Townsendism Strong Now.

NEWSPAPER editors, by and large, credit the Townsend movement with being the controll- and Ladak alfalfa seed, says Jackmovement with being the controlling factor in coming elections in
Oregon. That is the conclusion

Oregon. That is the conclusion arrived at from a recent survey is bound to come down when plant- plants at least to break their rest made by the Portland Oregonian ed acreages are in full production, periods and to start the growth though a steady market for years cycle of spring," Professor Brown from 99 editors of up-state newspapers.

sentiment of the public, and the 50 to 70 cents a pound, while com- buds and are no longer making criterion given would probably be borne out if the elections were to be held immediately. It is entirely have a relatively better price for possible that the picture will be the next few years than grains, lured into new growth by this false changed by May and November.

Already since editors voiced their opinions for the Oregonian, rifts land to handle prospective needs. have appeared in the ranks of tempting to smooth things over. but the end is not yet.

The Townsend movement is a "good thing" as indicated by the Oregonian survey. Its vote-getting tunists. These have already invaded its councils and will continue to dustry. do so as long as it continues to be "a good thing."

The Planning Board.

(Coos Bay Times, Nov. 22) ant regional forester for the north-west, and Sinclair Wilson, forest economist, all spoke on conservation of the country's resources-planning—an eye to the future. Certainly their work is to be commended on all sides.

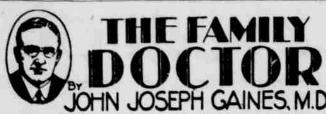

State planning boards should have every encouragement in the

be of inestimable value to this and to future generations of Americans. They are pointing the way by which we can use our great nat-ural resources in the best interests of every section of the country.

Cooperation between the states and the federal government in matters affecting the general welfare is becoming more and more a national characteristic. The depart-ment of labor and other federal agencies have found the states willing and eager to cooperate, and it try husbandry, and F. E. Price, agis a healthy and encouraging sign and is evidence of the progress made in the United States toward overcoming difficulties against dition to assuring the comfort of which individual action alone is in-

State planning boards, working in conjunction with the national fect the comfort of the birds, and resources committee are proving therefore their health, include temof great assistance in mapping out desirable programs of progress and facing, ventilation, floor space and in obtaining accurate and highly roosting space—all of which are valuably data for the purpose of

co-ordinating activities.
Composed of experts in various lines these state groups have the added advantage of being thoroughly familiar with the history of their in the bulletin for the 25-hen house state, with trends and with local conditions. Moreover, the public known O. S. C. commercial laying recognizes the value of this procedure and is quick to respond to have been in use by the state col-any recommendations made by lege and many poultrymen thru-out the state for the past 12 years.
