SPECIAL ELECTION SLATED TOMORROW

People to Express Will on Sales Tax and Prohibition Issues.

OTHER MATTERS UP

Joel R. Benton, Hanson Hughes in Race for Delegate; County Manager, Power Bonds Asked.

Morrow county electors will go to the polls tomorrow between 8 o'clock a. m. and 8 o'clock p. m., to express their will concerning the 18th amendment, the sales tax, and the several other issues appearing on the special election ballot. The usual voting places in each precinct will be used.

Little interest has been evinced locally in any of the issues except prohibition and the sales tax, and though these subjects have been warmly debated no certainty has developed as to how the vote in the county will be recorded. Morrow county was one of the few counties of the state to vote dry at the last election when repeal of enabling acts to the state constitution prohibition provisions was effected. Appearing first on the special election ballot for tomorrow are the names of Joel R. Benton, who opposes, and Hanson Hughes, who favors repeal of the 18th Amendment, for delegates to the state convention for ratification or repeal of the proposed amendment, which, if enacted, would repeal the 18th Amendment. Either of the candidates, if elected, is pledged to vote according to the will of the people of the county as expressed on the proposed amendment of repeal.

"Yes" Vote for Repeal.

The proposed amendment follows next on the ballot, and the elector should understand that in voting "yes," the vote is for repeal of the 18th Amendment, and that in voting "no," the vote is in favor of retaining it.

Next comes the "Soldiers and Sailors Bonus Amendment" which, if passed, will hasten liquidation of the Soldiers and Sailors State Aid commission.

The "County Manager Form of Government Constitutional Amendment" follows. If enacted the amendment would make it possible for any county to abolish all elective county offices with the exception of school superintendent, and place managerial power in the hands of a county board and subordinate appointees. It is not stated on the ballot how the county board would be named, but advocates of the plan have in mind its appointment by the governor.

Next comes "Prosecution by Information and Grand Jury Modification Amendment." Self-explanatory on the ballot, this measure has been proposed by the state association of district attorneys as an advanced step in criminal procedure and the administration of justice.

Would Limit Indebtedness.

If passed, the "Debt and Taxation Limitations for Municipal Corporations Constitutional Amendment," appearing next, would further safeguard the power of municipal corporations to acquire debts, placing power in the hands of the legislature to restrict the powers of such corporations and subdivisions as to taxation and indebtedness.

The "State Power Fund Bonds," which follow, would create a million dollars fund to be spent by the state power commission.

Then comes the "Sales Tax Bill." All the above measures were referred to the people by the legislative assembly. Next comes "Repeal of Prohibition to the State Constitution of Oregon," proposed by initiative petition. Nets will vote "yes." Drys will vote "no."

And lastly is a referendum ordered by petition of the people on the "Oleomargarine Tax Bill." If passed this bill will levy a tax of 4 cents a pound on oleomargarine sold in this state, except for exportation, proceeds to go to counties for indigent relief; also assess a \$5 annual license fee on businesses offering oleomargarine for sale.

LAVASCO WILLIAM SEVERE.

The body of Lavasco William Severe, killed in an automobile accident near Castle Rock last Thursday morning, was prepared for shipment at the Phelps Funeral home in this city, and was shipped to Dows, Iowa, on Tuesday morning, accompanied by the widow, Nellie LaRue Severe of Portland. Funeral services were expected to be held at Dows today. In the car with Severe was Walter Podolak, both professional wrestlers, who were on their way to Portland from Walla Walla. Podolak sustained injuries and was taken to the Hermiston hospital for treatment. Severe was killed instantly when his head was crushed. The investigation made by the coroner and sheriff revealed that the men were speeding and, apparently drove straight off the road.

EDWIN S. DURAN, 69 CALLED TO BEYOND

Native of Illinois Came to County
In 1889; Long Resident of
Lexington Section.

By BEULAH B. NICHOLS.

