Why Men Lose God

"And the Spirit of God came upon Azariah, son of Oded, and he went out to meet Asa, and said unto him: Hear ye me, Asa, and all Judah and Benjamin; the Lord is with you while ye be with Him; and if ye seek Him He will be found of you; but if ye forsake Him, He will forsake you." 2 Chron. 15:1-2.

Asa was the third king of Judah; he had been leading his forces in victory against the Ethiopians; and on his return home, was met by the prophet with the words above quoted.

These words of Azariah were spoken many centuries ago, but they are as true and pertinent this hour as when first they issued from the lips of God's prophet.

The Lord is with men, WHILE THEY ARE WITH HIM. But when men forsake God and His ways and flout His commandments; just then has God turned away from men.

If men were to put in as much time seeking God as they do seeking sin, God would be found of men and sin all over the world would cease. For when men earnestly and honestly seek God, THEY FIND HIM. And when men find God, they also find relief from sin and all its deadly aftermath. It is to be hoped that before it is ever lastingly too late, the world will awaken to the fact that none of the plans or schemes of political parties or selfish plans of men over the world will avail to settle our international troubles—BUT ONLY MEN FINDING GOD AND FOLLOWING IN HIS WAYS. MEN LOSE GOD BECAUSE THEY TURN THEIR BACKS UPON HIM AND GO AWAY FROM HIM.

Do you have a Church home? If not, we invite you to come and worship with us and test the honest welcome of this friendly Church. For the coming Lord's Day the ser-

mon topics are: Morning service, "Other Gods." Evening service, "What Is Man?"

TELL EXPERIENCES

NOME, ALASKA FIRE

(Continued from First Page)

Some of our bedding has holes burned in it and the baby bed and little table are a little worse for wear but our radio came through without a scratch and not a dish was broken. I lost my sewing kit—scissors, needle, thimble, etc., one curtain and that's all we have missed so far. (P. S.—Case of milk, half ton of coal, sack of flour.)

"At present we have a very nice room at the building of Indian affairs and are boarding with the government teacher there. We are really very fortunate as in one three room house four families including 15 children are living. By the middle of October we will have the same house as we had planned be-

fore, which is now the best house in town.

"Bart thinks it's a big party for his benefit, but to us it's a ghastly dream.

"Many old-timers have already opened up stores in old shacks and plans are going forward to build a bigger and better Nome.

"There is enough food in town to last two or three weeks. One boat arrived this morning and three more have been dispatched from Seattle and Bremerton. They are fast boats and should be here within a week. I haven't heard of even one person who wants to go outside. I tell you these people can surely take it. Not a whimper from anyone. Of course some families who would have gone out later will go back on these relief boats, but everyone else will stay that can find any excuse for a house to shelter them.

"One of the most tragic things about this is the fact that most of the business people lived in apartments over their stores so of course they lost both business and home. Very few carried insurance and several merchants lost over \$60,000. Strange to say these are the people who have already started to rebuild.

"The town is to be laid out with wide streets and only permanent, fire-proof buildings will be erected.

"One little man who had staked everything he had on coming up here in 1899 lost it all in the flood of 1900. He started his store again and was burned out in 1905, then in 1913 the flood took everything he had once more, and now he has lost his home and business, but plans to borrow money and start in again in the same place.

"The government is sending in architects and engineers and re-

construction will be under way in a week.

"It was certainly a miracle, with sparks flying every way, burning timbers and telephone poles falling, live wires and burst steam pipes, blasting on every side, ammunition stores exploding, gasoline and crude oil burning, glass flying, etc., not one person was injured or burned; not an extra patient in the hospital. I certainly feel we were being cared for.

"They have had to send in two radio operators to take care of the stacks of telegrams that are arriving. We hope, in fact we will have to have government aid of course, and with the freeze-up just around the corner it will have to come quickly.

"Just now the most urgent need is for clothing. Almost everyone lost all their clothes except what they had on. With the fire jumping around so people would hurry home from helping some friend pack to find that their house was in ashes or had been blasted. Many things were carried out but burned away to places that at the time looked safe enough. We were just "Cheechako's" (greenhorns) enough to get out when the first building caught or we would be in the same fix.

"All the teachers but Miss Brinkerhoff were burned out but all of them saved most of their things.

"Don't worry about us for we are all well taken care of."

That's what the tourist asked the native who sat in front of the village grocery, whittling away contentedly.

"Not yet!" replied the old philosopher. There's a world of wisdom in the two words, "Not yet!" They represent hope and promise.

For instance, we've already written you two friendly little letters concerning

CURLEE CLOTHES

But I've just asked the store if you'd been in, and they said:

"Not yet!"

So I hope you'll come see the CURLEE CLOTHES within the next few days and I promise to show you more in the way of STYLE, VALUE and WORKMANSHIP than you could possibly get anywhere.

You'll look better and feel better in a CURLEE SUIT OR OVERCOAT. You can wear them well and they'll wear you well. At a price surprisingly low.

That means something, doesn't it?

So come in, won't you.
