

Local Happenings

If a prize were given for strategy, undoubtedly Jim Cash, local J. C. Penney Co. manager, would give all the deer hunters a close race. He was out the end of the week. Seeing a bunch of hunters go into a thicket, he thought it likely they might drive out something; so he perched himself above the thicket at a point to his liking. He didn't wait ten minutes till a pretty buck came slipping out of the thicket. He sensed Jim, however, and busted down the mountainside. But just as he entered the thicket, Jim barked. As a result he brought in a nice four-pointer.

Carl C. Donough, democratic state chairman, and Vernon Williams, director of finance for the state democratic committee, were calling in the city Tuesday evening and Wednesday morning, on a tour of eighteen counties of the state. They met with the local democratic committee Tuesday evening. While they asserted Roosevelt sentiment was strong over the section of the state visited, they did not claim to this newspaper that he would carry the state.

Mr. and Mrs. Neils Johnson came in from their Dry Fork home Saturday, and the editor acknowledges a fine treat of strawberries gathered from their ever-bearing strawberry patch, the pride of Mrs. Johnson, and justly so, as the berries are mighty fine.

Miss Elizabeth Woodward of Portland visited for the last two weeks at the home of Mrs. Roy Missildine, returning home Friday. She is the daughter of W. F. Woodward, one of the candidates for the mayoralty of Portland.

Bill Kappel, formerly lineman with the P. P. & L. Co. here arrived in the city Tuesday from his Goldendale home, and has been transacting business and visiting friends. A new girl arrived to Mr. and Mrs. Kappel since they left here.

Lester Doolittle arrived from Hot Lake the first of the week for a visit with his family. He expected to go back for further treatment. Though he had made some progress since first going to the sanitarium, he was not yet satisfied.

Neil Doherty of The Sands north of Lexington was a visitor in the city Tuesday.

N. A. Clark was in from the Eight Mile home Tuesday on business. He was not pleased with the continued warm, dry weather, believing that a rain would help with work on the farm.

Harry Schriever was up from the Lexington farm yesterday, reporting seeding well under way in that vicinity with few farmers waiting for rain before beginning this important part of the fall farming.

Del Allstott was in the city Tuesday and Wednesday, visiting and tending to business interests in connection with the position he now holds with a commission company at North Portland.

Sherman Shaw visited with friends here for a few days this week, coming up from the I. O. O. F. home at Portland where he has been enjoying life for the past year.

L. Van Marter and "Buck" Bigbee returned from their hunt of two weeks in the Desolation country the first of the week, bringing in one buck between them.

John Farley of John Day, son of Mr. and Mrs. James Farley of this city, was here Tuesday to attend the funeral services of Mrs. Peter Farley.

Mrs. Chas. Clark has returned to Morrow General hospital, having suffered a relapse. She is doing well and hopes to be out in a short time.

Green Feed Store, at Schempp Bldg., opposite Heppner Trading Co. warehouse. Rolled feeds, flour, poultry foods, cow foods, etc. 31

C. K. Cranston, receiver in bankruptcy, was in the city yesterday, coming over from Pendleton to preside at a local hearing.

Walter B. Gleason, democratic candidate for United States senator, was calling on the Heppner electorate Tuesday.

Rough pine lumber for sale. Inquire Albert Adkins, city. 30th.

Mrs. C. H. McDaniel of Hardman was calling in the city Monday.

A nice buck was brought to town this week by Lowell Turner.

Bert and Roy Missildine are cutting wood in the mountains.

have included all the things they needed to do in order to go to school. A drama project is being carried on by the seventh grade. One play was given Monday afternoon. The cast and management was highly praised by Miss Leathers, their audience. This is their first attempt at writing and presenting a play. The work was all original with no help from the teacher.

VISUAL AID WORK IS NOW COMBINED

College and University Offices Joined at Corvallis Where Films, Slides Available.

All educational motion pictures, lantern slides, and similar material heretofore distributed by the extension services of both the Oregon State College and University of Oregon may now be obtained from a single office located on the Corvallis campus, according to announcement just made by U. S. Burt, head of the new combined department of visual instruction which is now a part of the general extension division.

A more complete service at less cost to the users and more economical for the state is believed possible through the combination plan whereby all the material representing the educational services of both campuses will in future be handled through the single office. While most of the material has been available without charge except for transportation and slight service fees, such fee charges, and rentals for some of the films and slide sets have been further reduced.

A new visual aid catalogue listing all of the material is now in press and will soon be available for use of granges, schools, clubs, churches or other organizations which make frequent use of the service afforded from this extension department. From the office at Corvallis will now be available 3000 moving pictures, 300 sets of glass slides, many sets of film strips and some microscopic slide sets.