Many were the friends who gathered on Sunday afternoon at 2:00 o'clock to pay their last respects to E. S. Duran, pioneer farmer of this vicinity who passed away at 5:05 o'clock on Thursday afternoon after an illness of more than a year. Friends and relatives packed the Congregational church where the funeral ceremony was conducted, and a large cortege followed the body to its final resting place in the I. O. O. F. cemetery where last rites were performed by the I. O. O. F. lodge of which Mr. Duran had been a member for many years.

Rev. Chas. Sias, pastor of the Christian church, conducted the services.

The flowers were many and especially lovely. A mixed quartet composed of Mrs. Trina Parker, Miss Dona Barnett, Harvey Miller and John Miller sang three beautiful numbers. Miss Eula McMillan was at the piano.

Funeral bearers were W. R. Scott, F. W. Turner, W. B. Tucker, O. M. Scott, J. D. Moyer and Omar Lattrell.

Mr. Duran was an esteemed pioneer of this community and for the past 44 years had made Lexington and vicinity his constant home. Edwin Sherman Duran was born at Pittsfield, Illinois, on December 12, 1863, and departed this life at Lexington, Oregon, on July 13, 1933, at the age of 69 years, 7 months and 1 day. He came to Morrow county in September, 1889, and went to work for Wm. G. Sweetzer near Lexington. In August, 1892, he was united in marriage to Adeline Sweetzer and to this union four children were born, one of whom died in infancy. A short time after his marriage Mr. Duran purchased the farm on which he was residing at the time of his death. While the children were attending school the Durans leased the ranch and lived in Lexington, but a few years ago they moved back to the ranch where they have since resided.

Mr. Duran is survived by his widow, Adella Duran, one daughter, Mrs. Mary E. McMurtrey, two sons, William A. and Moses E. Duran, all of Lexington; two sisters living in Illinois; one sister in Mississippi; one brother in Idaho; one brother in Florida, and one grandchild, Glenn McMurtrey. He had been for many years a member of the Congregational church and of the Odd Fellows lodge. He leaves a host of friends whose sympathy is extended to the bereft family.

The annual Grange Field Day and picnic was held Sunday at the Harvey Bauman ranch. During the program in the forenoon Paul V. Maris of Oregon State college gave an interesting address. There was a demonstration of how to cull out the unprofitable hens from a flock of layers. "How to prepare vegetables for the market" was the subject of another interesting demonstration. A delicious picnic lunch was spread at noon, and needless to say, this was enjoyed to the utmost (especially by the men). During the afternoon Chas. W. Smith, county agent, conducted a party on a field tour. Some of the fields inspected were those of Harvey Bauman, forty fold; Burton Peck, white federation and crested wheat grass; R. B. Wilcox, alfalfa; H. V. Smouse, Arco; A. H. Nelson, Arco, federation and white federation. At the Wilcox ranch the party also visited the grass nursery and Mr. Wilcox discussed the growing of alfalfa. The party then returned to the Bauman ranch where a lunch in the evening finished the day in just the right way.

Guests of Miss Wilma Leach over the week end were W. Togo Ericson of St. Paul, Minn., and his wife, Miss Sylvia Ericson of Minneapolis. Miss Ericson is a sorority sister of Miss Leach, both being members of Alpha Chi Omega fraternity. On Sunday evening Mr. and Miss Ericson, accompanied by Miss Leach, departed for San Francisco from where Mr. Ericson will leave for a world tour. The girls will visit in Oakland with Miss Leach's sister, Mrs. Ray White, before returning to Lexington.

The Lexington Home Economics club met Thursday afternoon at the home of Mrs. Marion Palmer. A short business session was held. Several good suggestions for the betterment of the club were presented. The club members had planned a little surprise for their president, Mrs. A. H. Nelson, this being her birthday. She received many beautiful gifts. A birthday cake with the appropriate number of candles had previously been prepared and was presented to Mrs. Nelson. Those present were Mrs. Nelson, Mrs. Nellie Palmer, Mrs. Laura Rice, Miss Beulah Pettyjohn, Mrs. Bernice Bauman, Miss Alice Palmer, Miss Jessie McCabe, Mrs. Cleo Van Winkle, Miss Clara Nelson, Mrs. Noah Pettyjohn, Mrs. Anne Miller, Mrs. Bertha Dinges, Miss Annabelle McCabe, Mrs. Anna Smouse, Mrs. Lorraine Beach, Miss Ellen Nelson, Mrs. Margaret Miller, Mrs. Myrtle Schriever, Mrs. Loren Miller, Mrs. Emma Peck, Miss Ruth Crawford, Mrs. Beulah Nichols.

