8 p. m., Song service and gospel message.

"He will teach us of his ways, and we will walk in his paths," Mic. 4:2.

"Where are we to take and that a passenger on an Australian steamer several days out from the California coast.

"Come with me to the chart and I will show you," came the courteous reply.

"You see," said the captain as the two bent over a well-worn map.

"There are three routes to Australia from the port we just left. That one there is the one usually taken; there, designated as number 2 is the route I preferred to take, and this one, number 3, is the one the company ordered me to take and that is the one we have taken. We are right here just now."

The world's way, my way and Christ's way. Which am I sailing?

We invite you to all our services. A welcome awaits you.

Church Night, Thurs. eve. 8 o'clock

AT THE BROWN TENT.

Due to an increasing interest in the Bible lectures, the meetings will be held six nights a week. Every night except Monday through-out August.

The lecture for tonight is "What is going on in heaven tonight?" Friday, "By what standards will man be judged?" Saturday, "The Sabbath question—is it a question?"

"The earth will be purified by literal fire to become the home of the saved," was the climax of the lecture at the big brown tent last Sunday night.

Mr. Nerness read the text found in II Peter 3:10-13: "But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat; the earth also, and the works that are therein, shall be burned up."

Nevertheless we according to his promise look for new heaven and a new earth wherein dwelleth righteousness. Colored slides were used to portray some of the world's present beauty, but it was Paul who said "eyes hath not seen nor ear heard, neither hath it entered into the mind of man, the things which God prepared for them that love him." II Cor. 2:9.

Band practice was held at the home of Alma Neill Wednesday night. There will be no practice this week.

Mrs. O. F. Thompson and Mr. and Mrs. Asa Thompson spent Monday at the Jarmon home celebrating

the birthday of Lieutenant R. E. Jarmon.

Mr. and Mrs. Tyndal Robison of Hardman spent Sunday visiting at the C. H. Bartholomew home.

FOREST FACTS

Although many theories have been advanced to explain the cause of bird's eye figure in wood, no hypothesis has yet been advanced which satisfactorily explains this unique phenomenon.

The presence of adventitious buds in the inner bark is the explanation most generally advanced. It is sometimes argued that the work of woodpeckers and sapsuckers causes "bird's eyes" to result.

Other investigators advance the hypothesis that the figure is an inheritable characteristic.

ic. However, the forest products laboratory discounts all the above explanations and seems to attach significance to the observation that the bird's eye figure appears to occur in trees that have been crowded or for some other reason suppressed in their rate of growth.

Their efforts at determining the cause of this beautiful figure in wood, as well as their attempt to reproduce

it, will be watched with keen interest.

Mr. and Mrs. Louis Balsiger were visitors in the city a short while today from their home at Ione.

Chas. Thomson is confined at home this week, suffering an attack of sciatic rheumatism.
