

Local Happenings

In a very recent communication received from Mrs. Lorena Tally, formerly Miss Lorena Palmateer, by Mrs. F. W. Turner of this city, Mrs. Tally states that she is still making her home at Albuquerque, New Mexico, where she has been for the past number of years. She speaks of the depression, which has been felt in that part of the country much more this year; they hardly knew it existed heretofore, because of a heavy expenditure of the government in constructing the Middle Rio Grande Causeway, the headquarters of the project being at Albuquerque, giving work during the year to some 2000 people. Mrs. Tally states that she and her husband are very well; the latter having improved greatly following a recent surgical treatment. She extends greetings and best wishes to all old friends at Heppner, and hopes all may enjoy better times throughout 1933.

Mrs. Will Ball of this city is in receipt of a letter from Mrs. J. A. Waters in which she states that Mr. Waters was the victim of a serious accident just before Christmas when he was struck by an interurban train and his auto was badly wrecked. Mr. Waters suffered several broken ribs and bad lacerations and the injuries laid him up in the hospital for about two weeks. He is yet suffering from the injuries, but is able to be about at home. At the time of the accident, Mrs. Waters was in Seattle to spend Christmas with a sister, but hurried to the bedside of her husband immediately upon receipt of the word that he had been hurt. They now make their home in a suburb of Long Beach, Calif.

Mr. and Mrs. John Anglin motored to Yakima and Walla Walla on Sunday. They were accompanied as far as Yakima by Mrs. Sowers, mother of Mrs. Anglin, and she remained with one of her daughters there. On the way to Yakima they encountered a snow storm after crossing the river at Patterson, and this lasted practically during the entire trip. Many wrecked cars were seen near Yakima, and evidence of some serious accidents along the way were apparent.

Do you know— that ninety-five percent of those who seem to prosper fairly in youth and middle life finally die poor? that ninety percent of the widows lack life's common comforts? that three out of ten widows in this country are in want? That seven-eighths of what Americans leave at death is Life Insurance?

Homer Watts, attorney of Athena, was a visitor in this city Friday, meeting with a number of farmers who are consulting with him over the affairs of the Heppner Farmers Elevator company, he acting as their attorney. Charley Marquardt, who raises generous crops of wheat on his ranch north of Lexington, was a visitor in Heppner for a short time Saturday, leaving a bit of encouragement in the way of a silver offering to ye editor. Present conditions are not encouraging, but Mr. Marquardt is optimistic.

O. E. Stevens was down from the McKinney creek ranch of Stevens brothers Monday. Some snow on the hills and a lot of frost in the ground. Mr. Stevens would like to see a lot of rain right now as it would do more good in the long run than a heavy fall of snow.

Lawrence Redding was here Saturday from Eight Mile Center. The lack of moisture and the constant winds over the country do not lend much encouragement to the wheat farmers right now, and Mr. Redding was not any too happy over the prospect.

Floyd Worden, who farms in the Eight Mile section, was looking after business in the city Saturday. He is hoping for the blessing of showers and praying that they may come right soon. The country was never drier at this time of year.

The local MacMarr store now has on display a silver loving cup, presented by Dwight Edwards Co. for the best coffee sales in this district. The local store won this two months out of three, and the management is proud of the achievement.

Editorial

Are high school assemblies of any value to the students? They give students practice in public speaking, which will be very beneficial to them later in life. A program is now being carried out by which each club and class is held responsible for one assembly. This gives the different groups a chance to show others what they are accomplishing. Also this will arouse the interest of the students in the school subjects represented by the clubs. Assemblies not only benefit the persons performing, but they are also interesting and oftentimes educational to the audience. This year we have had the privilege of having several very capable outside speakers.

The students conducting assemblies now will probably be helping to conduct the different clubs and lodges of Heppner in the future.

Student Council Meeting

The meeting was called to order by June Anderson, student body president, and the demerit system planned at the last meeting, January 27, was confirmed. This plan is to go into effect immediately. In this system the teacher takes down the demerits and notifies the student or students receiving a demerit or demerits of his department grade at the end of each week. Each demerit takes the student's department grade down one-half point; that is, one demerit takes the grade from a 2 minus to a 3 plus and so on down the line. Five demerits cancel a student's name from the eligibility list, which means that the student must take all exams regardless of his grades. The following things warrant demerits:

Major: Cheating, throwing things, scuffling, destroying property, talking out of turn, bothering others, skipping school, rudeness, unnecessary tardiness, being sent from class; minor: borrowing without permission, removal of paper basket, chewing gum or eating candy, moving unnecessarily, loafing in the halls.

Any other offense which the teacher may deem serious enough to warrant a demerit.

Student Body Assemblies Planned
Starting tomorrow there are to be regular student body assemblies every other Friday. There will be other assemblies, but these are sure. The following organizations will put on the programs as they are to occur: H Club, Booster Club, Home Ec Club, Benzine Ring, Junior class, sophomore class, Commerce Club, Freshman class, and senior class.

The program at three tomorrow

will be an initiation of some new members of the H Club and the presentation of the football letters.

Elections Held

All high school classes held mid-year elections last Wednesday noon for officers. The election of the presidents was of special significance because Mr. Bloom announced that they, together with the student body officers, would represent the students in formulating a plan for exemptions, which it is hoped will be more satisfactory than the present one.

The officers elected in the senior class were: President, Hazel Beymer; vice-president, Ted McMurdo; secretary, Viola Brown; treasurer, Edmond Gonty; sergeant-at-arms, Wrex Langdon; members of the Hehisch committee, Herman Green and Kathryn McLaughlin. This is the fifth consecutive semester that Edmond Gonty has been treasurer of his class.

New officers of the junior class are: President, Frank Anderson; vice-president, Alice Bleakman; secretary, Rachel Anglin; treasurer, Armin Wilson; sergeant-at-arms, Roy Gentry; members of the Hehisch committee, Anson Rugg and Anabel Turner.

The sophomore class chose the following officers: President, Lorena Wilson; vice-president, Howard Furlong; secretary, Jessie French; treasurer, Joe Green; sergeant-at-arms, Floyd Jones; members of the Hehisch committee, Billy Cocheil and Hene Kilkenny.

The officers chosen in the freshman class are: President, Howard Bryant; vice-president, Eoyd Redding; secretary, Don Turner; treasurer, Rosanna Farley; sergeant-at-arms, Don Cowdrey; members of the Hehisch committee, William McRoberts and Irene Beamer.

package from the Schillings company of San Francisco. When she opened it, she found all kinds of spices in all forms. These are given free of charge to the school by the company. So now in spite of the "depression" our school cupboard is well supplied with spices, flavorings, and colorings. Miss Palmer plans to have various experiments with some of the new things received.
