

Leaves . nature's plumage

I do not know of anything in nature more purely beautiful than the tree-covered northern mountains in

This year the coloring of the trees is more brilliant than I have ever seen it. Whether it is because some other cause, the maples are a leaves a brighter yellow, the oaks hostess. and the elms a more vivid brown, than usual. From my window as I write I look out upon Stockbridge Mountain, as magnificent in coloring as a Persian carpet, with the varying greens of pine, hemlock, spruce and fir picking out the high brilliance of the decidious trees, and I experience a sense of sheer aroused in me.

Other scenes are more stupendous and awe-inspiring but the tranquil beauty of Autumn woods is, to me, at once uplifting and soul-sat-

Harry Hopkins picked for his life 24. work a career in which he hasn't a chance to get rich, but from which literally millions of other people

are benefitting.
As soon as he graduated from Grinnell College, in his native Iowa, he got a job with a charity organization. From one such job he went to another; Association for Improving the Condition of the Poor, Board of Child Welfare, Red Cross Flood Relief, director of New York tion, director of New York Relief Administration — and now he is Federal Relief Administrator, with

Hopkins belongs to, but he is my and expect to be in full operation idea of the sort of Christian de- by March 1. Mr. Cooney and his scribed in the parable of the Good brother are the largest stockhold-

the mile-high ice-cap which cov-ered the earth to as far south as the Ohio River began to melt and the Ohio River began to melt and by the high school, was decidedly er and farther North. But the soil ence in a continuous uproar.

More than a hundred years ago a perfectly preserved body of a mammoth was found where the tundra had melted. More and more of them have been found, and each farther north. This, scientists say farther north. This, scientists say, ing school at the Eastern Oregon proves that the polar ice-cap is still Normal at La Grande, spent the receding, and that the time will come, perhaps in another hundred er, Mrs. Ollie Neill. thousand years, when semi-tropical vegetation, such as has been found

Education is a subject about which every student, parent, and even citizens who have no children, should be vitally concerned.

The student should realize that the most prominent and most fa mous men are those who have taken advantage of the educational opportunities which their time of-

The parents should wish their children to have the best education if for no other reason than pride. There is more reason for pride in a good education than there is to have pride in a new car. The car will wear out, in time, but the educated boy or girl will continue to be an everlasting source of pride. Education enables the children to raise higher the standards set by Beavers 13, Elks 12.

Citizens who have no children oft times make remarks to the ef- ly matched than last year. The Coufect that they should not pay school taxes. The reason for this is easily six points between them and the formed upon the subject and does not realize the handicaps the uneducated are placed under. Some of ten points toward the necessary the hated to leave these kindly the things such a person does not 120 points which are required for a realize are: that someone paid for letter. HIS education and kept him out of mischief; or that some day he will pay taxes for an institution in which people are housed who would not be there, had they but had the chance for an education. In summing up the facts already related and innumerable facts and incidents which are not here related, it is believed that the private citizen who having no children, will not contribute to the public school fund is do-ing more harm to himself and so-

Education would have helped this type of individual.

"The Yellow Shadow," a mystery play, has been selected as the play to be presented by the junior class. The play afternoon, Oct. 31, in Heppner, Justice of the Peace Huston performs The cast, tentatively chosen, is as ing the ceremony, was that of Miss follows: Nell Travis, Lorena Wil-Elvira Bleakman to Raymond Macson; Gilbert Wright, Edwin Dick; Donald, both of Hardman, with Alice Perkins, Jessie French; Mil-Mrs. Sam McDaniei, Jr., witnessdred Marvin, Hene Kilkenny; Hazel ing the ceremony. The bride is a Wayne, Jennie Swendig; Jed Travis, Howard Furlong; Herbert Marvin, Joe Green; J. Steel, Francis store keepers here and natives of this community. The groom is the son of Mr. and Mrs. John MacDonald, also old time residents of this

Unable to witstand the powerful offtackle plays of the Pendleton high school Buckaroos, Heppner's Fighting Irish eleven was defeated 19-0 by the Bucks at Pendleton last Saturday.

The most of the game was a tough scrap for both teams. Pen-dleton scored in the first, second dieton scored in the first, second and last quarters. The Irish offense, because of the inability of the line to open any holes on line plunges, consisted mostly of passes, plunges, consisted mostly of passes, plunges, consisted mostly of passes, plunges, consisted mostly of passes.

Phelan (captain) and Morgan; tackles, Reid and Burkenbine; guards, Furlong and Kenny; center Avers: quarter, Schwarz: halfhacks Gilliam and Thomson; fullback. Hiatt. The Irish will train this week for

the last game of their season which will be played with Hermiston at

The high school pep band will be the guests of the American Legion auxiliary at its convention in Ar-Saturday. The band will play at the football game between Hermiston and Heppner.

The high school safe was ran-sacked last Wednesday night, and four dollars taken. The sheriff and his deputy are working on clues. At the regular meeting of the Benzine Ring last Thursday, Louis Gilliam demonstrated how ammonia gas could be burned in oxygen, and gave a lecture on the deadly

poisonous properties of prussiac Why, oh, why does Mr. Bloom wear dark glasses? (Perhaps it's because his classes are so bright!) The typing I class is making vatype-designed posters for

Armistice Day.

The sewing class has finished its project on woolen dresses. The cooking class is learning ho

to serve breakfast. The students of the high school have been spending their spare time trading the pictures that were tak-en by the Hollywood Picturecraft.

Two more poems have been added to the English V class collection making a total of thirteen poems the best of which will be read before the student assembly. Extra credit is given the authors for their work in poetry. Five-minute talks relative to

school interests are being prepared by the public speaking class in connection with National Education Week. The best of these addresses will be presented before the student assembly.

## Science in the School

How few of us there are who think of the science courses in the as subjects whereby one learns new terms and principles concerning previously known facts about common objects, and not a means by which we can acquire an extra credit toward graduation.
Only of late have we had access to the scientific knowledge of to-day. The advancement of science

in the last few years has far out-

stripped what was ever known or family have moved their household. All this he knew but it did not would make you free." And when believed before. The general facts effects into the upstairs part of the weigh against his resolve. ### FACING THE ENEMY

Deserted by the people, Jesus for the first time in his public work forsook Palestine and led his wondering but still dutiful disciples in to the foreign cities of Tyre and Sidon. The ojurney gave him a chance to be alone with the twelve;

Several high school girls have tition of his earlier triumphs.

He hated to leave these these these triumphs. He hated to leave these kindly the thought of another trip through Galilee. What a graveyard of high hopes it was! Every road, every street corner, almost every house and tree was alive with memories to show each pupil how his of his success. Now he must pass each one again, conscious that it might be the last time, his heart weighed down with the thought of high purposes that had brought no response, and sacrifices seem ingly in vain. Small wonder that he cried out against Chorazin and Bethsaida and even his own loved Capernaum, the cities for which he had done so much. "Woe unto you," he cried in his loneliness, "for if the mighty works which were done in you had been done in Tyre and Sidon they would have repented long ago, in sack-cloth and ashes."

. So the spring and summer passed, and autumn came, bringing the feast of tabernacles, which he determined to celebrate in Jerusalem. It was a suicidal resolve The report of his dwindling influence had been carried to the Temple clique which was emboldened by
