All grade school children received this lunch free and a small charge was made to high school pupils. This charge was largely paid by contributions of milk, 231 gallons of milk having been furnished by high school students during the year. The menu included hot chocolate, beef and noodles, macaroni dishes, potatoes, beans with an occasional extra treat in the way of chicken and veal pot pies. Funds for the carrying out of this project were furnished by entertainments given by the grade school and faculty. 165 days were provided for in this manner and the remaining 35 days were financed by the school board. The grade school teachers wish to thank the patrons of the school for their loyal support of this work which means so much to the welfare of those pupils who must carry cold lunches to school.
