Amidst all the uproar over the 18th amendment, many are over-looking the fact that the most important prohibition fight is local. So far as the 18th amendment is concerned, it is purely a question of whether a congress is elected which year as a mining engineer when he was thirty, according to Fortune, will contain enough members favorable to resubmission to constitute the necessary two thirds of something over \$4,000,000 in 1914 each house. ## Sunday School Lesson

### By Bey. Charles E. Dunn, D. D.

The Christian in the Family Lesson for Oct. 9-Luke 2:40-52 Golden Text: Psalm 101:2

The family is the most fundamental of all institutions. A true home, shiner, home brewer and bootleg-

Many fair atmosphere of systematic spiritual minded persons who believe the 18th culture, where plain living and high amendment should be repealed are thinking were the rule. The sweet offices of prayer and meditation opposed to this move on the part of the wets in this state, were as natural to Mary as breathing, and her Son absorbed to the full the fragrance of her winsome beauty and devotion.

Strong forces are now at work to undermine the stability of the Christian family. It is surely no time for complacency. Only one child out of four receives today the benefits of religious teaching. Our spiritual illiteracy is alarming. We must insist that the home is not safe save when girded by Christian precepts. Our age craves freedom, but freedom uninspired by the discipline of Christ is valueless

The noble words of our Golden Text, "I will walk within my house with a perfect heart," could have been spoken by the Master Himself. They represent the completeness of His well-balanced personality, an ideal which all right-thinking folk, in a day of spiritual confusion and darkness, cherish for themselves.

One of the finest expressions of the Christian ideal in family life the full extent of the law. are the words of Ruth to Naomi, "Whither thou goest, I will go; and where thou lodgest, I will lodge:

REGISTER EVERY BIRTH.

From State Board of Health. It should be remembered by ev ryone that every birth should be registered. The law requires phy-sicians, midwives and others that may attend a birth to file a birth certificate within ten days with the local registrar of vital statistics. This record is of inestimable value to the family concerned. The fam-

ily may have need for a copy at any time, not only during the first year or two after the birth has occurred but what is more important, this

need may arise years later after the child has become an adult and all opportunity for having the birth out on record has passed, provided the certificate was not filed at the proper time according to law. ## Now In Session at Bend

Irrigation and drainage leaders of Oregon are holding one of their most important gatherings in years at Bend this week where the Oregon Reclamation congress is in ses-sion October 6 and 7. Consideration of the important question of rehabilitation of pioneer reclamation projects is bringing visitors from a number of other western states as well as prominent state and nation al officials to the meeting, accord-ing to W. Added to the list of speakers previously announced are W. W. Mc-Laughlin of Berkeley, representing

the irrigation division of the U.S. bureau of agricultural engineering and Hal Hoss, secretary of state, who will close the discussion on project aid, as a representative of

the state land board.
