Let's Be Thankful.

TODAY is Thanksgiving. It is no less significant to American life today than on that first Thanksgiving when those Pilgrim forefathers returned thanks to God for rewarding their labors with a plentiful harvest.

The idea of Thanksgiving, though observed in different forms, is present in the human mind everywhere. It is engendered by man's dependence upon nature for his very subsistence. The earth is plowed; the seed is planted. If rain and sunshine come in season, the harvest is plentiful, and human hearts are happy.

Primitive man was more prone to thanksgiving than is civilized man; for his well-being was more dependent upon the fruits of his own labor. If his own crops failed, or if the animals upon which he depended for food came not, he had no one to whom he could turn for help, and he had no laboratory in which to manufacture a substitute. He was a child swayed entirely by the whims of nature.

Civilized man, not so rooted to the soil, through more knowledge of how best to take advantage of nature's benefits, by knowing more about processing and preserving foods and manufacturing substitutes, and by understanding the benefits of interdependence and providing facilities for distribution so that commodities of different regions may be easily interchanged, has come to feel less the whims of nature in a particular season. Yet, civilized man is prone to thanksgiving.

And well he may be. Not so much because the season has been especially good or bad. But because he has been provided with wisdom and with tools which have lifted him beyond the plight of his primitive forebear. Maybe America has yet to establish a social order where none may be found hungry in the land. But that we of America do enjoy the highest social order in the world in this regard is abundant cause for thanksgiving.

Thanksgiving will ever impel the hearts of men to nobler and higher deeds, though in turn those deeds shall each affect the object of the thanks. Wherever seed is sown, in the soil or in the human mind, if the fruit be good, there is cause for thanksgiving.

The East Oregonian these days is filled with "grade separations," "undercut passages for pedestrians" and what-not pertaining to activities of the state highway commission in the city of Pendleton. Pendleton is unfortunately "blessed" with dangerous railroad crossings of highways which should be eliminated. But a little ironical in Editor Aldrich's editorial the other day regarding this situation is reference to improvement of the junction of the Oregon-Washington highway with Oregon Trail highway. So far as has been noted before in the state highway commissioner's paper or in the activities of the highway commission, the Oregon-Washington highway has been known to extend from Pendleton only to the point where it reaches the John Day North and South highway. There's considerable O.-W. highway this side of there that needs fixing.

Sports Fans Follow The American Boy

Boys and young men of this city who wish to improve their tennis service, their basket-shooting eyes, their forward passing talent, or their crawl stroke, can enlist the aid of the nation's foremost coaches and players by subscribing to THE AMERICAN BOY magazine and following the sports interviews and fiction stories that appear each month.

"When I was in high school," says a famous decathlon champion, "I read a track article in THE AMERICAN BOY that gave me my first clear-cut idea of the western style of high-jumping. At practice I laid the open magazine on the grass and studied it as I worked out. That afternoon I increased the height of my jump three inches."

That was a long time ago, but today thousands of future champions just as eagerly follow THE AMERICAN BOY.

"This year," states Griffith Ogden Ellis, editor, "our staff writers have gone to the two greatest football teams of the country—Minnesota and Pittsburgh—for first-hand tips on strategy, blocking, tackling, passing, and the fine points of play. They have interviewed Jack Medina, the world's fastest swimmer, and his coach, Ray Daughters. Gone to Eastern High School of Washington, D. C., Eastern Interscholastic basketball champions. In the past they have followed the Grapefruit Circuit of the major leagues in Florida, sat on the bench at the Rose Bowl, sought out the famous runners, divers, All-American ends, tackles and backfield men, to bring their story of how to play the game to the young men of America."

"In addition to our fiction, adventure, exploration, hobby counsel, and vocational help, we shall continue to encourage young men to improve their game in every line of sport."

Send your subscription to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. Enclose with your name and address \$1 for a year's subscription, \$2 for three years, and add 50 cents a year if you want the subscription to go to a foreign address. On newstands, 10c a copy.

THE OLD MASTER — by A. B. Chapin

THE FAMILY DOCTOR — JOHN JOSEPH GAINES, M.D.

"Caffeine" Most important vegetables contain "active principles" which distinguishes the particular plant from others. In medicinal plants, leaves, roots, flowers or seeds, the active principle thing is called an "alkaloid." That means, likeness of a salt, or alkali. Nicotine is the ultimate principle of tobacco. Morphine, the alkaloid of opium; theine the alkaloid of tea, and so on.

Caffeine is the active principle of coffee. I have said in these columns that caffeine is one of the most valuable of heart tonics. It is virtually harmless, if used in moderation. Immoderate use is harmful in anything. I have been criticized, even berated, for telling this sort of truth. I pay no attention to the senseless crying of shallow, ignorant faddists.

Let me give you some opinions of eminent authors on caffeine: Hare says, "Caffeine is a valuable cardiac stimulant and tonic, as well as a renal (kidney) stimulant. . . so useful in cases of cardiac disease, that it has largely supplanted digitalis in the hands of some practitioners. . . A cup of strong black coffee is often useful in relieving a paroxysm of asthma. . . In headache, due to nerve-strain, it is often of the greatest service."

We give two to four grains of caffeine in disease; the average cup of coffee contains about half a grain. Caffeine gently raises lowered blood-pressure by its tonic action. It may slightly increase high blood-pressure by stimulating the entire nervous system. But that is only temporarily.

Don't rely on coffee to offset the effects of overwork. If you are overworking, rest. . . And do it right now.

were dinner guests of Mr. and Mrs. Sam Smith Sunday. Art Eisle returned from Baker Saturday where he has been employed. Miss Bessie Wisdom is coming home for Thanksgiving. Mr. Helmick, nephew of Fred Markham, is visiting his uncle.

Misses Nellie Leicht and Florene Brost came home from Spokane Business college to spend the holidays with their parents. Mrs. Bessie Wisdom left Saturday morning by train to visit her sister at Leavenworth, Wash. She expects to be gone for about two weeks.

Burt Dexter is timekeeper for the P. W. A. workers for this district. Little Joe Duncan accompanied his mother to their home in Yakima, Wash., last Sunday. He has been visiting his grandfather, Carl Eisle, for some time.

Mr. and Mrs. W. C. Isom left Sunday morning for Portland, taking their dressed turkeys to the Portland market.

Several WPA workers gathered at the postoffice Friday morning. They were put to work on the roads in the district.

Mr. Wells of Heppner was in Irrigon this week. Mrs. E. P. Rand and children were in Pendleton Saturday.

Sunday, Nov. 24, was Missionary Sunday at the Presbyterian church. The collection was for Home Missions.

The Presbyterian Bible Study group met Wednesday evening, Nov. 27, at the home of Mrs. John Graybeal. Rev. Thomas is presenting the life of St. Paul.

Find Out

From Your Doctor if the "Pain" Remedy You Take Is Safe.

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation for the relief of headaches; or the pains of rheumatism; neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains. . . and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.
