man, Heppner's leader, and two by Stan Atkin, director of the Irrigation band which last year placed first in its division at the state contest. "Grandiose," Mr. Atkin, announced, is one of the pieces required to be played by bands at the state contest. Heppner's bandsters in their capes of blue and gold, and Irrigation's players in brick colored capes, all set off with shirts and trousers of white for Heppner and black for Irrigation, made the appearance colorful, and the poise, balance and technique displayed in the playing did credit to the members and their directors. The joint appearance of the bands, fifty strong, playing in such a well developed manner marked a new high level for band work in the county and denotes an outstanding contribution to the music life of the county.

Laurel Beach of Lexington was director and Miss Juanita Leathers of Heppner accompanist for the vocal numbers which included ensemble singing by groups of grade school pupils, boys' and girls' glee club numbers, mixed glee club numbers and finale by the entire ensemble which filled the big stage to capacity. A clarinet solo by Mylie Benefield, Irrigon; numbers by the Boardman school orchestra directed by Harvey Adams; appearance of the Pine City primary rhythm band and sousaphone solo by Marvin Morgan, Heppner, interspersed the choral and band numbers; and gave a cross section of the varied musical activities of the schools of the county. The Boardman orchestra played "Mountain Memories," "Fly-Colonel" and "Maryland Waltz."

The ensemble presentations were made particularly difficult because of only one rehearsal, that in the morning, was possible. They were nevertheless well handled, reflecting much credit upon the directors. Mr. Beach believes a much improved showing in the group singing will be made another year.

The chorus numbers were: "Marching Round the School Room," "Brownies" and "Dairy Maids," grades 1-4; "Brahm's Lullaby," "Italian Street Fair" and "Sweet and Low," grades 5-8; "Sing Me a Chantey With a Yo Heave Ho" and "Ragged Vagabond," boys' glee club; "Boats of Mine," "Stumboat" and "By the Bend of the River," girls' glee club; "Cheery Lights of Home," "Where the River Shannon Flows" and "Now the Day is Over," mixed glee clubs; "Oregon State Song," entire ensemble.

The spelling contest was carried out in the same manner as in previous years. Two divisions, grades 3-4-5 and grades 6-7-8, competing in written contests, the first division spelling 100 and the second division spelling 200 words. Most of the schools of the county were represented by contestants. The Lions loving cup and the Phelps loving cup were awarded first place winners in the upper and lower divisions respectively, with pennants given second and third place winners.

The typing contest, sponsored by Mrs. J. G. Thomson, Jr., local typing instructor, was held for the first time this year. It was conducted in two divisions, composed of beginning and advanced typing students, and drew a goodly number of entrants including typists from high schools outside the county. Ribbon awards were given for first, second and third place winners in each division.

The Maypole dance was directed by Miss Leathers, and the girls participating were Helen Bundy, Betty Haddock, Helen Gammell, Helen Huff, Patricia Cason, Norma McFerrin, Evelyn Kirk, Gladys Casebeer, Georgia Morton, Betty Robinson, Elvina Casebeer, Carolyn Vaughn, Nina Cox, Irene McFarren and Patricia Smith.

LEXINGTON

By BEULAH B. NICHOLS

Harvest in this community is expected to begin three or four weeks earlier than usual this year, probably by the middle of June, according to present indications. The intermittent showers during the week and the accompanying cooler weather are very beneficial to the wheat as most of it is heading out and hot weather at the present time might prove damaging. Farmers are complaining about weeds in their wheat, especially in those fields that were seeded last fall. In the fields of spring sown wheat the weeds are comparatively few.

The local school board has announced that, with the aid of FERA funds which have been allotted to this district, the school term will be extended twelve more days and school will close on May 25th instead of May 9th as was formerly announced.

A Good Place to Be.
"It is good for us to be here."
Matt. 17-4.

The place referred to in the above Scripture was the Mount of Transfiguration. It was here that Peter, James and John witnessed that transfiguration of Jesus Christ and beheld His real glory.

Then there were also in this place visitants from heaven—Moses and Elijah. And Peter, James and John were permitted to look upon these glorified saints.

So it is no wonder Peter exclaimed, "It is good for us to be here." No wonder he wanted to build tabernacles and stay there.

But that mount of heavenly dwelling was not to be their continual dwelling place. Back to the valley and the plain they must go; to everyday life; to face its humdrum; its trials; its sorrows; to minister to its needs.

But God was there, in the valley, on the plain; everywhere; and that is the thing we must know and grasp; that we cannot always have the mountain-top experience; but we can go into heavenly places with the Christ of God, and take the experiences we gain there into all the ways of life here on earth. A GOOD PLACE TO BE is where God is; and God is just where the loyal, loving heart of humanity is; God is just where we most need Him, and when. Another GOOD PLACE TO BE is the Church; in the services of worship; there God will be found. GO TO CHURCH!

For the coming Lord's Day the sermon topic for the morning service will be "The Body of Christ." For the evening hour of worship, the members of the C. E. will present "Convention Echoes." If you have not a Church home, we invite you to come and test the welcome of this friendly Church and worship with us.

Cream Producers Advised Methods of Aiding Quality

The cream producer and the butter consumer are expected to benefit from the new butter code, the first through higher prices for his product and the second through a greatly improved product, reports W. C. Cox, manager of Morrow County Creamery company, who attended a district buttermakers' conference at Pendleton Monday. Code provisions, the producer must code provisions, the producer must keep up the quality of his cream.

Mr. Cox has announced it as the policy of the local creamery to churn only grade "A" butter, which can be made only by churning grade "A" cream. Both first grade cream and butter bring a premium on the market, and he believes it greatly to the interest of the cream producers to take the steps necessary to produce this quality cream. The following instructions for producing such cream were released at the Pendleton meeting:
