Official Paper for Morrow County.

HEPPNER'S SOCIAL EVILS.

DR. FRED B. MESSING, executive secretary of the Oregon Social Hygiene society, brought a series of stirring messages to Morrow county people this week, in which he made a laudable appeal for an enlightened public consciousness of social conditions primarily to "give youth a fair chance."

Dr. Messing trod on delicate ground, tramping on many toes, in the handling of one of the leading controversial subjects of the age, sex education. But his deep knowledge of the subject gained from years of intimate contact with the things about which he spoke was reflected in the intelligent manner in which he handled his subject.

There is little room for exception to the basic truths brought to Morrow county by Dr. Messing. They should be driven home. But a better method to steer people along the righteous path might be to encourage them in the things they are attempting to do to correct local malconditions, rather than by pitching them deep into the "slough of despond" and leaving them there.

investigate he would have found that Heppner is one of few cities of its size that employ a full-time physical education instructor in their schools. He would have found active young people's societies in the local churches under good leadership. He would have found active organizations of Boy Scouts, Girl Scouts, 4-H clubs and other organizations whose work and objectives are deserving of praise by any social worker.

True, there is a crying need for proper leadership in Heppner for many things, as there is the country over. And there is need for education unshackled from superstition, evasion and bigotry, as there is everywhere. But Heppner, if not better, is no worse than the average American town.

REAR ALL OF THIS OR NONE. IT IS a gloomy moment in history. Not for many years—not in the lifetime of most men who read this paper—has there been so much grave and deep apprehension; never has the future seemed so incalculable as at this time. In our own country there is universal commercial prostration and panic, and thousands of our poorest fellow citizens are turned out against the approaching winter without employment, and without the prospect of it.

In France, the political caldron seethes and bubbles with uncertainty. Russia hangs, as usual, like a cloud, dark and silent upon the horizon of Europe; while all the energies, resources and influences of the British Empire are sorely tried, and are yet to be more sorely in coping with the vast and deadly Indian insurrection, and with its disturbed relations in China.

Good friends—let our conduct prove that the call comes to men who have large hearts, however narrowed their homes may be; who have nothing but manhood, strong in its faith in God, to rely upon; and whoever shows himself truly a God-fearing man now, by helping wherever and however he can, will be as blessed and beloved as a great light in darkness.

WHAT'S WRONG? IN REPRINTING the following clipping sent us by a subscriber, we wish to say that we do so gladly, at all times welcoming in these columns any discussion of general interest to our readers, and especially such information as may tend to shed light on economic ills such as have been so forcibly thrust upon the attention of all in the past two years. At the same time we do not guarantee the general applicability of the facts as given in the clipping, leaving it to the judgment of the reader to pick out such flaws as may exist.

Washington, D. C., Dec. 6.—The United States Department of Agriculture here were asked by John Simpson, President of the National Farmers' Union, to trace the seven lambs, sold by W. B. Estes, of Littleton, Colo., for the sum of 75c to Swift & Co., packers.

traced the lambs to retail markets. They discovered that the seven were sold to consumers for a total of \$83.70.

Chicago, Ill., Dec. 6.—On a railway dining car, coming into Chicago, President Simpson of the National Farmers' Union, ordered two lamb chops for lunch.

Interviewed here on his arrival, Simpson told the story of W. B. Estes' seven Colorado lambs. "The two lamb chops I had on the train cost me 10 cents more than Estes got for his seven lambs," Simpson said. "If you wish to know why discontent is so widespread in the farming country, Estes can give you the reason."

Figures, names and facts in these stories are true; they are on file at Washington with the Senate Committee on Agriculture.—Editor Sun.

IN OREGON HOMES

Murphy—Members of the Murphy Road home economics unit as well as those of the Wilderville and Redwood Highway units have been giving special consideration to food habits of children and how to get good eating practices adopted. Thirty-two mothers in these three groups have reported improvement in their own eating habits and 16 children have adopted better food habits.

Medford—Improvements in kitchen arrangements were reported by 103 women of Jackson county who participated in the project on Planned Kitchens and Kitchen Work, according to Mabel Mack, home demonstration agent. One woman moved her wood box from behind the stove where her grandmother had placed it years ago to the front of the stove near the fire box to save steps in stoking the fire.

The FAMILY DOCTOR by JOHN JOSEPH GAINES, M.D.

Our Common Enemy

In these days of air-tight living quarters it seems so much easier to "take cold" than it was in the days of more liberal circulation of outdoor air. Of course people contracted colds then, many of them due to, or complicated by bacteria. But folks were harder in the early day, better able to stand the vicissitudes of climate.

Once upon a nostrum-vender announced "cure your cold in one day," everybody took notice—and rushed to buy the nostrum. I knew those who had been coughing half the winter, who went to work assiduously to cure themselves in the one day provided by the quack. Of course the miracle didn't take place, but the quack grew rich just the same as if it had.

American Olympic Skaters in Good Form

tablets provided by the family doctor, and these will reduce the temperature, relieve hie congestion by getting the surface circulation active,—the cold is broken right then! A five-grain tablet of aspirin every hour till three or four are taken till free sweat occurs. Nothing else needed, except to see that the digestive tract is not overlooked—a gentle but effectual laxative may be needed.

ON OREGON FARMS

Hood River—Ladino clover has continued to increase in popularity in this county until at present there are approximately 100 acres in fields varying in size from less than an acre to 15 acres, says County Agent A. L. Marble. J. E. King pastured 14 cows and several calves on five acres during the past season, and A. J. Brunquist of Parkdale pastured four cows, two horses and several hogs on a new two-acre field.

Baker—Sulfur, applied at the rate of 100 pounds to the acre, increases the yield of alfalfa on Baker county farms from 50 to 100 per cent. This has been proved in trials carried on during the past four years, according to P. T. Fortner, county agent. Sulfur has now been applied to more than 800 acres of alfalfa in the county, increasing the yield at least a ton or more of hay per acre at a sulfur cost of \$2.50 per acre. On the basis of \$7 hay, this brings an increased return to alfalfa producers of \$5600 annually for a four-year period.

Eugene—Demonstration trials to compare Austrian winter field peas with vetch as an orchard cover crop are being carried on in Lane county again this year. Orchardists cooperating in these trials with O. S. Fletcher, county agent, are Roy Woodruff, E. G. Cleverdon, Frank E. Harlow, Chase Gardens, all Eugene, and McKenzie Blossom farm, Springfield. Former trials of this nature have been non-conclusive, Fletcher says. Where the peas were planted without a companion crop they made an excellent growth apparently better than vetch, but where sown with a grain crop they smothered out worse than the vetch.

Heap Big Injun

The Sioux tribe made Jean Darling, film star of "Our Gang", a princess of the tribe, so she acted as messenger to take a letter to President Hoover from Chief Medicine Crow, asking aid for the Indians at Fort Thompson, South Dakota, whose crops have been damaged by locusts.
