JUST A REDWOOD TREE

By F. F. WEHMEYER. The redwood was named sequoia for an Indian chief, ruler of one of the Cherokee tribes. Chief Sequoia brought his people from semi-savagery to a stage of civilization wherein they had a written language, books, schools, farms and cities.

This tree is one of the oldest of living things and probably has a life cycle in excess of 3,000 years. One specimen, the General Sherman, named after one of our greatest generals of the Civil War, is probably also the largest of all living things on the earth.

seriously ill was taken to The Dalles hospital last Sunday but is reported to be much better at this time. Mr. Graves went down Friday to be with her.

Mrs. Grace Tyler and sisters-in-law, Mrs. Grace Dufur and Mrs. Edna Dufur, motored to Heppner last Thursday to visit old friends of the Mesdames Dufur.

Mr. and Mrs. J. F. Gorham motored to Pendleton Monday. Charles Dillon was a business visitor in Portland last week.

Norvel and Eldon Shannon who are working on Butter creek spent the week end here with their parents.

Mr. and Mrs. Charles Barlow and daughters and Miss Mary Chaffee of Heppner visited with relatives here Sunday.

Mr. and Mrs. Charles Nickerson and daughter moved this week out to the Royal Rands ranch which Mr. Nickerson is taking care of during Mr. Rands' absence.

Mr. and Mrs. J. F. Barlow spent Sunday at Condon at the Truman Messenger home. Their grandson Franklin who has had pneumonia is much better at this time.

Mrs. Grace Dufur and daughter of Payette, Idaho, Will Tyler of Colorado and Mrs. Edna Dufur of New Mexico returned to their respective homes last Friday after being called to Boardman last week by the death of their brother, H. V. Tyler.

Mrs. Beason accompanied her daughter to New Mexico. Mrs. Reese Byram motored to Boise, Idaho, last week with friends, where she will remain for a few weeks visiting with her daughters.

An interesting program was given at the Parent Teachers meeting last Friday evening in the auditorium. A tumbling exhibition was given by the high school girls under the direction of Miss Clara Ruff, and a debate in which W. A. Baker, Reese Byram, George Wicklander and Buster Rands took part was enjoyed.

The senior class of the Boardman high school sponsored a Bug party given last Saturday evening in the gymnasium. After the Bug game lunch was served and dancing was enjoyed. A large crowd was present.

A slice of history this old tree has lived to see. The fall of Rome, the emergence of the white races from savagery and one is almost tempted to say their return. The rise of the two greatest religions, Christianity and Mohammedanism. The formation of the whites into the great nations of today. The discovery of America. The fall of all the great Asiatic powers of the past, Egypt, Cathay, Carthage. During its time Attila, Tamerlane and other mongols were planting yellow seed deep within the white races thru northern Europe, while Hannibal and his brother Hasdrubal, with their negro armies were dubbing the south of Europe people with a darker color than sunburn.

This tree has lived through more than 80 generations of human life and endeavor, which means that, not counting the possibility of cross breeding, that we had this number of direct living ancestors at that time. Put down a figure one with twenty-one ciphers behind it. If you wanted to trace your family tree back to about the time of the discovery of America, only, you would have to trace it back to a million people of that date, providing there was no cross breeding, and what a family album, even that would make. Like nearly every other living thing, the tree is largely composed of water. The Gen. Sherman contains probably 750 tons. This water is not stationary but is constantly being forced up, as it is gathered through the root system and given off through the needles to the surrounding atmosphere. It is called capillary action and is encompassed through the living cells in the sap wood. This directly in conflict with the laws of gravity as we understand them. The gradual forcing up of 160,000 gallons of water to a height of 350 feet would be a real mechanical or engineering problem, for the whole weight of this water is being lifted. Scientists know it is being done but don't know exactly how. Lumber from trees of this size would make housing for a good size town. The wood is used largely for shingles, fence posts, grape stakes, cigar boxes. It is what is known as a conifer, having needles and not leaves. Its range is very limited and except for intervention on the part of the government, would probably have been well on its way to extinction. At one time its growing range covered a large part of the Pacific Coast. Pieces of petrified wood closely resembling redwood, though not definitely classified as such, have been found in the Heppner district, on the national forest.

Minutes of previous meetings were read and approved. The court approved, continued or disallowed the various claims presented against the County and ordered approved claims paid by proper warrant from the proper funds.

The engineer's report on the vacation of a road in sections 35 and 34, T. 2 N. R. 24 E. W. M. was read and the Court made resolution to close same.

The Court made resolution to vacate County road front 1/4 cor. Sec. 24, Tp. 2 S. R. 24 E. W. M., running thence North 3 miles and ordered County Engineer to make report of same April 6, 1935.

