Charles Klinger, who resides some 12 miles north of Lexington and who is quite extensively engaged in raising turkeys, was looking after business in Heppner Monday forenoon. He ran into a lot of snow as he neared Lexington, and found the same conditions prevailed at Heppner, but the storm had not hit his part of the county at that time. Mr. Klinger is quite enthusiastic over turkey raising in Morrow county and has made a pretty fair success of the business. This season he has raised 508 turkeys of the Mammoth Bronze variety and so far has sold but 77 head that brought him an average of more than \$6 a head. Forty of the birds sold at Heppner just prior to Christmas, weighed, ready for market, 878 pounds. What wheat Mr. Klinger raised the past summer was fed to his turkeys and he figures he got a good price for the grain by marketing it in this manner. He will make a large shipment of turkeys to the market immediately, and will have no difficulty in disposing of the remainder of his flock.

When PAIN Comes

1932

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.
