Our Parents
 Parents are strange people. They do everything in their power to make their children happy and to give them everything they want. Yet, they seem to expect nothing in return.

How many of us try to give something to our parents in return for all they have given us? One wonders how many can honestly say they have partially repaid their parents.
 Repayment can be done in many ways, but one of the most effective ways is by deeds. "Little deeds of kindness, little deeds of love, go to make an Eden, like to that above." Children can do these little deeds of love and kindness either knowingly or unknowingly. Nevertheless, they touch the hearts of the parents. Down deep inside of them, our parents feel gratitude and contentment. Gratitude—that their children have the consideration to try to do something to repay them. Contentment—that they have given life to a child who can do these deeds, not only for themselves, but for other people, too. These are the things which contribute greatly to making our parents' Eden.

Money and expensive gifts help repay them, but not as effectively as deeds. Little remembrances, such as cards on Mother's and Father's Day, touch the heart more than an expensive present. The gift makes the father or mother think that the presentation is more of a formality than a remembrance. Our parents get too many formalities when they associate with the outside world. While at home, they

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in liquid form. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.

like to live a simple life and be regarded by their children as simple people. Formalities do not fit into the average American home.
 Thus it may be seen that repaying our parents for all they have given us is a simple task if we set about it in the right way. These little deeds are simple and mean so much to our parents.

Good Advice
 When a person looks over the desks in our school, he is made to wonder what has become of the persons who so unwisely left their autographs awkwardly carved on the desks.

After stopping to consider the person whose name and initials we find, we discover that they for the most part belonged to persons who were not attractive in any way. They were little noticed by anyone because they lacked ability and talent; so they sought notoriety by writing and carving their names on furniture. You may find the owners of the autographs today, you will see that many of them are still unnoticed and unsuccessful.

For a time this carving was stopped, but now we notice that students are again marking the desks. A few names have been observed. If we want people to see our names, let's put them on the bulletin board; if we are in love let's just tell the one we love and no one else.

Above all—don't show your ignorance by carving on desks; keep the property of our school in first class condition.

Honor Roll
 The following is a list of the students who have earned a grade of one in their work during the past six weeks: LaVerne Van Marter and Irene Beamer, four one's each; Alice Peterson, Miriam Moyer, Margaret Sprinkel and Lorena Wilson, two one's each; Florence Moyer, Ralph Currin, Harold Wright, Jessie French, Claire Phelan, Clifford Yarnell, Cleo Hiatt, Wm. McCaleb, Charles Cox, and Dean Goodman, one one each.

Attend Debate Tournament
 Inexperienced but determined, Heppner high school's debate squad, consisting of the affirmative team, Ralph Currin and Frances Rugg; and the negative team, Billy Thomson and Francis Nickerson, journeyed to Pendleton last Saturday and came within an ace of being high school district debate champions. Five teams took part in the tournament—Hermiston, Heppner, Pendleton, Mac-Hi, and Umatilla.

In the first round of debates, Heppner's affirmative team drew Mac-Hi and the negative team drew Umatilla. Heppner and Mac-Hi were victorious by a score of 2 to 1. In the second round both of Heppner's teams drew Hermiston's teams. However, the local teams were not experienced enough to win from Hermiston's speakers. Both Heppner teams lost this round with the score being: affirmative, Hermiston 3, Heppner 0; negative, Hermiston 2, Heppner 1. This won the debate for Hermiston. The Heppner squad was coached by Mr. Pevey.

Class News
 In order to learn some new pieces for the basketball tournament, the "pep" band practiced Monday evening.

On Main street Thursday afternoon the band led a parade which was made up of Elks' initiation candidates. After the parade, the band gave a short concert in front of the First National bank.

The high school students were guests at the grade school program held in honor of George Washington's birthday Thursday afternoon. The program consisted of group singing, songs by the different grades, a playlet, and a dance. Sixty poems have been turned in to the poetry corner of the English VI class. The poems are written by the students and are read and criticized in class. Most of them have been of the descriptive type.

ED CHINN, Prop.

Now, as I was saying, moonlight isn't moonshine although it may have the same effect upon your constitution. Speaking of constitutions, the Constitution of the United States was drawn up. But the funny part of it is, one never sees any pictures on it. While pictures are the topic of conversation, let's discuss topic. There's a remembrance of your English. Topic sentence is the sentence that is given to convicts when they have committed something they shouldn't have. Although it is readily agreed that they can't very well be blamed for their crime when at school they are taught Geometry, eometry is that study of geography in which, instead of some one else finding the points of interest, you have to find them. Speaking of interest, don't borrow money at a high rate. You will remember that rate is supposed to have something to do with your standing with your girl friend.

Ah me, speaking of girl friends, I have found so much to my consternation that I will have to suspend my advice until next week. Well, I'll be seeing you, ta, ta.

Irish Defeated
 By a score of 13-10 the Irish basketball team of Heppner was defeated by the Stanfield quintet last Friday evening at Stanfield. The game started very slowly. After six minutes of play a field goal was scored for Stanfield by Loughary. Green then made a foul shot for the Irish which made the score 2-1 in favor of Stanfield at the end of the first period. The second period ended with the score tied 8-8. The last half opened with a field goal by Gentry for the Irish. Heppner failed to score again until Stanfield scored five points. The game ended 13-10 in favor of Stanfield.

Grade News
 The seventh and eighth grade teams played the preliminary to the Umatilla-Heppner basketball game last Wednesday. The seventh grade won by a score of 8-6. The pep band will assist the Booster club during the tournament.
