EVENTS LISTED FOR O S C HOMECOMING

Beavers to Have Usual Program for Alumni Nov. 13-14 Though Game to be in Eugene.

No. Oregon State college and University of Oregon are not holding a joint homesoming program at Eugene this year, but the two colleges are holding their celebrations on their respective campuses on the same week-end, November 13-14, and will attend the same state championship football game to be played at the university. This is the latest official word that comes from the two campuses in answer to many puzzled inquirers who had the idea that the use of the same game as the main home-

coming attraction by both O. S. C. and U. of O. meant elimination of one of the usual programs. At Oregon State, where Martin Redding of Salem is heading the big student committee in charge of events, the program will begin on Thursday night, November 12, with a series of student parties and a radio broadcast over KOAC between 8:15 and 9:30 o'clock for the benefit of alumni. Friday the alumni will arrive while students work on the big bonfire and scores of illuminated house signs that make fraternities and halls gay throughout the weekend for all who pass by. The bonfire rally is at 7 o'clock that evening. The Oregon State campus will not be without its football game, however, for the second of the Rook-Frosh games, the "big-little" battle of the state, will be played Friday night under the lights of Bell field, starting at 8:15 o'clock. Saturday a special train as well as hundreds of cars will move students and alumni over to Eugene for the annual O. S. C.-Oregon game on Hayward field. Immediately after the game they all will return to complete the day at Corvallis with the annual alumni banquet and alumni and student balls. The annual Phi Kappa Phi alumni breakfast and informal campus visiting are the only events scheduled for Sunday. Emil and Leonard Carlson report heavy rains of late out in Gooseberry, but the ground not yet wet to the depth it should be this time of year. Wheat is coming along very well, however, with plenty of moisture to keep it growing.

"You needn't tell me - I know Camel is the fresh cigarette!"

Never parched, never toasted CAMELS are FRESH in nature's own mild way!

EVERYONE knows now that Camels are the fresh cigarette. If inquiry went deeper, it would reveal that Camels are the natural moisture cigarette. That's important, because in handling fine tobaccos, when you process out natural moisture, you sacrifice freshness and flavor too. Camel smokers needn't worry about that, because Camels are blended of fine Turkish and mild Domestic tobaccos that are never subjected to violent process-

ing. They need no parching or toasting to make them smooth, palatable, cool. That's why the Camel Humidor Pack is such a boon to Camel smokers—it preserves the freshness, flavor, natural moisture, fragrance that are in this fine cigarette to start with. Camels are fresh in nature's own mild way, and if you want to see what that means in unalloyed smoke-enjoyment, switch to them for just one day — then leave them, if you can!