(Continued on Page Four)

WORK ON QUARTERS TO BE CONTINUED

Committee Reports Cots Not Obtainable for C. C. C. Boys.

FOREST TALK GIVEN

Fire Instructions and Hints to Lost Persons Told; Report Rapids Association Meeting.

Locating of a headquarters in town for boys coming in from Camp Bull Prairie is not an easy matter and slight progress was made last week, reported the Lions committee at the club luncheon Monday. The committee was not successful in obtaining cots and reported that this feature of the headquarters might have to be given up. The committee, however, was instructed to stay on the job and do the best they could. Earl Eskelson, Earl Gordon and W. W. Smead are handling the matter.

Appropriate to vacation season when many people seek the shade of the timber on week ends, George Bleakman addressed the club on behalf of the forest service with instructions concerning fire precautions and hints to anyone who might become lost in the mountains.

Douse Fire Well.

He first cited the forest regulations for campers: "Do not smoke while traveling. Be sure to secure a campfire permit before building a fire. Carry a shovel, bucket and axe. Put out the last spark of your campfire before leaving it." It is best to douse the campfire with water, Mr. Bleakman said, being sure that every ember is soaked. Throwing dirt over the fire loosely is dangerous, because of the large amount of decayed vegetable matter in the soil which will sometimes smoulder for several days then be fanned by a breeze to start a conflagration. If water is not available, dig the soil up well around the fire to make sure it is not smouldering in the ground, and pack dirt on the embers.

If lost in the timber, the worst thing a person can do is to lose his head, Mr. Bleakman said. When one discovers he is lost, the best thing he can do is to stay where he is so that those who left him may go to where he is. A lost person invariably starts going in a circle, or if on a trail he may chase back and forth on it until he becomes exhausted. Keep cool, and if you move when lost, follow a canyon, fence or trail in one direction—do not reverse—and eventually you will come to a road or trail that is well traveled where you can be picked up.

To Approach President.

Al Rankin and S. E. Notson reported to the Lions delegation that attended a meeting of the Umatilla Rapids association at Hermiston last Friday evening. The meeting, held in the Methodist church basement, was largely attended, and steps were planned to get the true picture of the proposed dam project before the president, it was reported. Mrs. J. L. Gault pleased the Lions by singing three numbers, accompanied at the piano by Mrs. J. O. Turner.

5-Year Wheat Figures Given for Morrow Co.

The wheat acreage and production figures for Morrow county to be used in ascertaining the county's allotment under the new Agricultural Adjustment act, as they are on record with the U. S. department of agriculture, are given by C. W. Smith county agent, as follows:

Year	Winter Wheat		
	Acre	Yld.	Produce
1928	105,000	18.1	1,900,500
1929	127,441	12.9	1,649,377
1930	134,000	17.0	2,278,000
1931	121,000	12.0	1,452,000
1932	111,000	16.0	1,776,000
5-Yr. Aver.	119,888	15.2	1,811,175

Year	Spring Wheat		
	Acre	Yld.	Produce
1928	10,250	9.1	93,275
1929	3,915	11.4	44,646
1930	5,800	17.0	98,600
1931	3,500	9.0	31,500
1932	7,350	13.0	95,550
5-Yr. Aver.	6,163	11.9	72,714

Morrow county is given in third place among the counties produced the most wheat in Oregon, with Umatilla having the highest average production for the five-year period, and Sherman county next.

LAURA WILLIAMS MARRIED.

