Editorial

This year we have a high school basketball team that is going places and doing things.

The support of the team has been good, but why not make it excellent?

There is always the same group of students at every game. Occasionally some of the students come that do not attend regularly, but these occasions are few and far between. There are times when it is impossible to attend a game, but these times are not as frequent as some students' attendance indicates.

What's the matter with the other half of the student body? Aren't they interested or is it that they just don't care? Surely it can't be because of financial status. The payment of fifty cents for student body dues admits all students to the games absolutely free of charge.

One half of the student body is behind the team with everything they've got. The other half is doing nothing whatsoever in support of the team.

Let's start cooperating for a change with every student in Heppner high pledging his support to the team.

At the next game let's see you and you and YOU occupying a seat in the balcony and showing what kind of school spirit we really do have.

Features

What! A remedy for spring fever? Surely not!
Yes, exactly that, at least in one class.

What is it?
A contest Miss Brownson is having in the two Typing I classes. The students are so enthusiastic about it the thought of spring fever never occurs to them.

It must be a very interesting contest. What is it based on?
The students take short speed tests and then take the class average in the errors and net rate.

Which class is winning?
The two classes meet at nine and at one. The one o'clock class is winning so far but they still have a week so the nine o'clock class has a chance.

It is the usual procedure to take one's bath on Saturday night. One takes his bath in warm water. Joe Aiken, however, took his Saturday night bath on Saturday afternoon. While playing baseball in the field near the gymnasium last Saturday. He forgot that a creek was nearby, and while running after the ball, plunged madly into the stream.

He was not drowned, however, and is not much the worse for his unexpected bath.

Hermiston Game

The well-known term "green" as it is usually applied to the Irish was proven to be false as the Heppner Fighting Irish showed in their playing last Saturday night, that they knew the ropes. Hermiston

made but one basket and two free throwa while the Heppner boys steadily increased their score with many well-placed shots all through the game.

This led up to the final score of 18 to 4 which made the 11th victory out of 16 games which the Fighting Irish have played this season.

At this rate the local boys have an excellent chance of upsetting the anticipations of the Boardman quintet to reverse the score of the first clash. They will meet for their second game of the season on the local gym floor Friday night.

Club News

The Benzine Ring meeting was postponed last Thursday night, Feb. 14th, because of the various Valentine parties.

The boys' and girls' glee clubs have started to work on the opera for this year under the supervision of Miss Brownson. It is entitled, "An Old Spanish Custom."

Recipe for Flunks

Take a pound of bluff. Stir in a few excuses. Add a dance or two. Flavor well with rides and moonlight strolls.

Boil continuously. Add dates regularly. Stir and serve hot at the end of the semester.

Freshman: "Which is correct—I am a fool, or I'm a fool?"
Senior: "I am a fool."
Freshman: "I thought so."

Mr. Evans: "Name the first person singular."
Ervin: "Adam."
May I hold your "Palm, Olive?"
Not on your "Life Buoy."

Mr. Bloom: When were George Washington and Abraham Lincoln born?
Louise Anderson: On holidays.

Mr. Winter: Buddy, can you tell me how iron was first discovered?
Buddy: Yes, sir.
Mr. Winter: Tell the class your information on that point.
Buddy: I heard my father say yesterday that they smelt it.

Mr. Evans: What did Nathan Hale say just before he died?
Willie McRoberts: Give me liberty or give me death.

A. M. and P. M. usually stand for clock time but in the freshman class they stand for heart time.

Monday morning. R. D. Allsott was elected new president. The first grade have completed weaving their rug.

Sub-District Tournament.
Next Thursday, February 28th, the Fighting Irish basketball squad will journey to Arlington to compete in the sub-district tournament to be held on the Arlington court. In their first encounter they are scheduled to battle Fossil, one of the strongest teams participating. This game promises to be a real thriller as both teams are about equal on a comparative basis.

OSC Savant Writes Eugenics Book.
Corvallis.—On the age-old controversy concerning the relative importance of heredity and environment, studies of identical twins reveal that both are important and that good environment is often necessary for maximum development of hereditary traits. This is one of many points made in a new book, "Principles of Genetics and Eugenics," by Dr. Nathan Fasten, head of the department of zoology at Oregon State college, just published by Ginn and company. The book has been praised by critics
