

New Corn-Hog Plan Out; Crop Restrictions Are Off

Smaller benefit payments for hogs, but less reduction and more liberal contract requirements in other respects, characterize the 1935 corn-hog adjustment program...

Copies of the new contract have not been received, but detailed reports of their provisions show that growers who voluntarily choose to sign again will be permitted to raise up to 90 per cent of their established hog base instead of 75 per cent...

The benefit payment plan on hogs will be changed so that instead of receiving \$5.00 on each hog raised under the allotted quota as was the case this year, the grower will be paid \$15.00 a head for the number represented by the 10 per cent reduction...

OSC Beef Feeding Tests May Bring New Industry

Possibility of developing a profitable winter cattle feeding industry in western Oregon is being investigated this season by the animal husbandry department of the OSC...

Twenty head of feeder cattle from eastern Oregon ranges were purchased at the Portland stockyards this fall and, together with 10 head of calves raised on the station, have been placed in feed lots at Corvallis for the winter...

One of the older lots is being fed on a combined hay and barley ration, while the other is being given hay and mill by-products, the purpose being to compare the relative economy of several methods of feeding...

The Willamette valley usually produces a surplus of hay and feed grains, especially some of the lower quality hays not suitable for dairy herds...

Fruit Outlook Discussed In OSC Economic Report

Featuring long-time trends in the outlook for fruit and nut crops, the first installment of the 1934-35 Oregon agricultural outlook reports has just been released by the agricultural extension service at Oregon State college...

the combined production of all fruits has increased 20 per cent in the last 15 years, with grape-fruit, oranges, pears and cherries showing the greatest gains...

With reference to current farm price levels, the report shows that for the nation as a whole farm prices now average almost exactly the same as during the 1910-1914 prewar period...

Farmers generally are expected to increase crop acreage in 1935, especially of crops not under adjustment contracts, the circular shows...

Federal Leaders Coming For Wheat League Meet

Headed by George E. Farrell, chief of the AAA wheat section, a notable list of agricultural specialists are scheduled to appear on the general program of the eighth annual convention of the Eastern Oregon Wheat League in Arlington December 7 and 8...

Others listed to take part in the program include Rex Willard, head of the regional land planning program, or his assistant; W. A. Rockie, head of the federal soil erosion work in the northwest...

Heavy Water Price Drops Says U. of O. Scientist

University of Oregon, Eugene, November 27.—"D2O" or deuterium oxide, as "heavy water" is now known, can now be purchased commercially in the United States, for use in laboratory experiments...

When Professor Stafford began his project nearly two years ago, "heavy water" had just been discovered, and its value at that time was placed at about \$150,000 per quart...

The possibilities of manufacturing this valuable solution have by no means been exhausted, Professor Stafford points out. If the demand for the material continues to grow, it could be manufactured at reasonable costs at many plants where electrolysis is employed...

Dr. W. H. Lytle, state veterinarian, calls attention to the fact that the United States department of agriculture has just classified Oregon as being tuberculosis accredited free...

Thirteen experimental nursery schools are now operating in Oregon as a part of the emergency education program, providing employment for 26 teachers on relief rolls and 13 cooks...

Practical Art Museum Described by Sculptor

University of Oregon, Eugene, Nov. 27.—A "dream" museum, which turned out to be a practical suggestion for art appreciation for every campus of community in the country, was described here recently at the University of Oregon by Lorado Taft, famous American sculptor...

STATE CAPITAL NEWS

will have \$8,060,000 to spend during the year. Of this amount \$3,300,000 must be paid out for bond interest and principal, \$2,100,000 on the maintenance of primary highways, \$500,000 on the maintenance of secondary highways and \$125,000 on the operation of drawbridges and ferries...

The department's largest source of revenue is the gasoline tax which is expected to produce \$7,200,000 for highway purposes next year. Motor vehicle registrations and drivers' license fees are expected to yield an additional \$1,975,000...

After State Treasurer Holman had advertised another \$250,000 block of unemployment relief certificates for sale to finance December relief needs, the Liquor commission suddenly discovered that liquor profits would take care of the situation without resort to additional certificates and the sale was called off...

The "safety-responsibility" act which is being sponsored by the legislative interim committee on roads and highways is being facetiously referred to as the "dog bite" bill. Opponents of the measure declare that it is founded upon the theory that every dog is entitled to one good bite before being muzzled...

Any attempt on the part of the coast counties to remove the toll provisions from the Coast bridges contract will probably meet with strenuous opposition, particularly from southern and eastern Oregon counties, according to information reaching the capitol...

Dr. W. H. Lytle, state veterinarian, calls attention to the fact that the United States department of agriculture has just classified Oregon as being tuberculosis accredited free...

Thirteen experimental nursery schools are now operating in Oregon as a part of the emergency education program, providing employment for 26 teachers on relief rolls and 13 cooks. Three of these schools are located in Portland and one each at Hillsboro, Salem, Oregon City, Toledo, St. Helens, Pendleton, Klamath Falls, Corvallis and

HELP KIDNEYS. If your kidneys function badly I and you have a lame, aching back, with attacks of dizziness, burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains... use Doan's Pills.

DOAN'S PILLS. The right liquid laxative will bring a more natural movement, and with no discomfort at the time, or afterward. The wrong cathartic may often do more harm than good.

FOLGER'S DRIP-COFFEE-MAKER. With 1 lb. FOLGER'S DRIP COFFEE Special \$1.95. ASK ABOUT THE CASH REFUND PLAN. If you have never tasted FOLGER'S, your first cup will probably be a revelation, for FOLGER'S is something different and BETTER in coffee—not just another "brand" but an entirely different KIND of coffee. MALCOLM D. CLARK

Why Liquid Laxatives Do You No Harm

DOAN'S PILLS. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.