Miss Laura Williams, daughter of Mr. and Mrs. Tilden Williams of Hardman, and Torrey Nelson, son of Mr. and Mrs. J. C. Nelson of Kerkhoven, Minn., were married in Fargo, N. Dak., Friday, June 16. They were attended by the bridegroom's sister and brother-in-law, Mr. and Mrs. Carl J. Schlep of Dayton, Ohio. Mr. and Mrs. Nelson will make their home in Kerkhoven, Minn. The marriage was a surprise to the home friends. Mrs. Nelson was a graduate of Heppner high school in 1927 and had four years of teaching experience, two years at Condon, and two years at Marcola, Ore.

GRIST

From Happenings Here and Yon
Concerning—

The Harvest An Open River A Baby Elk

and other things of more or less
moment as seen by

The G. T. REPORTER

The golden grain is being harvested. Lower county yields, reported at 12 to 20 bushels, are satisfying to producers. Not so satisfying are prospects in upper country where harvest has not yet started.

Farmers are sharpening pencils on acreage reduction plan. Most seem favorable. How far domestic prices may be boosted without strengthening tariff wall, is question which arises as news comes this week of Argentine wheat arriving in New York.

The new wheat plan becomes more attractive when slumps in market hit, such as the 13-cent drop in wheat recorded yesterday.

A healthy sign in the recession is noted by some—both in the wheat and stock markets. Speculation has been rife, with heavy profit-taking. Bankers were said to be responsible for reaction, asking folks to pay up. A steadier market for a time is anticipated.

Will the president see the light? Umatilla Rapids association leaders hope so; believe that when Mr. Roosevelt understands how the Umatilla Rapids dam is the logical project to complete, first to make the river navigable, and the one that will bring lower transportation costs to farmers, he will place his okeh on its construction.

Engineers sometimes have fanciful dreams. "Who knows but what they would replace the Bridge of the Gods, if given the opportunity," said one speaker at Hermiston.

More power to Mr. Roosevelt if he will give the people of the northwest the right to enjoy the God-given resources of the mighty Columbia free of political graft and intrigue. Haste the day when boats

(Continued on Page Four)

1ST QUEEN DANCE COMING SATURDAY

Outside Communities Cooperate in Deciding Lot of Five Applicants To Rule Over 1933 Rodeo.

The first of a series of four dances to be staged for the purpose of selecting the queen of the 1933 Rodeo, September 8-9, will be held at Lexington next Saturday night. The bevy of popular young ladies chosen to represent districts of the county outside of Heppner offers a comely array of applicants for the position, any one of whom would reign in a charming manner, believe the contest managers, D. A. Wilson and Henry Aiken, who are also vice-presidents of the Rodeo association.

They are Miss Dorothy Doherty of Alpine, Miss Edna Lindstrom of Ione, Miss Margaret Brosnan of Lena, Miss Ruth Dinges of Lexington, and Miss Mae Doherty of Rhea Creek.

Selection of the applicants was made by granges or other organization of the respective communities. Voting will be by casting a dance ticket in the ballot box bearing the name of the choice of the purchaser. The one receiving the highest number of votes will be queen and the others her attendants at the Rodeo.

The other dances will follow at two-week intervals, the second at Rhea Creek, August 5; the next at Ione, August 19, with the final dance at Heppner, September 2.

Prevailing prices will be charged at each dance, with music furnished by Bud's Jazz band, popular local orchestra. Local arrangements for the dances in the outlying communities are in charge of the granges of each respectively, or other regular management of the halls, who derive the benefit of proceeds above expenses.

A great deal of effort has been expended by the Rodeo officers in planning details and making the necessary arrangements for the contest, and every precaution is being attempted to give each girl an even break with the other contestants.

C. C. C. WORKER KILLED.

Morrison J. Wildo, a member of the citizen's conservation corps camp at Frog Haven, died at a local hospital early Sunday morning as a result of injuries received when he fell from a moving truck on the way from the camp to Pendleton Saturday evening. He was brought here from Ukiah and was attended by Dr. A. D. McMurdo. The body was shipped to Baker.

