Official Paper for Morrow County

### REGULATION OR OPPRESSION?

THE responsibility of a newspape I to its readers goes farther than simply printing the news as fully as circumstances wil permit. In these days every editor and publisher who would maintain the respect and confidence of his subscribers sees to it that in the advertising columns of his newspaper nothing appears which could have detrimental effect upon his home town folks.

It would be hardly necessary for us to mention that subject if it were not that the integrity of newspa-pers, and of emall town weekly peak of prosperity is going to be newspapers in particular, is being even higher and more attractive challenged over the radio and otherwise, and by men who ought to now better. We refer particularly know better. We refer particularly to Profesosr Rexford Tugwell, a member of the Administration's "Brain Trust" who has been true. "Brain Trust," who has been try-ing to drum up support of the new Food and Drug bill which he is the query "Why not both?" Well. trying to get the next session of why not? The Coulee dam wasn't ongress to enact.

possible for any publisher to accept man. advertising from responsible agen-cies without having to be an expert dietician or a doctor. That was not always true. We have to admit that in the old days many products were advertised which contained habitforming drugs, or harmful substances, or which were merely thinly disguised "booze."

resentful of the representations made by those who should know better, that such practices still prevail. We can see no good in re-strictions which might easily result in great injury to reputable busi-ness and no real benefit to anybody. Many of the provisions of the proposed law savor of oppression rath-

than of regulation. And we resent Professor Tugvell's charge that the small-town newspapers of America are negli-

## The FAMILY DOCTOR JOHN JOSEPH GAINES, M.D.

### TIMELY TALK

Fall of the year . . . canning-time and preserving-time. America's true daughters, the wives and mothers of the nation, are busy, laying up treasure for use during the cold days,—it looks like we shall need those wonderful home products later on.

Preserves? Of course-therefore a hint: Let's not preserve any fruits that have tough, hard skins on them; no "egg-tomatoes"—the little yellow fellows, I mean. Those tough skins may play the very old thunder with a colon, you know. Cherry preserves, (out of season now) are taboo for the same reason reaches him' says George E. Fari what I advise for preserved from the what I advise for preserved men country little squares—and cook into the most wholesome, safe preserve that know of It fills that bill on any wholesome safe that the preserve depends that the preserve depends the wholesome safe that the preserve depends the wholesome safe that the preserve depends the wholesome safe that the preserve depends the tough, indigestible skins. You know what I advise for preserving? Here it is—watermelon rinds! Pare down

self-respecting newspaper, certainly not this one, would think of lay-ing before its readers.

### PATIENCE IS THE WORD.

THE evidence increases from day to day that business is picking up everywhere, in most lines. Pro-ducers, whether of food-stuffs and other farm products, of manufac-tured goods of all kinds, are getting etter prices for their products. More men and women are back at work, money is beginning to circuate more freely, all the evidences that the upturn has begun are at

Yet we hear many people grum-bling, declaring that the President's recovery program is a failure, be-cause it has not performed a miracle over night. No sensible person who has stopped to think about it ever imagined that this great nation could jump back instantly into its former prosperity. It took us near-ly four years to slide down the hill; we cannot hope to leap back to the top in one bound. We do not beieve it will take four years, or anything like it, to get back on Pros-perity Peak; but we do feel sure that it will take more time than some of the kickers are willing to

It is hard to be patient when one is up against it for ready cash and the means of livelihood. But pa-tience is the word that needs to be impressed upon everybody in these days. If the return of prosperity has not made itself manifest to any particular reader of these lines, be patient, for it is surely on the way. Of that we have not the slightest

doubt. And if we wanted to pose as prophets, which is a rather useless. not to say thankless, sort of eneven higher and more attractive than the last one was,

rapids. Now that Bonneville has been selected, the E. O. persists in needed now; but it is going ahead. in which such a thorough cleaning up has been in progress for the past twenty-five years as in the advertising of preserved footing. tising of prepared foods and proprietary medical and toilet preparations. As a result of the efforts of Advertising Federation of the one at Bonneville; and the in-America, the Better Business Buland wheat growers are in greater reaus and the Federal Food and Drug Administration it has become cheap electricity.—Oregon States-

Those days have gone forever. October 16, much has been happen-and we are glad of it. But we are

Service in the control of the proposed provisions of which for the control of the proposed provisions of which is a new reason to the control of the proposed provisions of which is a new reason to the control of the proposed provisions of which is a new reason to the control of the proposed provisions of which is a new reason to the control of the proposed provisions of which is not cover hooked, and any each of the proposed provisions of which is not cover hooked, and any each of the proposed provisions of which is not cover hooked, and any each of the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and any each of the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and any each of the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked. The proposed provisions of which is not cover hooked, and the proposed provisions of which is not cover hooked. The proposed provisions of which is not cover hooked, and the proposed provisions of which is gent or culpable in their attitude in such a development, Oregon dairy the matter of such advertising. Let interests sent A. E. Engbretson, suhim turn his attention to the radio, perintendent of the Astoria branch the billboards and the cheap fiction experiment station, to Washington magazines, which habitually carry to see, if possible, that the Pacific advertising of a character which no

riculture, and is 1,050,065 bushels. This is the total allotment for the county. Therefore, if any farmer receives a greater allotment than his past production warrants, he is thus depriving other farmers in this county of their just share.

tion warrants, he is thus depriving other farmers in this county of their just share.

Total production figures of those who apply for contracts, together with those who do not must equal the official production as shown by the records of the U.S. Department of Agriculture. If the county totals are greater than the official totals, it will be necessary to make a downward adjustment.

Any person may make a confidential report if he finds any statements here which he believes to be inaccurate. Such reports should be made to the community or county committee either in writing or verbally. The reports will be strictly confidential. A farmer whose statements are said to be inaccurate will need to prove his produstion figures.

Farmers have been asked to furnish evidence of production and evidence of sale such as thresherman's certificates, elevator certificates, or other records and receipts. Satisfactory evidence will be required of any farmer whose statement is questioned.

The following statements have been condensed to save space. "Acres" represents acres planted to harvest and "bushels" represents bushels harvested. The "four-year average" represents the four-year average acreage and production from 1229-1822. Farmers should refer any questions regarding this publication to their community committee or to the County Allotment Committee.
