Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated.

Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless dose neutralizes many times its volume in acid. For 50 years the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians in correcting excess acids.