Sidney George, prominent in American Legion circles and representative of the state industrial accident commission, was a visitor in Heppner today.

ASSOCIATION ACTS ON UMATILLA DAM

Seeks to Approach President With Feasibility As First Project.

NAVIGATION FIRST

Picture of Developments at Coulee and on Lower River Told at Hermiston Meeting.

President Roosevelt's declaration last week on development of the Columbia river, putting the Grand Coulee dam project in a different category from development between the mouth of the Snake and tidewater, inspired a meeting of the Umatilla Rapids association at Hermiston Friday evening. Main concern of the association was to get the true picture of the Umatilla Rapids project before the president to have it selected as the first to be developed among the four proposed dams between the mouth of the Snake and tidewater.

George Hartman, association president of Pendleton; E. B. Aldrich, Pendleton East Oregonian editor; E. P. Dodd, Hermiston, and S. E. Notson, Heppner, association vice presidents, were principal speakers, and led discussion as to steps that might be taken to get the matter before the president. Heppner was represented by a large delegation.

Engineers' View Opposed.

Fear was expressed by the speakers that if choosing of the first development site were left to the army engineers, that the Umatilla Rapids might not get the consideration deserved. This conclusion was reached in light of the announced policy of the engineers that all river development should begin at tidewater. To meet the argument which might be expected, that \$165,000 had been allotted to last a channel through the rapids at Umatilla and otherwise provide an open channel at the upper river, it was declared that this money had just as well be thrown away, as it would not begin to move the rock in the way, and that if it did the water through the channel would be too swift for navigation.

And navigation is the most important feature in the president's development program of the river between the mouth of the Snake and tidewater. Power, secondary in consideration on this part of the river, is the main incentive for the Coulee dam project to be constructed as a self-liquidating project under recent relief legislation. The president would have the other river development work done out of rivers and harbors money entirely as a federal project.

Lower River Provided For.

Boats are now traversing the lower river below The Dalles, with Cascade Locks and the Celilo canal already constructed at huge expense to the government, the speakers brought out. Wheat is now being trucked to The Dalles from the upper country and shipped to Portland by boat. But the main tonnage to be transported comes from the upper river country, and if this section is to be afforded relief through low cost transportation, the logical development should take place at Umatilla Rapids. A dam, such as is included in the engineer's prospectus to be erected here, would back the waters of the Columbia up into the Snake river, making slack water for good boat transportation above the dam, and make the whole river navigable, it was said.

In approaching the president, the meeting decided to seek the cooperation of representatives, senators, governors, and other men of influence in Washington and Idaho. A delegation from those present announced their intention of attending the celebration at the Coulee dam site last Sunday, held as a jubilee that the project had been recognized, with money in sight for its construction. There the Umatilla Rapids delegation hoped to make contacts through which the president might be approached.

Heppner Pine Mills Open Office in Roberts Building

The Heppner Pine Mills have opened an office in the Roberts building on Willow street, in the quarters formerly used by the city for its council chambers. D. C. Eccles, who with F. Scritsmier of Portland is heading the business, is now in charge of the office.

Work of setting up the planer at the depot grounds has progressed this week, and lumber continues to be delivered on the grounds from the Greener mill south of Hardman. Mr. Eccles states the new mill of the company on the Hamilton ranch will be ready for operation by the first of the month.

Mrs. Sarah Parker and granddaughter, Miss Kathryn Parker, departed this morning for La Grande and Joseph. Mrs. Parker will visit at the home of her son, John Parker, at La Grande, while Kathryn will go on to Joseph for a visit at the home of her sister, Mrs. Dorris Mitchell.

(Continued on Page Four)

HARVEST WELL ON IN IONE SECTION

Beckner Delivers First of New Crop; 12 to 20 Bushels Yield; Other News of the Week.

