Official Paper for Morrow County

WHAT WILL WE DO WITH THE TIME?

IT SEEMS to be definitely on the cards that our recognized industries will operate on a shorter working schedule than has prevailed in the past.

Beyond doubt, there will be a big boom in commercialized entertainment, all the way from the so-called "sports" of professional baseball, boxing matches and the like, to super-super-talkies and theatrical entertainments of all kinds.

But we think there are signs that more and more people are interested in what may be called the old-fashioned way of having a good time in their leisure hours.

And we hope, too, that some of the new leisure will be spent by at least a few in the cultivation of the intellect.

Sunday School Lesson

By Rev. Charles E. Dunn, D. D. DEBORAH. Lesson for July 16th. Judges 4 and 5.

We know little or the personal history of Deborah, the militant prophetess, who so skillfully delivered her people from the claws of a powerful enemy that she has been called the Joan of Arc of her age.

This great song of triumph, with its fierce passions, its barbaric cadence, begins with a word of praise to the terrible God of battles.

Second, the nation rightfully expects loyal devotion from her sons. Note verse 18: "But Zebulun—the clan rieked life and death with Naphtali out in the open field!"

MAKING BANKS SAFER.

AS WE understand the provisions of the new Bank Act, the purpose is to make banks safer and to put the whole banking business of the nation on a safer basis than it has been.

We do not suppose that any government or Act of Congress can guarantee that no bank president or board of directors will ever make a mistake, but we understand that the new laws will not permit such a wide range of individual judgment within which to go wrong, and that all banks which comply with the reasonable requirements of the law will at least be able to guarantee their depositors against the loss of their funds, with certain limits.

We hope the new law works as it is expected to. The banking situation in America has been nothing less than scandalous for years.

Banking is a necessary social function, and must be conducted for the benefit, first, of society and the particular community and only secondarily for profits.

To make any banking reform work it must be operated by picked men of such character that it will become once more, as it used to be, a guarantee of the highest integrity to have a job in a bank.

W. C. T. U. NOTES

MARY A. NOTSON, Reporter.

The Federal Government collected \$12,000,000 beer tax in May. The wets point to this as a great accomplishment in tax relief.

We were told over and over by the wets that the restoration of beer would put the bootlegger and speakeasy out of business; that there would be no demand for moonshine.

There you see the same old liquor tactics. The liquor interests never did obey the law when it ran athwart their schemes for making money.

Another dispatch from Medford reports a murder on the morning of the 9th inst. The man who did the killing said that "all had had a few drinks." Will making it easier to get liquor make such occurrences fewer?

O. S. C. Students Turn In High Grades This Spring

Spring fever apparently failed to bother students at Oregon State college in the final term this year for they made one of the highest scholastic averages in recent years.

Women beat the men in scholastic attainment as a whole, and the sorority average was higher than the fraternity average.

Finally, the constitution of the universe is on the side of the right. The laws of nature and of nature's God favor the righteous and oppose the wicked.

Age . . . . . forget it

One of my country neighbors is a lady of 83. Last year she lost one eye and was otherwise banged up in an automobile accident.

Crops . . . . . in France

I saw in a Paris dispatch the other day that the French government has fixed 15 francs per quintal, or about \$2 a bushel, as the minimum price for this year's wheat crop.

Brain . . . . . little used

If you set down the figure 1 and then spend a few weeks putting down fifteen million ciphers after it you will have a number that would fill about thirty books of ordinary novel size.

and more clearly about new and unfamiliar things. Most of us are just too lazy to do our own thinking.

Determination . . . wins

I wish the English language had a single short word to express the combination of qualities which enables some of us to fight our way to the top against heavy odds.

That young man will get along in the world.

Clothes . . . . . get verdict

A young lawyer of my acquaintance came back from a trip to California with forty-five suits of new clothes and the same number of new shirts, neckties and other male accessories.

He had gone out there to try a lawsuit against a big oil company. It was a doubtful case that the head of his law firm had refused to touch.

Now comes newspaper reports that physicians may prescribe alcoholic stimulants for medicinal use, in quantity and frequency as they see fit; even to a ninety days supply, if it seems to be indicated for treatment!
