Official Paper for Morrow County

Editorial Association

To Meet at Roseburg

Eugene, Ore.—Arrangements have been completed and everything will be in readiness for the 47th annual convention of the Oregon State Editorial Association at Roseburg, on June 21 to 24, it was announced here by Arne G. Rase, field manager of the association.

Of great importance to newspaper publishers and non-metropolitan printers will be the appearance of the program of Walter D. Allen, Brookline, Mass., who is president of the National Editorial Association, and chairman of Joint National Code Authority for Graphic Arts Industries A-2 and A-5.

Departmental meetings will be held for daily and weekly newspaper publishers, and for commercial printers. A feature of the session will be the awarding of the Paul R. Kelly cup for the best weekly newspaper editorial page.

Entertainment will include a picnic at Umpqua Park, Friday evening, golf tournament Saturday, the annual gridiron dinner on Saturday, a salmon bake on Sunday, and fishing and motor tours.

A record attendance, with members present from every part of the state, is anticipated.

Irrigating Methods May Conserve Moisture, Crops

In this year of water shortage in many irrigation systems east of the Cascades, and a considerable number of new irrigators west of the mountains, careful attention to the frequency and amount of irrigation may serve to conserve both crops and water, says M. R. Lewis, U. S. D. A. irrigation engineer in the soils department at Oregon State college.

It is an old rule of irrigation that if one waits until the crop shows real need of irrigation it is too late to do the most good with the water. Lewis modifies this a bit but says that even though one does watch for signs of the need of irrigation in the crop, it is always best practice to wait till the crop is suffering.

"Any setback to an irrigated crop because of water shortage will mean a reduced yield at the end of the season," says Mr. Lewis. "It is probable that irrigation is delayed too long more often than applied too soon. Most over-irrigation is due to the use of too much water at a single irrigation than to too frequent applications."

Type of soil, nature of the crop, size and rate of growth of the crop and the climatic conditions all affect the time and frequency of irrigation, making it impossible to set any hard and fast rule for all cases. Sandy soils often need irrigation once a week in the peak of the season. Loam soils in garden crops may need watering every 10 to 15 days. Alfalfa or orchards on deep soil, on the other hand, may not need irrigation often than every three to four weeks even in the hottest part of the summer, says Lewis.

Actual soil moisture records are the surest way of telling when to irrigate but in the absence of these the best way is to watch the crops, he says. The occasional weeds in an orchard are good indicators. When they flourish there is ample moisture, but when they start to wilt the trees will need water.

Oregon Cities League Gets \$7500 for Work

Eugene, Ore.—A grant of \$5,000 for this year and \$2500 for next year, to be used to carry on the present state-wide program of service and research, has been received from the Spellman foundation by the League of Oregon Cities, it was announced here by Herman Kehrl, executive secretary of the league and director of the University of Oregon bureau of municipal research and service. News of the grant was received in a letter to O. R. Bean, city commissioner of

Portland and president of the league.

The work of the league in this state, which has attracted national attention during the past year, was outlined before Spellman foundation officials recently in Berkeley, California, by an Oregon committee consisting of Cris Schuebel, city attorney and J. L. Franzen, city manager, of Oregon City; Mr. Bean, Mr. Kehrl, and W. M. Briggs, field consultant for the league.

Previous to this grant the league has already received notice that a grant of \$2500 had been made by the American Municipal Association. These grants, together with financial support accorded by members, will make possible a varied program of activities for the future. A meeting of the league was held recently in Eugene and marked success has been accorded several regional sessions held in various parts of the state.

The league, in addition to compiling data and studying problems for cities and towns at large, maintains a bureau to which individual cities may submit problems.

To Increase Capital of Federal Bank, Spokane

The capital structure of the Federal Intermediate Credit bank of Spokane is to be increased by \$5,803,000, W. E. Mayer, president, announced yesterday. Two million dollars will represent additional capital stock and \$3,803,000 paid-in surplus. This brings the capital structure of the Spokane Intermediate Credit bank which serves the four Pacific northwest states to approximately \$10,000,000.

The funds will be invested in government securities and consequently increase the bank's earning power. The appropriation will tend to maintain the highly favorable market for intermediate credit bank debentures. This favorable market made possible the existing low interest rate of 2 per cent charged by the bank as of May 16, the lowest rate in its history. The bank's reduction brought about the lowering to 5 per cent of the interest rate charged farmers by the new production credit associations serving Washington, Montana, Oregon and Idaho.

The appropriation represents the Spokane bank's share of \$25,000,000 recently called from the treasury by Governor W. I. Myers of the Farm Credit administration to increase the capital and surplus of the 12 Federal Intermediate Credit banks.