By MARGARET BLAKE

Harvest, or preparation for harvest, seems to be the order of the day. A number of outfits have started the past few days and next week will probably see a majority of the farmers busy harvesting their crops. Lee Beckner was the first to put any of this year's crop in an Ione warehouse, bringing in some on Tuesday to the Farmers elevator. Fred Mankin delivered some to the Jordan elevator on Tuesday also. Eearly reports from various fields are that the grain is making a good average considering the fact that it is spring sown and the season has not been a wet one. Reports of from twelve to twenty bushels to the acre are given. With the wheat market as it is the farmers are feeling that they are getting a better break this year than for several seasons past.

Mrs. Purvine and son of Portland are visiting at the home of Mr. and Mrs. Loren Hale.

Mr. and Mrs. Hal Ely and Mrs. Heiker motored to Hermiston on Monday. While there they attended to some business and also visited at the H. G. Rankin home and went through the cooperative cannery in Hermiston which is managed by Ora Barlow.

The Farmers Elevator company has purchased a new truck to be used in connection with their business this summer.

Mr. and Mrs. Frank Lundell were surprised on Monday evening when their relatives came in and had "pot luck" supper with them, the occasion being the anniversary of their wedding. Those who enjoyed the evening with them were Mr. and Mrs. C. W. Swanson, Norma, Eva and Norman Swanson, Mr. and Mrs. Cleo Drake and children, Mr. and Mrs. Garland Swanson, Mrs. Elmo McMillan and daughter, Mr. and Mrs. Ernest Lundell and Helen, Mildred, Norton and Richard Lundell.

Miss Veda Eubanks and Johnny Eubanks motored to Pendleton Tuesday afternoon. They will visit with friends and relatives and Miss Eubanks expected to have dental work done while there.

Mrs. Ella Davidson, Mrs. Earl Morgan, Mrs. Tom Davidson, Mrs. Mildred Eubanks, Miss Delvena Reis and Earline Morgan have established a camp on upper Willow creek where they will remain for a time.

Mr. and Mrs. C. W. Swanson were business visitors in Pendleton last Thursday.

Mr. and Mrs. Garland Swanson were given a surprise miscellaneous shower last Friday evening. The affair was planned by Mrs. Ernest Lundell and Miss Norma Swanson and was given at the J. E. Swanson home. A great many beautiful and useful gifts were received by the young couple. The evening was spent on the lawn, refreshments of ice cream and cake being served at a late hour. Guests were Mr. and Mrs. Lee Howell and daughters, Mr. and Mrs. Cleo Drake and family, Mr. and Mrs. C. W. Swanson, Mr. and Mrs. Ernest Lundell and family, Mr. and Mrs. O. E. Lindstrom, Mr. and Mrs. Frank Lundell and family, Mr. and Mrs. Henry Smouse, Mr. and Mrs. Hal Ely, Margaret Ely, Mr. and Mrs. Wallace Mathews, Mr. and Mrs. Kenneth Blake, Bert Mason, Miss Luella Bristow, Mrs. Elmo McMillan and Ture Peterson.

Mrs. Alice McNabb celebrated a birthday anniversary on Sunday with a large dinner party. Gathering to wish her many happy returns of the day were Mr. and Mrs. Jess Warfield, Mr. and Mrs. O. G. Hagewood, Mrs. Ida Fletcher, Miss Rosa Fletcher, Mr. and Mrs. Dale Ray, Mary Lou Hagewood, Laura, Robert and Glenn Warfield, Mr. and Mrs. Rex Fisk, Mrs. Edna Jewell, Billy and Lois Puyeur, James Warfield, Mrs. J. P. O'Meara, Mrs. Stella Reith and Douglas Olson.

Mr. and Mrs. Rex Fisk of Kennewick, Wash., accompanied by Mrs. Edna Jewell and children, Lois and Billy Puyeur, of Pasco, Wash., arrived in Ione on Sunday at the home of Mrs. Alice McNabb. On Monday Mr. and Mrs. Fisk and Mrs. Jewell continued their trip, going to Waldport, Ore., to visit at the home of Mrs. Jewell's sister, Mrs. Gus Reed. They left Billy and Lois here to visit with their grandmother, Mrs. McNabb.