The Court made resolution to vacate road from 495 feet South of N. W. Corner, Sec. 24, Tp. 2 S. R. 24 E. W. M. and running thence South to Heppner-Wasco Highway and ordered County Engineer to report on same April 6, 1935.

The Court made resolution allowing 7 cents per mile on County Business, effective February 1, 1935.

Petition for improvement of the Inboardman road was received and the Court decided to wait said road but not to construct until estimates can be prepared and money in hand sufficient to complete same.

The Court decided to begin work on the Rhea Creek road just as soon as a road outfit is available.

The Court agreed to cooperate with the Biological Survey to the amount of \$1000.00 and ordered the Clerk to notify them in the amount of cooperation in the matter of predatory animal control.

Court made agreement with Luis G. Rumble for care of the County hospital poor cases for the year 1935 at a yearly stipulation of \$800.00 payable monthly, effective January 1, 1935. The County physician is to determine such hospital cases.

After giving applicant a hearing and due consideration of same, the Court voted unanimously for the appointment of W. N. Barlow as County Clerk to fill the unexpired term of Gay M. Anderson, resigned.

February 16, 1935. C. W. Barlow, applicant for Clerk's office, taken oath of office administered by District Attorney Notson.

Court approved the appointment of Maryann Chaffee as Deputy Clerk at a salary of \$75.00 per month.

The Court approved the bonds of both the County Clerk and Deputy County Clerk.

WHEN YOU TAKE A LAXATIVE ... use a spoon

It isn't what brand of laxative you take that's so important—it's the form. A liquid laxative can be taken in any required amount. If only a little is needed, you need never take a bit too much.

Doctors favor the easily measured liquid laxatives. Instead of any form that does not encourage variation from the fixed dose. A fixed dose may be an overdose for you—or your child.

Always remember this one thing about constipation: the secret of any real relief is reduced dosage.

Give the bowels only as much help as may be needed, and less help if the need grows less. You will find Dr. Caldwell's Syrup Pepsin an excellent aid in regulating the bowels. It contains senna and cascara (natural laxatives) and it will clear-up any bilious, sluggish condition without upset. Delightful taste, and pleasant action. Your druggist has it.

BOARDMAN By RACHEL J. BARLOW

The home of Mr. and Mrs. Bryce Dillabough was destroyed by fire at 6 o'clock Monday morning. Mr. Dillabough had started fires in the kitchen and living room stoves and engine out to milk, and when he returned on the walls of the living room on fire, and in a very short time the entire house was a mass of flames. The children were asleep yet when Mr. Dillabough came to the house. Mrs. Dillabough is visiting in Portland. None of the household furnishings was saved but the piano and a few chairs. A large crowd soon gathered and carried furniture from the Ray Brown residence to the east of the Dillabough home, and water was poured on the roof to keep it from catching fire. The house was insured in the Grange Insurance company.

The Ladies Aid social meeting for the month of February was held at the home of Mrs. J. F. Gorham last Wednesday afternoon. After the business meeting refreshments were served by hostesses Mrs. S. C. Russell, Mrs. J. F. Gorham, Mrs. F. F. Klitz, Mrs. L. V. Root and Mrs. A. B. Chaffee.

County Court concurs with the City of Heppner—Memorial to Congress. RESOLUTION. IN THE COUNTY COURT OF THE STATE OF OREGON FOR MORROW COUNTY. At a regular meeting of the County Court of the State of Oregon for Morrow County, on Saturday, the 16th day of February, 1935, being the fourth day of February, 1935, the County Court, after reading and considering the following proceedings were had: Whereas, the Common Council of the City of Heppner, State of Oregon, has memorialized the Congress of the United States to take action looking to the protection of the watershed of Willow Creek in said County of Morrow; and Whereas, it appears to the Court that said Memorial sets forth the true situation in regard to the need of protecting said watershed; and Whereas, it appears to the Court that such protection will be of great merit to the water supply of the City of Heppner and also to the lands along said Willow Creek, which must be irrigated from said Willow Creek; and Whereas, it appears to the Court that the loss of taxes from the lands which may be taken off the tax rolls by the suggestion in said Memorial would be small compared with the loss which is certain to follow the removal of the timber from the lands mentioned in said memorial as no doubt will occur if said lands pass into the hands of private owners; therefore, He it resolved, That the County Court of the State of Oregon for Morrow County concurs in the said memorial and urges that such action be taken as will tend to protect said watershed. Wm. T. Campbell, County Judge. George N. Peck, Commissioner. Frank S. Parker, Commissioner. Attest: C. W. Barlow, County Clerk.

The Court orders Clerk to write and have J. M. Spencer, Watermaster, to come over from Pendleton and adjust the meter situation on Willow and other creeks so that the people at the lower end of Willow creek can get water for their stock.
