Behind the Shut Door.

"Enter into thy closet, and when thou hast shut thy door, pray."—Matt. 6-6.

If we would keep our faith clear and strong, in such days as these; and in the days also of more than plenty; THEN WE MUST PRAY!

Prayer gives tone and balance to our minds; to our inner being; and enables us to discern spiritual truths; thus providing a sure anchorage for our faith.

These days in which we now are have often been spoken of as an "age of doubt," and unquestionably it is just that. Today men are whispering many doubtful things in our ears. But there is one place where the whispers of doubt become inaudible, and THAT IS IN THE PLACE OF PRAYER!

There the soul is illuminated by the pure, white light that streams from the Shekinah glory of the secret presence of God. It is there we gain that spiritual perception and cloudless vision that enable us to look beyond the fogs of earth into the realm of eternal realities.

Not only is this an age of doubt; it is also an age of materialism, and breathes a miasma that is a formidable foe to a vital faith in spiritual things. Faith in the unseen and purely spiritual cannot live and grow in the midst of a materialized civilization WITHOUT CONTINUOUS PRAYER COMMUNION WITH HIM WHO IS THE INVISIBLE SPIRIT! So, for clear vision and sure understanding, faith needs the closet with the "shut door." Therein is the value of the "closet of PRAYER." It enables us to get the glare of the street out of our eyes, and the din of the noises of earth out of our ears; so that we can recognize and know the fine realities of the spiritual and hear HIM who waits to speak to us in the still, small voice. So, "Enter into thy closet, and when thou hast shut thy door, PRAY."

For the coming Lord's Day the sermon subjects are: For the morning service, "Bricks Without Straw." For the evening service, "How God Perfects Life."

Judge Schannep

"By their deeds, Ye shall know them," fittingly applies to I. M. Schannep, at this time candidate for circuit judge of the Sixth Judicial district. His record of achievement in the administration of the affairs of Umatilla county during the past twelve years is an enviable one. How the quotation at the beginning of this article is applied to the subject we will attempt to enumerate.

When Judge Schannep assumed office as County Judge in January, 1921, Umatilla County had a bonded indebtedness of \$1,050,000.00 for the building of roads, also, outstanding and unpaid warrants upon the general fund and road and bridge fund of \$95,707.43. All of this indebtedness has been paid and at the present time, the county is entirely free from debt, and despite the depressed condition of the country, is still paying cash for its obligations, and will continue to do so during the remainder of his term.

In 1920, the millage rate of levy for state and county purposes was 15.5 mills. The valuation aggregated \$58,006,629.39. Last year the valuation, due to the condition of the

which the county co-operated. There has also been constructed innumerable bridges, many of them of concrete and steel, among these being Stanfield, Echo, Nolin, Thorn Hollow, Demaris bridge on the Walla Walla river, as well as bridges on state highways in which the county co-operated, namely McKay creek, Pilot Rock bridge across Birch creek, Butter creek bridge on the Heppner highway and two large steel and concrete bridges on the Pendleton-John Day highway across Camas creek and the North Fork of the John Day river, besides hundreds of other smaller bridges serving every section of the county. During the past two years disastrous floods have devastated roads and bridges, which have been reconstructed at large expense, and all of which were paid from the regular budget.

As County Judge, he has had the administration of all matters of probate as well as all juvenile offenders to deal with, and in this

respect he has proved himself an honest and efficient judge. Dealing leniently with the erring boy or girl, rendering sound and wholesome advice to the 260 juveniles brought before him, always remembering, as a father of six children himself, the tendency of the youth to wander from the ways of right; giving first offenders good counsel and the benefits of the parole law, which has resulted, in many cases, in their becoming useful and respected citizens.

He has heard more than 1,000 civil and probate cases, 260 juvenile cases, 50 criminal cases, as well as supervised the care of the poor, and as chairman of Governor Meier's unemployment relief committee of Umatilla county, during these years has had no small administrative and judicial job.

He has had 30 years experience as a lawyer, practiced in the courts of Missouri, California and for the past 17 years in Oregon.

That he will make good in the office he is seeking there is no doubt, if the foregoing enviable record means anything.

Those who know Judge Schannep, fully realize that he is well qualified, by mature years and experience, to fill the office he now seeks.

His record of achievement in his present capacity is a guarantee of economical administration, rigid law enforcement, with fair and impartial justice to every citizen of the Sixth Judicial District.

A separate Judicial ballot will be furnished each voter at the election November 8; vote 15 (X) thereon. (Paid Advertisement)

KILL IT ONCE MORE!

VOTE NO

ON REFERENDUM MEASURE 307

FOR the third time the Oregon Legislature has attempted to hinder the manufacture and sale of that vital food product, oleomargarine. Twice it has been voted down by the people. This third attempt is most vicious of all. Over ten thousand families in Oregon are receiving public relief. There are more than seventy-five thousand unemployed in the state. Remember these people and vote against the Oleomargarine Tax. Kill it now—before it can reach its greedy fingers into your home; into every home in Oregon. Kill it, or there will be other food gouges inflicted upon you. Go to the polls next Tuesday, November 8. Vote 307 X NO.

**Farmers of Oregon!
Private Truck Owners!**

The Freight Truck and Bus Bill **DOES NOT INCREASE BY ONE CENT** the license fees of 20,000 farmer-owned and other privately-owned trucks. It **DOES NOT** restrict or interfere with the operation of such trucks.

It will eliminate the big trailer, cut load weights to 17 tons, lengths to 40 feet. It affects the operation of for-hire trucks which are conducting business for profit on the highways and which use and damage our highways without adequate payment and with little regard for the safety of the traveling public or the working hours and conditions of labor of truck drivers.

LOWER License Fees... The Farm Truck Owners Association of Marion County believes that license fees on Farm Trucks and Private Trucks should be reduced and can be reduced by this Bill without danger to Oregon highway construction.

The association has no interest in the railroads—it holds no brief for the **BIG PORTLAND TRUCKING OUTFITS** that use the highways perhaps more than all the farm trucks and private trucks in the state put together.

Motor transportation matters in Oregon are in a mess. The association stands for a scientific investigation of all truck fees and pleads for sound regulation in the interest of the state and its people.

This Bill Favors Farmer The Freight Truck and Bus Bill provides for an investigation by the State Highway Commission which should result in legislation that will help the farmer and the private truck owner.

The Farm Truck Owners Association of Marion County therefore **RECOMMENDS** that every farmer and every private truck owner—
