display an antlered denizen of the woods tied to his car after the hunt. This practice, however, is discouraged, as in the novice's desire to show his great hunting ability, often the meat is permitted to spoil and, in reality, wasting the game.  
 Much of the sport of the hunt comes from roughing it in the forest, from tramping from dawn until dusk, and from enjoying vicarious that would have no appetite appeal at home. The true sportsman does not waste the game, and in complying with the government regulations regarding smoking and care of his campfire, he safeguards the hunting preserves for posterity.

**W. C. T. U. NOTES**

MARY A. NOTSON, Reporter.

"The fundamental reason for 'Prohibition for the nation and total abstinence for the individual' is the scientifically proved fact that alcohol is a habit forming, narcotic poison."

"Abstinence from the use of intoxicants tends toward a clear head, a sound heart, a healthy body, and a clear conscience."

"If the secret records of the brewing and distilling industries were ever brought to light, they would tell a story of social and political corruption unequalled in the annals of our history."—The Chicago Tribune, 1917.

"The priest and the prophet have erred through strong drink; they are swallowed up of wine; they are out of the way through strong drink; they err in vision, they stumble in judgment."—Isaiah 28:7.

"Shall we send the two billion dollars released from the clutches of the bartender (according to Roger Babson and Irving Fisher) back over the brass rail? Take two billion dollars away from the retailers of the country right now and what would be left for food and rent and clothing, to say nothing of the comforts and luxuries?"

"Who pays the liquor tax? True, the brewer and distiller write the checks, but the money comes across the bar, and chiefly out of the low wages of the poor. The record shows: Three hundred million dollars paid in taxes by the people through liquor; fifteen hundred million dollars paid by the people for charity because of liquor; one thousand million dollars put into the pockets of the liquor barons."

"It takes more grain for a million pork chops and a million glasses of milk than for a million glasses of beer and a million glasses of whiskey."  
 "Coaches and trainers are dead against the use of alcoholic liquors, even beer."—Alonso Stagg, Coach at the University of Chicago.  
 "Arrests for drunken driving increased 1300 per cent in six years; alcoholic deaths doubled."—Report of Dominion of Canada Government after government control had been in effect six years.  
 "In Canada as much liquor is sold by bootleggers as in government stores."—British of Columbia Liquor Board.

MRS. ELLA FARRENS, Executrix.

The Mistletoe Rebekah lodge entertained guests from Heppner and their district president, Mrs. Maude Rodgers at a bountiful dinner on their meeting night, Tuesday evening. Guests present were Mrs. Earl Eskelson, Mrs. Chas. Swindig, Mrs. Mable Swindig, Mr. and Mrs. Adam Knoblock, Mr. and Mrs. John Wightman, Mrs. Olive Frye, Mrs. Margaret Phelps, Mr. and Mrs. Emmet Ayers, Mrs. Frank Parker, Mrs. Martha Wright and the president, Mrs. Maude Rodgers.

Most of the housewives have been busy canning fruit this last week, as there have been many truck drivers through here selling fruit at low prices.

Everett Barlow was a business visitor here Tuesday. Mrs. Frank McDaniel, who received minor injuries to her hand when the paring knife she was using broke off in her hand, was receiving medical attention in Heppner one day last week.

Mrs. Bud Flisk came up from Arlington Thursday for a week's visit with her mother, Mrs. C. H. McDaniel.

Mrs. Fred Ashbaugh returned to her home in Rood Canyon after having made a lengthy visit with her daughter, Mrs. Frank Glasscock, at La Grande.

Mrs. J. W. Stevens left for work at the Leonard Hill place in Eight Mile Sunday. She expects to be gone about three weeks.

Corda Saling took a week's vacation from her work in Heppner to spend a while with home folks. Mr. and Mrs. Veri Farrrens were visiting home folks Tuesday.

Mr. and Mrs. Ted Burnside, Buel and Delsie May Harshman and Mrs. Lloyd Harshman were visiting friends and relatives here Sunday.

Word was received here of the death of George Moore, who passed away Friday evening. Miss Parlorie Montgomery and Mrs. Lew Knighton attended the funeral in Heppner Monday. We extend our sympathy to the bereaved family.

**Our Quest for Truth**

How many times we have pounced upon supposed truths, only to find out, after more exhaustive study and experiment—that we were wrong!

For instance: I have preached for years that the pipe-smoker may bring himself a lip-cancer by long frequent massage with a pipe-stem. Now, a careful thinker observes that tobacco has little influence in causing cancer; in other words, any sort of stick would cause cancer of the lip just as quickly, used in the same way. No, mama, I'm not trying to encourage the use of tobacco; I'm just telling Grand-dad not to chew any sort of stick as a habit.

It is known that an exposed corset-stay may bring to light a cancer of the breast. No tobacco about that, but it is a villain, just the same.

And, a fine medical writer tells us that blood-pressure is not permanently made worse by tea or coffee or even salt. That more folks die from lack of chlorides than from excess of them. That the INTELLIGENT use of these things never does harm.

Another thing we learn: If indisposed, go at once to your good family physician; don't seek him as a last resort, but as a very first and best aid in trouble. It will pay you.

We know now that meats are not "deadly poison" to the human organism. To be a "vegetarian" is to be a faddist—and, all faddists are skating on thin ice. Nevertheless a finicky, evanescent public will do as it pleases, with my full consent.

One of my own very satisfactory conclusions is, good common horse sense is a qualification to be proud of.

**Warnings Against**

I heard a blithering charlatan the other night, hawking a well-known nostrum, and for every imaginable, trumped-up reason, urging the simple listener to buy it. You have heard this baloney many times, delivered in a solemn, almost ministerial voice. I imagine they sell millions of bottles of the stuff—nothing certain about it but the pay for it.

This nostrum, you are assured, is good for everything from snake bite to gangrene! It was being exploited as a cure for ivy poisoning, common at this season. Somebody in despair had "swabbed the infected area—it acted like magic." The exploiting dramatist said the victim had accidentally touched "poison oak." That name is as ancient as the nostrum racket. Poison oak indeed!

Absolute ignorance was shown in the reference to "the infected" area. Ivy poisoning is not an "infection." No more than a burn by fire is an infection. It is simply an intense acid irritation—no infection-germs involved in the process. I have an idea that ivy acid would destroy many infecting micro-organisms.

There is no "infected area" in rhin us poisoning.

Carbolic acid is one of the deadliest poisons on earth; it needs no "germs" to aid it in killing folks. The commercialized huckster that tells you his stuff will make wholesale slaughter of "germs" in so many seconds—is good to be wary of; he probably never saw a germ in his life; he is simply out to do a million dollars worth of business, and, you pay the freight, dear reader. Ask your family physician, who has been trained by the best methods known.

**Crested Wheat Grass Excels.**

Hereford—Crested wheat grass has proved so outstanding on dry land seedlings in Baker county that farmers have pooled orders for more than 500 pounds of the seed to be sown for next year. On the T. C. Deringer farm near here the new grass was far superior to others established in test plots in cooperation with the county agent, making an excellent stand with grass 18 inches high.