Subjects included in these visual aids include agriculture, 4-H club work, home economics, health, public safety, civics and social welfare, religion, industries, history, many branches of science, literature, and college and university life.

Improvements Cited in Heppner Forest District

By F. WEHMEYER, Ranger. Improvements for this fiscal year within the Heppner ranger district of the Umatilla National forest, include:

On Wheeler Point, the tower, cabin and latrine have been built. The tower is a 50-foot wooden tower surmounted by a seven by seven foot cabin for the lookout. These buildings are located on Ox Head butte and overlook the Winlock country. Fifteen new water developments

have been installed on the various stock allotments. Thirteen were built for the stock using the cattle allotments and two were built on the Sunflower sheep allotment. This brings the total of all water developments on the Heppner district to seventy-seven.

A hundred-foot steel tower is to be erected at Tamarack mountain this fall or early next spring before fire season.

A large garage to house the fire truck and pumping equipment will be built this fall at Ellis ranger station.

Water developments will be placed at Bull Prairie ranger station and also at Ellis ranger station.

An addition will be built onto the house at Tupper ranger station, consisting of a bath room and porch.

Three miles of telephone line between Tamarack springs and Happy Jack springs are to be built.

Four miles of the pole line between Ukiah and the forest boundary to the west will be reconstructed.

Three miles of telephone line between the Rimrock line and the

Emergency lookout station on Potamus will be built.

Four double sheep corrals will be built along the sheep driveways for the holding, counting and separation of sheep.

A shelter cabin at Arbuckle corals.

The new road between Linger Longer and Madison butte has been surveyed and a small crew is now slashing the right-of-way. This road will be sixteen miles long when completed.

ALL ABOARD.

The U. S. S. Pacific is sailing Monday evening, October 16th, from the W. O. Dix pier, carrying an excursion party made up chiefly of members of the Heppner Women's Study club. The ship is starting on a tour of the interesting islands of the Pacific ocean, the first stop being Honolulu—in the "land of eternal sunshine."

Tickets will be collected from each passenger or she will have to walk the gang plank (so I've been told). Tickets consist of a brief, interesting fact about some island of the Pacific.

The Hawaiian tour is conducted

by Miss Jessie Palmiter and Mrs. E. R. Huston.

CARD OF THANKS.

We wish to express our sincere thanks and gratitude to our many friends and neighbors for their

kind words and deeds at the time of our bereavement and for the many beautiful floral offerings.

Peter Farley, James Joseph and Peter, Jr.

NOT CONSOLIDATION ... but a COSTLY EXPANSION!

The ZORN-MACPHERSON SCHOOL "JUGGLING" BILL AT TAXPAYERS' EXPENSE — ESTABLISHES 4 NEW SCHOOLS, CREATES 2 NEW TYPES OF SCHOOLS — BOTH UNTRIED and UNNEEDED.

Under the guise of economy, unknown interests propose this extravagant building and wrecking program, which claims to be a consolidation of Oregon's higher educational system. There are five campuses now, and if this bill is approved, there will still be five campuses—after a raid has been made on the taxpayers' money! The following facts will enable every taxpayer to prevent this experiment which endangers our higher educational system, and results in a tremendous financial outlay by taxpayers.

4 New Schools Established

This bill actually creates 4 NEW schools—a junior college at La Grande and Ashland; a law school at Salem; and a teachers' college at Eugene. In addition, it "junks" the Moumouth Normal School, valued at \$700,000, and uses but one-third of the facilities of the University at Eugene. This disarrangement will result in a tremendous financial outlay by taxpayers for additional NEW schools, NEW departments, NEW courses and NEW equipment. There are five campuses now. If this bill is approved there will still be five campuses—but, in addition, the taxpayers will be forced to erect new housing facilities for the University law school and library at Salem; provide NEW buildings and dormitories to accommodate the greatly increased student body poured out on the Corvallis campus; and equip two NEW junior colleges and a teachers' college with new and costly facilities for conducting a NEW and untried system.

2 New Types of Schools Proposed

Two NEW TYPES of schools are created by this bill—two junior colleges and a teachers' college—both untried and unneeded in Oregon. To educate students for junior standing in technical and scientific college courses, requires expensive laboratories and equipment, thus tripling the same facilities now maintained at the University and State College. The passing of this bill establishes the principle of STATE SUPPORT TAX for all or any junior colleges. Every town in the State of Oregon will then have the right to demand a junior college! Every legislative session will invite log-rolling bills for appropriations for new junior colleges in ambitious localities. Taxpayers of this state are asked to vote on this costly junior and teachers' college experiment, with every expenditure made at their expense.

