Official Paper for Morrow County. OUR COMPLIMENTS TO AMELIA.

THERE have been some flying "stunts" since Col. Lindbergh made his great solo flight to Paris just five years ago, which looked to non-fliers like sheer foolhardiness.

Amelia Earhart Putnam, the first woman to fly alone across the Atlantic, knew exactly what she was about. It is not for nothing that the English have nicknamed her "Lady Lindy."

The feat of this American girl proves, among other things, that a woman can do pretty nearly anything a man can do, which we knew already.

Amelia Putnam's success will doubtless start many other young women to take up flying. That is all to the good.

SOMEbody whose familiarity with figures is on a larger scale than ours has estimated that the uncertainty as to what Congress is going to do about taxes and economies is costing the people of the United States a hundred million dollars a day.

Any decision is better than no decision. The nation has been kept in suspense to long already.

Sunday School Lesson

International Sunday School Lesson for June 5. JOSEPH THE WORKER. Genesis 41:46-57.

Rev. Samuel D. Price, D. D. Joseph, the son of Jacob, had a great variety of trainings. The eleven brothers thought they were through with him and the implications of his dreams when those Midianite merchants led the Canaanites onward from Dothan in upper Palestine to far away Egypt.

There was no trouble in marketing such a slave. He finds himself in a better class home. The Hebrew had soon rose to prominence but this very success from hard work caused him to become the center of a plot by the designing wife in that home (Genesis 39:1-20).

Joseph was to have seven plentiful years when an abundant harvest would be gathered. He now assembled all the food, which were as the sand of the sea.

know of some and hear of many more industries and business enterprises which are merely marking time until they find out what the new tax bill is going to be like.

We hear that the bankers are complaining that there is not enough demand for business loans for productive enterprises to enable them to lend out safely the money they are holding.

We want Congress to finish its work at one sitting, without taking time out for play. If it can't get a constructive program completed before the conventions, let it stick in Washington until it can.

Folks are getting peevish and there's no telling what they might do if things don't come to a head pretty soon.

W. C. T. U. NOTES

MARY A. NOTSON, Reporter. Senator William E. Borah, speaking of the proposal to change the 18th amendment, says: "To me, there is nothing sacred about the Eighteenth Amendment, but liquor must be controlled."

That is a statesman-like utterance. As Dan Poling said recently, when the people who are clamoring for the repeal of the 18th amendment bring forward a better method, the drys will join with them.

Notwithstanding the sale of deadly synthetic whisky, the number of deaths from alcoholism is less for each 100,000 of population than it was at the lowest point before prohibition.

The Chicago Tribune of June 1, 1914, said: "A three months' survey shows that 14,000 women and girls frequented every 24 hours the back rooms of the saloons on Madison and North Clark streets and Cottage Grove avenue."

JOE GISH. Uncle Si Tinklepough says if business is so slow he don't see why it's so hard to undertake it...

The FAMILY DOCTOR by JOHN JOSEPH GAINES, M.D. FROM THE WORK BENCH.

A stout lady came in complaining of hemorrhoids. She weighed 190, which was not bad, considering she was five feet ten in height. Age, 52. Blood pressure, 135-70. Past health record good, except a very distressing constipation.

I forbade all worthless items in her previous dietary; no indigestible stuff whatever; no tough skins of fruits such as cherries, plums and raisins; no bran or bran products; no skins of baked apples; no grape-skins; no seeds, such as blackberry or raspberry; stewed prunes carried the only skins permitted.

I forbade all "dressings," such as come with baked chicken; they are bad for laxy colons. And especially "combination salad." Eat vegetables singly, not mixed up in mass combinations. The patient is almost well—feels better than she has for years.

Fewer Chicks on Farms; More Fruit Is Exported

Fewer hens and chicks than usual on farms in the United States is indicated by a report on the agricultural situation just released by the Oregon agricultural extension service.

About the same number of chicks of this year's hatching were reported in farm flocks on May 1 as a year before, but 10 per cent fewer than the 5-year average on that date.

Exports of boxed apples, pears and prunes have tended to increase during recent years, says a report released by the Oregon agricultural extension service, whereas "the total volume of exports of farm products declined sharply."

The products of four commodities account for 85 per cent of the farm exports from this country according to the college report on the agricultural situation.
