HARDMAN

By LUCILLE FARRENS

The Hardman high and grade schools are cooperating to present a program Saturday night at the high school auditorium. A free dance with supper served at midnight will follow the performance. The program is said to be of high calibre with most of the children of the schools participating. The proceeds will go for the benefit of the graduating class. Let's see you all.

Miss Ruth Nyland spent Sunday at her home at Lonerock, going over for the dance.

Sam McDaniel, Jr., is spending a while with home folks. Kenneth Bleakman is taking his place with Clyde Wright's sheep during his absence.

Mr. and Mrs. Verl Farrens were visiting home folks last Saturday, coming up from Newberg recently where they have been working since last August.

Frank Kurth is making a visit with friends here, staying at the bachelor home of Donald Hams, Walter McKitric and Maton Hicks.

Mr. and Mrs. Everett Harshman were visiting Lonerock relatives last Sunday.

Miss Lola Cannon spent last week with Miss Charlotte Adams.

Quite a number of Hardmanites enjoyed the Rhea creek dance Saturday night.

The C. W. A. crew has done considerable work toward bettering the general appearance of our town. Among the more apparent changes is the renovating of the sidewalks.

The handicraft class under the able supervision of Mrs. Anna Healy, is progressing rapidly. The class now has an enrollment of 27 members.

Mrs. Eva Robison is class president. Mrs. Frances Leathers, secretary. The class has been working on broom-holder and foot-stools the past two weeks. Despite the fact that most of the members are of the "weaker sex," their articles of production rival those of the few men in the class.

Hardman and vicinity were treated to the second snow of the season Tuesday morning. The snow barely covered the ground and only remained on a few hours. We have also had a number of hard rains out this way the past week.

The upper grades room has two new pupils, a boy in the 7th grade and a girl in the 5th, from the Hudson family, newcomers who are here for the road work.

Mrs. J. B. Adams, Mrs. Mary Coats and Mrs. Sam McDaniel, Sr., each received kindly remembrances in the form of a beautiful bouquet of flowers from Mrs. W. W. Bechtoldt last Sunday, sending them up by her son Adrian who had gone down for a visit with home folks. The Bechtoldts are former old time residents of this community, living many years on the old home ranch east of town.

Mr. and Mrs. Harlan Adams, Miss Lois Adams and Duff McKitric attended the theatre in Heppner Sunday, also spending a short while at the Burnside home in Rood canyon.

Road work on the last gap of the Heppner-Spray road is reported to be progressing quite rapidly with a number of local people employed clearing the land last week. Also some truck drivers and the shovel men have been hired but have not started operations yet.

Mr. and Mrs. Wm. Whitson and family are new people in our community, coming in for the road work. They have apartments at the Neil Knighten home. Mrs. Whitson will be remembered by old acquaintances as Miss Shirley Prophet.

Mr. and Mrs. Norris and small daughter arrived here from Odell, Oregon, and have housekeeping rooms at Neil Knighten's. Mr. Norris is the shovel man on the new road.

Life—how many expressions and proverbs there are concerning it! How many lectures, books and pictures based on the subject "Life" are given to the public. Everyone has a different solution to this problem of life, yet no one seems to have found the correct answer to it. "It's a great life if you don't weaken." The truth of this phrase sometimes seems stranger than fiction. Sometimes we think it is impossible to carry our life burdens. We feel as if we want to drop all our cares and worries and weaken under our load. Yet, something always spurs us onward and tells us to keep going.

The problem of life carries with it many other problems which seem to grow more complex as we are forced to face them. Each problem appears to bring with it two more which are more difficult still. However, if we had no problem of life to compute, what would be the use of living? So we might as well drudge onward with life to an unknown goal.

"Life is a problem, And this is the test of it: He is the wisest Who just makes the best of it."

Boyd Redding's wavy hair? Frances Rugg make a three point landing in the hall? Paul Phelan sharpening his pencil in English V class? Ernest Clark typewriting? Donald Turner playing basketball? Paul Brown blush? James Healy making freshmen girls jealous? Bleva Bundy in Gonty's shoe store after school?