The source of this sum is the \$40,000,000 revolving fund created by an act of congress, approved on January 31, 1934, for the purpose of providing the intermediate credit banks with the additional capital demand necessary to enable them to meet the increased demands for agricultural production and marketing credit.

Following the additions and changes in the capital structures of the 12 intermediate credit banks, their combined capital will be \$70,000,000 and their surplus, reserves and undivided profits will be in excess of \$15,340,000.

Modern Farm Implements Show Great Improvement

Many farmers who expect yearly improvements in automobiles and trucks may not realize that modern farm implements are showing equal improvement from year to year that enables them to last longer and give better service than the older models. Clyde Walker, agricultural engineer at Oregon State college, says the modern farm implement is better designed, made of better materials, has better bearings than former machines and has positive pressure lubrication.

Many parts of modern machines are welded together instead of being bolted or riveted, he points out. New alloys are now available making it possible to use the exact type of metal best suited for a particular job. Bearings used to be babbit in most instances with now and then a bronze one. Now ball and roller bearings are frequently found in the better farm machines. The old stopped-up oil holes with their imperfect lubrication at best are rapidly giving way to pressure greasing appliances which reduce the time for oiling and make possible much more adequate lubrication.

Following the additions and changes in the capital structures of the 12 intermediate credit banks, their combined capital will be \$70,000,000 and their surplus, reserves and undivided profits will be in excess of \$15,340,000.

U. of O. Work Brings Large Sum in Gifts

Eugene, Ore.—Gifts, in cash and property with a definite cash value, made to the University of Oregon during the school year just ended totalled approximately \$103,000, it was announced here recently. The last of these, \$5,000 from the Spellman foundation, was announced this week.

In addition to cash and gifts with a definite value, several hundred books, periodicals and other property with an indeterminate value were given to the institution, it was stated.

Many of the gifts were in the form of cash from national foundations. This is regarded as a high honor for the institution, as well as a welcome addition to revenue for research and other purposes. The Carnegie Corporation of New York again financed the summer session art center, at a cost of \$6750, gave \$5,000 for the development of the fine arts program of the university, presented apparatus for music appreciation, study valued at \$2500, and made a grant of \$1000 to finance the forthcoming Institute of Law and Administration of Justice. A total of \$24,906 was allotted the university from CWA funds, and \$9,572 was allotted by the Federal Emergency Relief Administration for part-time employment of students. A total of \$2,639 was also added to the student loan fund, from gifts made by various individuals and groups.

From Mrs. Murray Warner, donor and director of the Museum of Art, the university received a total of \$5,235.11, for equipment of the museum and for prizes for the Murray Warner essay contest. From the various endowment funds the university receive \$9,176.90. Many volumes were donated to the university library, and several additions were made to the Braille Library for the blind.

PINE CITY

By OLETA NEILL

Mr. and Mrs. W. D. Neill and daughter Bernice and Mrs. E. B. Wattenburger and daughter Lucille were business visitors in Pendleton Saturday. Gwenneth Neill granddaughter of Mr. and Mrs. Neill, returned home with them for a short visit.

Miss Charlotte is now visiting relatives in Spokane. Mrs. Ralph Corrigan was in Heppner Tuesday.

Mrs. Charley Bartholomew and Mrs. Marion Finch were business visitors in Hermiston Tuesday morning.

Earle Wattenburger is now working at the T. J. O'Brien ranch. Mrs. W. D. Neill and son Ralph and granddaughter Gwenneth and Miss Alma Neill were business visitors in Hermiston Tuesday morning.

T. J. O'Brien and family visited at the Corrigan home Sunday. Malcolm O'Brien stayed at Corrigan's for a few days.

Mrs. Hixson of Pleasant Valley spent the week end with her daughter, Mrs. H. E. Young, Holmer Sprague, Mrs. Young's son, returned to his home after spending a couple of months with his grandmother.

Frank Helms and Harvey Ayers are now hauling wood out of the mountains. This week they are

hauling the wood to Echo and after that they will haul it on the creek.

The annual school election was held at Pine City Tuesday. T. J. O'Brien was elected as director and Mrs. Faye Finch, clerk.

Mrs. C. H. Bartholomew, Mrs. Truman Sethers, Mrs. Ollie Neill, Mrs. W. D. Neill and Mr. Struthers attended the funeral of Ed Kellogg at Lone Rock Tuesday.

A fire was started on the Ollie Neill ranch Thursday when a fire cracker was set off in the grass about a hundred yards below the sheepshed. Several of the neighbors helped fight the fire but it almost went to the top of the hill anyway.

Mrs. T. J. O'Brien, who has been in the St. Vincent's hospital at Portland for over a week, returned to her home on Butter creek Tuesday afternoon.

