death came to the relief of Mrs. Thressa Cochran at the General hospital in Heppner at 8:45 o'clock last evening. After being cared for at the home of her son, J. L. Coch-ran at Cecil for a long while, Mrs. Cochran was brought to the hospital here two weeks ago, and every-thing that human hands could do to relieve her condition seemed of no avail and the end came peacefully to Mrs. Cochran last evening, surrounded by the members of her family who reside here.

Her funeral will be at Monument on Friday, August 19, with Rev. Cookson, pastor of the Monument church, officiating. In charge of Case Mortuary the remains will be taken to Monument this afternoon, scorted by the relatives.

Thressa Georgetta Couch was born in Memphis, Scotland county, Missouri, on the 21st day of Febru-ary, 1856, the daughter of P. H. and Ann Couch, being of Scotch-Irish descent. She departed this life on August 17, 1932, at the age of 75 years, 5 months and 25 days. Her the Northern army.

MEET AT PENDLETON

Relief Measures Talked by Farm Leaders and Others; County Well Represented.

How many people will take wheat at 70 cents a bushel in settlement of indebtedness owing them by wheat men in order to encourage the grower to hold his wheat for a better price? That is the question bea movement known as the "Dollar Wheat" organization, and which was brought to Heppner's doorstep ty unit at Pendleton Saturday eve-

The meeting was attended by a large group of Morrow county farmers and business men, many of whom believe the movement will prove of benefit to the wheat growing Industry.

The dollar wheat movement which started in the north middlewest, took as its base the price to which it was hoped to bring hard red spring wheat at St. Paul, Some agitators for the plan have quoted the 70-cent rate as being the comparasubtracted to arrive at the Heppner price, which would figure 57 1-2

The movement is singular among moves aimed to benefit the farmer so far proposed, in that it calls for no sign-up on the part of anyone but merely disseminates propagan da with which it hopes the public generally will fall in line. Through keeping their wheat off the market, ing meeting. A very interesting it is believed the farmers can do more themselves toward encourag-ing the price of wheat than by any other means. But in order for the farmer to hold his wheat for a better price, it is essential he have the cooperation of his creditors that he e not forced to sell.

David H. Nelson, president of the matilla group, explained the plan at the Pendleton meeting. Other speakers were Fred Schmidt, Dr. I. U. Temple and R. R. Butler, Oregon ongressman.

A telegram from Max Gehlhar director of the Oregon department and took him back with them Sun-dollar a bushel. Warehousing charges also have stayed up on the

high plane, he said. Congressman Butler laid much blame for the recent times of financial stress on the lack of adequate currency, and endorsed the idea of the government issuing currency up to the full amount of reserve stocks of gold now held by the United States. Enlarging the currency in such a manner would help raise commodity prices and thus assist in speeding up business, Mr. Butler
