

Cattle Men Eye Surplus At Chicago Conference

Facts tending to show that the beef cattle surplus problem and the dairy cattle surplus problem are so closely related that any program of adjustment for one will have to take into account the other...

Though report on the conclusions reached as a result of the conference has not been received by the Oregon State college extension service...

From 1928 to 1934 numbers of all cattle, beef and dairy, increased in the United States from about 57 million to about 67 million head.

Annual cattle slaughter may be expected to rise from about 21,000,000 head per year to about 24,000,000 head in the next several years...

Harry Petrie, chief of the beef and sheep section in the AAA, told the conference that the producers' trouble is chiefly due to a surplus of breeding stock...

To the argument that there would be no surplus if people could buy what beef they needed, Mr. Petrie says that relief purchases for all those not able to buy would care for only about 15,000 to 20,000 head per month...

Beef cattle are now listed under the farm act as a basic commodity, making producers eligible to receive benefit payments for production control if a program is put into effect...

1934 Chicks Are Fewer, Hatchery Reports Show

Indications are that the number of saleable chicks hatched in the United States is running less than a year ago, although future bookings might suggest some increase...

Saleable chicks hatched by commercial hatcheries of the United States during March were 6.3 per cent fewer than in March 1933.

Bookings by commercial hatcheries in the whole country for April or later delivery were nearly 6 per cent greater than a year ago...

The Pacific coast produced in 1933 a total of 36,440,000 pounds of hops from 26,500 acres, of which 4500 acres were new plantings...

Flea Beetles Menace to Oregon Potato Industry

Flea beetles, two species of which are now found in Oregon, constitute a serious menace to potato production in this state...

Though the pests attack both the leaves and tubers of developing potatoes, control is directed at poisoning the adult beetles...

portion of one to four by weight of hydrated lime is most effective and may be purchased ready mixed or is easily mixed at home...

The adult beetles emerge in May and June and it is in these months that application is made as soon as the work of the flea beetle appears on the foliage...

These beetles are known to feed on upwards of 50 different plants including many weeds. Most serious damage appears on potato, tomato, pepper and egg plants.

Vegetable Canning Needs Much Care Says OSC Man

With the return of the canning season, Oregon homemakers are once more faced with the problem of how to be certain that the home-canned product is free from the organism known as Bacillus botulinus...

The Bacillus botulinus grows under conditions where little or no oxygen is present and where the acid content is low or the condition is slightly alkaline...

Since not less than six hours at boiling temperature—which would completely disintegrate vegetables—are required to kill some strains of the botulinus organism...

In cases where it is impossible to use a pressure cooker to obtain complete sterilization, however, Mr. Wiegand recommends cooking with boiling water and adding acid to the vegetables to prevent the development of Bacillus botulinus...

cooked at least 15 minutes at boiling temperature after opening before they are even tasted, and that any showing signs of spoilage, however slight, should be destroyed by burning.

FERA Provides Cows for Landless Relief Families

Hundreds of thousands of rural families in the nation who are on relief rolls are without a cow, and that is one of the reasons, authorities say, that they are "on relief."

Yet cotton, wheat, and tobacco growers have much more land lying idle than is necessary to supply land to these landless relief families.

The relief family that uses these non-rented acres from which the landlord or tenant has shifted crops will be allowed to grow only food or feed and may not sell that.

TYPING CHAMPS NAMED

Corvallis.—The annual state high school typing and shorthand contest just held at Oregon State college resulted in two of the three school champions retaining last year's titles.

Ontario.—An alfalfa seed conference which will be attended by most of the seed growers of eastern Oregon has been called for Saturday, May 19, in this city.

ALFALFA SEED MEN TO MEET

Problems of financing, production, warehousing, cleaning and distribution will be taken up, E. R. Jackman, extension agronomist at O. S. C., is working with local officials in preparing the program.

Dairy Plan Shelved by National AAA Officials

Divided sentiment in the dairy industry nationally has caused the administration to abandon its plan of putting into effect a benefit payment plan of production control, extension officials at Oregon state college have been notified.

Abandonment of the proposed plan for the present at least is in line with the fixed policy of the AAA not to attempt adjustment programs without the expressed support of a substantial majority of the industry...

A limited program of diseased cattle reduction and relief purchases financed by funds made available by congress may be carried out. The present policy of milk marketing agreements will also be continued...

The Pacific Northwest gave strong support to the proposed adjustment plan and may petition that certain portions of it be made effective in this territory, according to Dean Wm. A. Schoenfeld of O. S. C., who presided as chairman at the Portland regional meeting.

On hearing of the decision of the Washington officials Dean Schoenfeld said it is a matter of great regret that other areas did not see fit to collaborate. It is the belief of leaders here that certain phases of the plan applied locally in the Pacific northwest would be preferable to leaving the situation drift, although the opinion is held here that the entire plan should be put into effect nationally.

While the Oregon, Washington and Idaho dairymen were strong in their support of the program with minor modifications, reports from many other regional meetings show that the dairy industry is sharply divided over the proposed plan.

The tabulation of signers in the Oregon corn-hog campaign shows that a total of 6580 contracts have been completed, representing every county in the state.

George R. Bagley for Justice Supreme Court. The friends and neighbors of Judge George R. Bagley ask your consideration of his candidacy for justice of the supreme court.

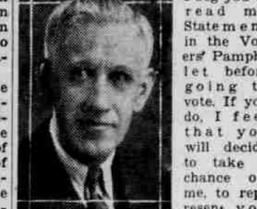

Anyone desiring a copy of the poem "Mothers of Men," (suitable for framing) printed elsewhere in this issue may obtain it free by sending their name and address to 616 Morgan Building, Portland, Oregon.

county represent the largest number of hogs. The board of review work is now underway. First major steps toward getting a program of adjustment for the beef cattle industry is taking place with a conference of representatives of the industry which started in Chicago April 26.

CO-EDS TO HONOR MOTHERS. Corvallis.—The annual Women's weekend when co-eds of Oregon State college entertain mothers of the students on the campus, will be held here Saturday and Sunday, May 11 and 12.

A PLEA TO THE VOTERS FOR A NEW DEAL. By David F. Graham, Republican Candidate for Congress.

I beg you to read my Statement in the Voters' Pamphlet before going to vote. If you do, I feel that you will decide to take a chance on me, to represent you there in Washington.

My opponent promises you lots; what could he do? one man amongst 434 others? I'll bet I could do as much, and probably, a little more.

My opponent asks for credit for the various laws he helped put on the Statute books but does not ask that he be given credit for being the leader in the fight to put the Sales Tax there, or for having refused to allow the people a chance to vote on it.

I believe we have too many lawyers in public life and political offices right now, and that if we had less, we would be better off and have less trouble.

honor convocation, student plays, a reception, the annual mother-daughter banquet, a dance recital and on Sunday special church services and a band concert.

Grain in his section has been helped materially by recent rains, said Fred Mankin when in town Monday from the Ione section.