Jimmy Healy from Heppner spent last week at the John Healy ranch. Phoebe Sethers visited at the Marion Finch home Tuesday.

T. J. O'Brien and daughter, Katherine and son, Gordon, were business visitors in Echo Tuesday.

Harold Neill is now visiting with his sister, Mrs. Charley Plourd near Pendleton.

Mr. and Mrs. A. E. Wattenburger spent Sunday afternoon at the Ollie Neill home.

A grass fire was started on the John Healy ranch Sunday morning when one of the hired men accidentally dropped a lighted match. Several of the neighbors helped fight the fire and almost no damage was done.

Mr. and Mrs. Sam Ritchie and daughter Hazel from Hermiston spent Sunday at the C. H. Ayers home.

Mrs. Roy Neill visited at the home of her daughter, Mrs. Ralph Scott, Tuesday afternoon.

Mrs. Ollie Neill and daughters, Neva and Lenna visited at the

H. Bartholomew home Tuesday.

Mrs. Peter Carlson is now quite ill at her home. Miss Naomi Moore is working at the Carlson home while Mrs. Carlson is unable to do her own work.

IRRIGON

MRS. W. C. ISOM

James Warner who has been visiting his sister in Seattle returned home Tuesday.

Mr. Swearingen who has the Geo. Haskell place leased is harvesting quite a crop of apricots this year. Miss Snow McCoy, Mrs. Bessie Wadsworth and Mrs. Jack Horner are doing the packing. The fruit is being shipped to Baker.

Chas. Smith, county agent, was a business visitor in this community Wednesday and again Saturday evening.

Mrs. Robert Smith is now in Portland attending summer school at the University of Oregon.

Billy Markham is staying with Mrs. Moore at Hermiston for a few days.

Miss Cornelia Hanson from La Grande will be assistant teacher in the high school here the coming term. She is taking Miss Helen Heath's place. Miss Heath resigned recently.

Mr. and Mrs. Frank Brace, Mr. and Mrs. Jack Browning and Mr. and Mrs. Earl Isom attended the show at Hermiston Saturday night.

Ralph Minnieck who was operated on at Baker Sunday, June 10, is reported to be getting along fine. Jack Horner and Miss Adeline Fletcher were married at Walla Walla Wednesday of last week. The young couple will reside on Mr. Horner's place west of town. The friends here extend their best wishes for happiness and prosperity to Mr. and Mrs. Horner.

Louisa Frederickson and family from Heppner were visiting the

Frank Frederickson family Sunday.

Betty Jergensmire from The Dalles is here for a month's visit with her aunt and Uncle, Mr. and Mrs. Frank Brace.

Horace Addis from Pendleton, field editor of the East Oregonian was a guest of Mr. and Mrs. Tom Caldwell Saturday night.

Henry Wier stopped over for a short call on friends Friday. He was en route to his home near Salem.

Glenn Ball who is working at Yakima spent Sunday with his family.

Mr. and Mrs. Merton Donald of Athena visited Mr. and Mrs. Frank Leitch Sunday. They were on their way to Seattle.

Stan Atkins visited friends here Saturday on his way to California. Milton Strader, Russell McCoy, Earl and Marbel Connel from the CCC camp at Tollgate spent Saturday and Sunday with home folks.

Mr. and Mrs. W. C. Isom have leased the James Warner home with camp ground and service station for three years and took possession Wednesday of last week. Mr. and Mrs. Isom are adding some very much needed improvements and expect to do a good business under the new management.

NOTICE OF SHERIFF'S SALE OF REAL PROPERTY ON EXECUTION.

Notice is hereby given that under and by virtue of an execution duly issued out of the Circuit Court of the State of Oregon for Morrow County, on the 13th day of June, 1934, by the Clerk of said Court, pursuant to a judgment and decree rendered in said Court on the 12th day of June, 1934, in favor of O. E. Johnson, plaintiff and against Bertha D. Gilman, defendant, for the sum of \$1500.00, with interest thereon from the 18th day of March, 1932, at the rate of 8 per cent per annum, the further sum of \$150.00, attorney's fees, and \$16.00, the cost and disbursements and directing me to sell all the right, title and interest of said defendant and of defendant, William McClellin, in and to the following described real property, to-wit: All of lot six (6) in Block one (1) of Ayer's Fourth Addition to the city of

Heppner, Morrow County, Oregon. Now in obedience to said execution I will on the 14th day of July, 1934, at the hour of 10:00 o'clock in the forenoon of said day at the front door of the Court House at Heppner, Oregon, sell said real property at public auction to the highest bidder for cash, and apply the proceeds thereof to the payment of said judgment and accruing costs of sale. Dated and first published this 14th day of June, 1934. C. J. D. BAUMAN, Sheriff of Morrow County, Oregon.
