Guy Huston reports a lot of winter out on Eight Mile; at least this was so up till noon Wednesday, but during the time he was in Heppner reports of a chinook over the Hardman country that reached almost to Heppner, may have changed the face of things. He also reports the ground frozen to a depth of perhaps seven inches, and a covering of some six or seven inches of snow. Mr. Huston was looking after business while in the city.

C. W. Smith, county agent, who spent some time at the Bob Thompson ranch on Rhea creek yesterday, reports that it snowed there all of Tuesday night and Wednesday forenoon, reaching a depth of 8 inches when Mr. Smith returned to town, and still snowing. Some prognosticators are saying that we are in for one of the real old time winters but here's hoping that they may be mistaken.

Among college students home for Thanksgiving were Roderick Thompson and Stephen Thompson from Oregon State college, who joined the family board at the homes of their parents, Mr. and Mrs. J. G. Pat Healey is running his bands of sheep on the range out on Little Butter creek, and so far has been able to get pretty good feed on the hillsides. ## CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, involve its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.

## ACID STOMACH

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips Milk of Magnesia neutralizes instantly many times its volume in acid. Harmless, and tasteless, and yet its action is quick. You will never rely on crude methods, once you learn how quickly this method acts.

Be sure to get the genuine. "Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.