Mr. and Mrs. Jack Grimes of Waldport arrived in Ione Tuesday. With them was Blaine Blackwell who had spent the last few weeks in the valley.

Mrs. Frank Engelman left Saturday for Portland where she will make an extended visit with friends and relatives. She went in company with Willie Petveys and family who were returning to Portland by way of Ione from a week's vacation spent at Walla Walla.

Mr. and Mrs. Lee Beckner and Mr. and Mrs. Fred Mankin were business visitors in Pendleton and Walla Walla on Friday.

Mr. and Mrs. Alex Irvin of Portland are visitors at the home of Mr. and Mrs. W. A. Wilcox. They are planning on locating in Morrow county in the near future.

Dwight Misner returned Friday from a business trip to Portland.

Miss Ruth McConnell of Portland is the house guest of Miss

(Continued on Page Four)

COMMITTEE NAMED UNDER WHEAT PLAN

Study of County Situation To be Made Looking To Organization.

TO VOTE BY RATING

Details of Procedure Given by County Agent; Local Association Has Administration.

As a result of the meetings of wheat farmers at Ione and Heppner last Wednesday and Thursday, a committee was named to gather the necessary data and arrange for the permanent organization of the Morrow County Wheat Production Control association. Named on the committee were H. V. Smouse, Bert Johnson, Emil Carlson, J. O. Turner, Harvey Miller and R. B. Rice.

The committee will proceed immediately to make a study of the county situation in order to be able to recommend the number of districts and the number of directors to be included in the association. Their recommendations may be accepted or rejected at the organization meeting, says Charles W. Smith, county agent, who will assist the committee.

It will be necessary for the committee to determine the average number of acres of each farm in the county on which wheat was produced in the crop years 1930, 1931, 1932, also the average number of bushels produced by each in these years, and the exact description of the land.

Must Adjust Allotments.

This information is necessary, the county agent says, because the total county allotment is based on the preceding five-year average acreage and production, while individual allotments are based on the three-year average of each. Hence, there will be a variation between the total individual allotments of the county and the county allotment, and it will be necessary to scale individual allotments up or down to fit them in proportion with the county allotment.

For the purpose of organization, all applicants for membership in the association shall be entitled to vote for a representative on the board of directors. The vote of each applicant shall be in proportion to the number of acres of wheat planted by him for the 1933 crop, which information must also be secured by the temporary organization committee.

After the organization of the association, only members shall be entitled to vote for representatives on the board of directors; and the vote of each member shall be in proportion to the number of bushels allotted to him by the county allotment committee.

The board of directors shall consist of as many members as there are communities represented in the association, with one member elected from each community. Until the total allotment for each director's district has been determined, when it will be used as a basis for voting, each director will have the right to vote in proportion to the number of acres planted in wheat for the 1933 crop by applicants in his community.

President on Committee.

The county allotment committee shall consist of 3 members elected by the board from the board's membership, with the president of the board serving as chairman of the allotment committee. The vice-president will not be a regular member of the allotment committee but will serve in case of the inability of any other member of the committee to act.

Besides a president and vice-president, other officers will be secretary, who shall be the county agricultural agent, and a treasurer, who shall be the county treasurer or some person approved by the State Director of Extension.

Community committees will be named by the board of directors for the purpose of making inspections; so that, all told, the details of local administration will be handled by the local association.

The board of directors, committees, and officers of the association shall, however, be subject to the rules and regulations of the Agricultural Adjustment Administration of the U. S. department of agriculture. With the exception of the secretary, the county allotment committee and the community committees while serving as inspectors, the officials of the association will serve without compensation and will be allowed only such subsistence and expenses as the secretary of agriculture shall prescribe.

Sentiment of farmers generally since the meetings last week appears favorable for a large percentage affiliation with the proposed association.

PARADE PRIZES UPPED.

Prizes for the organization floats and decorated automobiles were considerably increased by the float committee when it met this week to plan for a bigger and better parade at the Rodeo, September 8-9, announces Chas. W. Smith, chairman. It was expected the full prize list would be ready for publication next week.

(Continued on Page Four)
