The Demon of Noonday. "Thou shalt not be afraid—for the destruction that wasteth at noonday." Psalm 91:5-6.

Le Demon De Midi, (The Demon of Noonday) is the title of a book by Paul Bourget, a playwright and novelist of France. It is possible that this title was suggested to him by the phrase from the Ninety-first Psalm—"the destruction that wasteth at noonday."

In his book, Paul Bourget tells of a man in the late forties who was attacked and cast down by the demon of noonday. Life's noonday is the period of the forties. And this is the most perilous period of life, as Bourget's book is intended to show. How many have been swept off their feet by "the destruction that wasteth at noonday." We vary commonly regard youth as the essential period of moral peril, and, to be sure, youth is beset by many snares and dangers. And yet, the most disastrous collapses have been on the part of mature men and women.

The demon of noonday. His name legion! Animalism! Materialism! Cynicism! Pessimism! How furiously these demons sometimes attack men and women in the midday of life. More are they to be feared for maturity with its often dull routine; its tendency to get into ruts, its proneness to moods of lassitude; its self-confidence and scorn of danger; than for youth with its often lofty ideals; its hopes; its enthusiasm, and its trembling caution.

"Let him that thinketh he standeth, take heed, lest he fall." Who is more apt to think he is standing safely than the man in middle life? And, thinking that he standeth, he takes no heed lest he fall. He has become too confident to be cautious. He has grown tired of being careful. His conscience often has become less sensitive to the minor moralities of life. And almost before he knows it, the Demon of Noonday has him in his clutches.

But no man need allow this Demon of Noonday to destroy him. He that dwelleth in the secret place of the Most High—shall not be afraid—for the destruction that wasteth at noonday."

All lives strike contrary winds on their journeys. What a pleasure excursion life would be if there were no contrary winds. If things went smoothly, if we always got what we desired, if no struggle ever engaged us and we never had to "toil to the oars," is that the way strong manhood and womanhood are made. Contrary winds are not necessarily an ill. Generally they are a blessing and offer that opportunity and challenge to the best that is in us that spurs us on. The disciples tugging at the oars in the storm found out their own weakness and wished their mighty friend had been with them. It is a splendid thing when we come to feel the need of Christ, and are ready to accord Him his place of authority. It was worth while for the disciples to have the terror of the storm, if only out of the experience they could learn more fully the power of Christ. It is always a good storm that brings Christ more fully into our lives. More than one man has gone down beneath the waves of failure because he did not know that Christ would come to him over the billows of

trouble. The prayer that saved Peter was the prayer that we may all put into the unfulfilling ritual of the soul, "Lord save me or I perish!" The storm tossed on all the oceans of life may find their only safe refuge in Christ. "But when he saw the wind boisterous, he was afraid; and beginning to sink, he cried, saying, Lord, save me. And immediately Jesus stretched forth his hand and said unto him, O, thou of little faith, wherefore didst thou doubt?" Math. 14:30-31.

Be Prepared For Motor Drivers' Examination

Approximately 35,000 people are killed annually in automobile accidents in the United States. Each day spreads disaster to life and property through negligent and incompetent drivers on our highways. Good roads are built and reckless drivers immediately make them unsafe for travel. They ignore the laws and rules for regulation of traffic. Many of these, no doubt, can become safe and efficient drivers by learning the importance of safety governing the rights of traffic and for the regulation of traffic.

An educational campaign through the columns of the newspapers is now being carried on which will doubtless prove of great benefit to the motorists and the general public. All drivers of motor vehicles will soon be called upon to take the examination for drivers' licenses, before an examiner from the motor department of the office of secretary of state. Examiners will be stationed at all important points throughout the state. There are 98 questions to be answered. These can be had by writing to the secretary of state for the Oregon Motorists' Manual, a book especially prepared for all persons applying for operators and chauffeurs' licenses. In the next issue of this paper will be printed the first ten questions and answers that motorists should know about the new motor vehicle laws. Be warned that the examination will be a grilling one for those who are not prepared.
