 15 percent of the proceeds to the Heppner Public Library. A charge of 10 and 15 cents is being made to view the specimen, which Mr. Lathrop caught off Rose spit, south of Ketchikan, on the Alaskan coast. Mr. Lathrop gives a discourse on the nature and habits of the octopus. As the display is made for educational purposes, he says no child is turned away if he or she is not able to produce the 10 cents.

40,000 Tons Northwest Wheat Sold to China

Spokane—Forty thousand tons of 1931 wheat were reported last week by Henry W. Collins, vice-president and Pacific coast manager of the Farmers National Grain corporation, to have been sold to private buyers in China. All of this wheat was grown in Washington, Oregon and Idaho. Mr. Collins said it is for October delivery and is in addition to the 50,000 tons ordered by the federal farm board to be loaded in the Columbia river for the Chinese national government as part of the 15,000,000 bushel deal consummated last week. Besides these, Collins said, several large sales by private exporters to buyers in the orient have been reported.

BOWELS need watching

Let Dr. Caldwell help whenever your child is feverish or upset; or has caught cold. His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste. You have a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3500 births without loss of one mother or baby is believed unique in American medical history. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels; increases appetite—makes digestion more complete.

When PAIN Comes

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips Milk of Magnesia. One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.