Last Friday at three o'clock the juniors presented a musical entertainment before the student body. For the opening Miss Brownson led the entire student body in the song "America." The next selection was an accordion solo by Boyd Redding, which received much applause, Boyd being called back. After this was a trumpet solo by Irene Beamer. The next was a skit, "Just Another Family Affair," by Dorris and Don Allstott, in which some very good duet work was displayed. The piano solo by Irene Beamer after the skit was thoroughly enjoyed. Miss Brownson led the whole student body in the school song, "Loyalty." It was sung very enthusiastically by all. After the program a brief student body meeting was held. A committee was appointed to see about buying a large purple and gold megaphone for the yell leader.

Class News

The freshmen return party was held last Friday at the school gym. The freshmen and sophomores showed lively interest in the games which were the entertainment for the evening. Refreshments of cake and cocoa were served.

Informal Tea

Friday afternoon from 3 to 4 o'clock the high school girls will entertain their mothers at an informal tea in Room 6 at the high school. All mothers are urged to attend, for at this time the purposes and plans for a Girls' league will be presented.

The Girls' league is a national organization of high school girls. Any girl attending a high school in which there is this organization is eligible for membership. Within the organization there are several interest and hobby groups so that every girl who is a member may take an active part in the league's projects.

Personals

Kathryn Kelly, who has been a student of Heppner high school since the last semester of the school year 1932-33, spent her last day at school here Friday. She has moved to Salem and will attend school there.

Marie Barlow and Dorris Allstott were absent from school during the first of this week.

Dick Benton has been absent from school, taking a trip to Montana.

Sports

The committee of Eastern Oregon "B" district of basketball met in La Grande Saturday. The members of this committee are E. F. Bloom, chairman, Heppner; W. E. King, Helix, and Mr. La Violette, Cove. The job of this committee was to divide all "B" schools, those which have 150 pupils or less, of Eastern Oregon into sub-districts. There are five districts. The district in which Heppner is placed includes Heppner, Lexington, Ione, Boardman, Irrigon, Arlington, Condon and Fossil. The winner of this sub-district tournament will play in the district tournament which will be held in some city in Eastern Oregon.

unsafe equipment on Oregon automobiles. Figures derived from a voluntary free testing station operated in Portland during the past month have revealed an average of 17 per cent of all cars operated in Oregon have defective brakes, while about 37 per cent have defective lights, sponsors of the safety drive pointed out. Approximately 10 per cent of more than 8,000 cars tested in Portland were found to be defective in both particulars—lights and brakes. Eradication of these defects by close checking of safety elements of equipment by motorists should be a factor in reducing Oregon's mounting auto death toll, believes the Oregon State Motor association.

Let's Quit Killing

Nervous energy used up? LOOK FOR Fog Light The next time you feel fagged—especially after an evening of reading or working in someone else's house—just sit down and think about the kind of light your eyes have been enduring. Nine chances out of ten, according to a scientific survey, you have spent three or four hours under inadequate light. They were either improperly placed so that they reflected a glare into your eyes, or they gave you only "Fog Light" instead of the natural light that would have made you comfortable. After all, your eyes were made for the out-of-doors. Reading and sewing and studying and writing and all such indoor occupations are newer, by thousands of years, than the kind of seeing our eyes were made for. Electric light can almost make up for this tremendous change. But your slow-complaining eyes won't tell you in time. You need a more accurate instrument—and now science has produced it. It is the Sight Meter, that measures light as accurately as a thermometer measures heat. Pacific Power & Light Company has several of these new Sight Meters. Expert Home Lighting Demonstrators have been trained to make "lighting audits" of any home or store or office. You can have their services—free of charge or obligation. Phone today for an appointment. See this correct floor lamp! This new, 2-tone bronze floor lamp adds beauty to any room and is scientifically correct. It dispels "Fog Light"; provides ample light for perfect vision; enables you to play cards, read or sew in comfort and without eyestrain. Equipped with the marvelous new 3-way Mazda bulb, which permits you to select your most comfortable intensity of light—100, 200 or 300 watts. You can get this modern lamp, complete with bulb and shade for as little as \$12.95. SEEING LIGHT FOG LIGHT DIM LIGHT SEE YOUR DEALER OR PACIFIC POWER & LIGHT COMPANY Always at Your Service