In addition, this bill claims a saving of \$1,000,000 per year in taxes, BUT DOES NOT ACTUALLY REDUCE OREGON'S BASIC STATE TAX for higher education by a SINGLE PENNY. You will pay the same tax for state schools as you do now if this bill is approved.

VOTE 317 X NO!

The Zorn-Macpherson School Moving Bill establishing 4 NEW SCHOOLS. SCHOOL TAX-SAVING ASSOCIATION. Amedee M. Smith, Chairman F. H. Young, Secretary 618 Pacific Building, Portland

Editorial

The school football team is not getting the support entitled to it. The coach and the squad are working hours every day to develop a worthwhile team. The victory over Condon shows that hours of work are not in vain. The reason for lack of precision is that many of the players are beginners. The team is light this year, but it makes up for this defect by fighting harder. That alone is enough to deserve one's admiration. Whether it wins or loses, the team will play harder if it has sufficient support. The student body is supporting the team by cheering from the sidelines and trying to arouse the interest of the townspeople by the rallies. The games are well worth seeing! Come to help support the team.

Local Gridsters Lose.

The Pilot Rock football team defeated Heppner last Friday on Rodeo field, after skirting the ends and smashing the line for two touchdowns, making the score 12-0. It was a hard fought game with the Pilot Rock gridsters on the defense most of the time.

The Heppner squad marched down the field seven times within 10 yards of the goal and twice had the ball on the one-foot line; once in the first few minutes of play when the ball was fumbled and recovered by the opponents, and the second came as the final whistle blew ending the game before the ball could be put in play.

The line-up for Heppner was: Lyle Cowdrey, center; Ted McDermido, Raymond Reid, guards; Don Cowdrey, Harold Ayers, tackles; Wrex Langdon, Marvin Morgan, ends; John Hanna, quarterback; Roy Gentry, Curtis Thomson, halfbacks; Jimmy Furlong, fullback. Substitutes were Bill Schwarz and Louis Gilliam.

Coch Mabee is working the boys hard this week on blocking and tackling for the Athena game tomorrow.

Tests are Given.

Stanford Achievement tests were given to all the grade school pupils from the third grade up, last week. These tests are given annually to test the progress the pupil has made in his work and to tell in which subjects the pupil is strongest and in which he is weakest.

The achievement tests are used in most of the schools in the United States now. Heppner started using them in 1925 and was one of the first schools to use this scientific test.

When the average score of the grade pupils has been found it will be compared with other schools in the United States. Last year the local school rated well in comparison.

Pep Rally.

At a meeting last Tuesday the Hehisch committee decided to hold

a pep rally which will be led by the band. This is the first appearance of the band at a rally. The Hehisch committee is to marshal the rally. Frank Anderson was appointed to replace Armin Wihlon who is unable to attend.

General News.

The boys' octet practiced for the first time at Mr. Bloom's apartment Tuesday night. Afterwards the music teacher gave a buffet luncheon entertainment for the boys' octet and the girls' quartet.

The advanced secretarial training class is now working for pins. In order to secure them, they must write 125 words a minute for three minutes, transcribing all words. This will be carried on until the end of the term. The pin has a gold background with the word "Gregg" written diagonally across the front. The student's name will be inscribed on the back of the pin.

Bookkeeping students will begin working on their sets in the near future. This project will derive from the work taken up in the class books.

In domestic art class, each girl is working on a test problem which determines what she will make next. The test problem now being worked by the girls is hot dish holders. Gene Florence, a previous H. H. S. student, reentered school Monday. Gene is a junior.

Grade News.

Last six weeks the pupils of the second grade studied the modes of travel in this country. At present they are studying how the rest of the world travels and are bringing pictures to illustrate travel in Arabia. They are going to make a travel book and some reading charts.

A bat was brought in recently. The third grade children took care of him, fed and watered him, and put him in a cage. They studied the habits of a bat and decided he should be called a night policeman as he ate the insects off plants during the night.

The third graders have made Keep Clean posters for health and

You hear a lot about pre-war prices

Many commodity prices are back to pre-war levels.

Electricity far below! It is the only commodity which

has constantly decreased in price. And during all

those years when other prices mounted sky-high,

electricity was constantly declining in cost. This trend

was maintained even though our operating costs in-

creased, due to higher prices for material and labor,

while our taxes have risen to higher levels.

★ In spite of all this our home and rural customers

are paying on the average less than one-third the

kilowatt hour cost of 1921.
