Official Paper for Morrow County

Where We Place Our X's.

X JOE E. DUNNE for governor. Liberal, progressive, aggressive, vigorous. Has clean legislative record as state senator. Father of the \$5 auto license. He is capable, competent, trustworthy. Will make Oregon safe for Oregonians.

X EARL SNELL for secretary of state. An eastern Oregon man, big enough for the whole state, who will give his section just representation on the board of control. Had wonderful record as speaker of the house.

X JAY H. UPPON for representative in congress. Has the interests of his district at heart as shown by his record in state senate. Has the knowledge and ability to get things done. A liberal in thought and action, now in the prime of life.

X CHARLES A. HOWARD for state superintendent of public instruction. Has shown himself to have the real interests of the schools at heart. Has a record of efficient, economical administration.

X R. E. BEAN for state senator. His record of economical administration of the business of Umatilla county as county commissioner commends him as worthy of the people's trust in the state senate.

X J. O. TURNER for state representative. He faithfully represented the desires of his district as expressed to him while attendant upon the last general and special legislative sessions. Commanded respect of his colleagues. Was among the leaders in working for just revision of the "truck and bus" bill.

X E. R. FATLAND for state representative. Has high standing in his home town of Condon. Educated, competent. Big enough to see the needs of his entire district. 301 X NO. GRANGE POWER BILL. Sponsored by politicians at head of state grange to command votes of grangers of the state. An opening wedge to pave way for flotation of immense bond issues to put the state into the power business.

Would place the power in the hands of politicians, and if effective in its purpose would put a great strain on the state's credit. 303 X NO. LIMITATION OF TAXES ON TAXABLE PROPERTY. CONSTITUTIONAL AMENDMENT. Sponsored by Portland realtors to aid them in disposing of property. Too drastic in that it would seriously handicap necessary functions of government, because it provides no compensatory source of revenue. Would assist in forcing sales tax upon state. Property would decrease in value, rather than increase, because of the infirmity it would cause in government protection.

305 X NO. HEALING ARTS CONSTITUTIONAL AMENDMENT. An act aimed to put medical quackery on a par with recognized medical ability. If passed would result in poorer care for injured workmen coming under the workmen's compensation act while increasing the rates under this act to a prohibitive degree. A vicious measure against society. The present basic science law provides that anyone except religious healers, to practice the healing arts in this state must pass an examination before an impartial board of examiners in the basic subjects of physics, anatomy, chemistry, pathology and bacteriology, subjects recognized by all leading medical schools as essential before anyone can be thoroughly qualified to practice the healing arts. The basic science law also makes it compulsory for all standard schools to teach all the basic sciences.

pension for the aged would involve too much of an additional load on property owners. Grant's insurance plan involves a state fund to which all employed persons would contribute, according to their earnings. The fund would be administered by a state board or commission similar to the Industrial Accident commission. The plan has the merit of lifting the burden for care of the aged from the shoulders of property owners. In addition it would remove the stigma of charity which attaches to the present pension.

and its subdivisions on July 1, last, were \$197,674,963.39 in bonds and \$18,042,605.28 in warrants. As a partial off-set against this staggering obligation there were assets of \$45,295,977.89, leaving a net debt load of \$170,421,590.73. At the present rate of payment the state should be entirely debt free in about 22 years, Holman estimates. In the meantime, however, the taxpayers will have contributed in excess of \$100,000,000 in interest to holders of bonds and warrants.

The financial picture of the state is presented in the following table, showing the net debt in each instance, together with the decrease or increase in the two year period:

Table with columns for State, Counties, School Districts, Cities and Towns, Port Districts, Irrigation Districts, Drainage Districts, Water Districts, Highway Im. Districts, and Totals. Rows show data for July 1, 1933 and July 1, 1934.

A total of 484,491 men and women are eligible to vote in the state election next Tuesday according to registration figures compiled by the state department. This is a loss of only 1655 from the registration figures preceding the presidential election of 1932. The figures include 291,267 republicans, a loss of 24,743 since the 1932 registration, and 182,717 democrats who show a gain of 28,261 in the 2-year period, almost exactly off-setting the republican loss.
