Official Paper for Morrow County

#### The Onrushing Tide.

THE second session of the 74th congress is in deep water. It has the job of weaving the few disintegrated shreds of the New Deal into whole cloth, while being tantalized by factions on all sides who have been led to believe that it holds the golden wand of happi-The supreme court has opened Pandora's box, and a wasp has his stinger upturned wherever a congressman sits. It is a hectic

Almost assured is cash payment of the soldier's bonus, via a senate bill authorizing issuance of baby bonds to the amount of \$2,180,000, 000 which may be immediately presented by recipients for cash or held to draw three percent interest. Passage of this bill by the senate and okeh by the president is conceded. That the house of representatives will concur is seen by the heavy majority vote favoring immediate cash payment without the baby bond feature. In this event, the government's credit will be stretched another \$2,180,000,000 and greater demand on the precious metal reserve is imminent. And the Townsend plan is not to be denied. Pressure exerted on congressmen is telling. Mayhap before this ses-sion ends, another \$1,600,000,000 of paper promises of the government to pay will be issued against the precious metal reserve.

Uncle Sam's credit groaned when he went off the gold standard, and gold content of the dollar was lessened-the president being given power to cut the gold content to 58 percent. That figure has not been reached, but the surge of inflation in the offing omens that the presi-dent or no one else will have power to stop the onrushing tide. seems to be a good chance of hearking back to the greenback days which followed the Civil war.

When the government gets paper promises to pay into circulation be-yond its power to redeem, they will he used to kindle fires with and the acceptable currency will immediately shrink to the amount of metal circulating medium. Credit generally will again dry up, and we of Morrow county will be back to the barter and trade basis of depression circulating medium in the form of sheepskin scrip.

### Control Imperative.

MORROW county wheat farmers at Lexington Tuesday voiced almost unanimous demand for further production control in the wheat industry. Such control is imper-ative if Morrow county's wheat in-dustry is to be maintained on a profitable basis.

The wheat output of this county, like that of other sections of the Pacific northwest, is added to the exportable surplus under normal conditions. Since export markets have gone a-glimmering, this county's output has become a drug on the market. This county is at too great a disadvantage because of distance from consuming centers and high freight rates to compete in the larger consuming eastern markets which can more than be supplied by wheat output in the southwest

So long as uncontrolled production prevails, however, the northwest's output is added to the visi-ble supply of the whole country, tending to drag down the price in all markets. There must be control, and the entire wheat ndustry is looking to congress to provide it. And as agriculture's prosperity is at the root of general economic good times, public sentiment every-where should endorse such action.

### Pomona Grange Opposes

\$10 License on Pick-Ups The following resolution was adopted at the recent Morrow County Pomona Grange meeting at Rhea creek in opposition to the in-

creased license fee on pick-up cars: Whereas, the regular session of the state legislature saw fit to increase the license fee on pick-ups regardless of their use, and whereas, we as farmers feel that this is an added burden and should not be

permitted: Therefore, be it resolved by Morrow County Pomona grange assem-bled this 4th day of January, 1936, go on record for the repeal of the said law; be it further resolved that a copy of this resolution be sent to the local press, the Oregon Grange

Bulletin and the executive committee of the Oregon State grange.
"Signed, Ruth Stevens, E. C. Heliker, O. E. Wright, Committee."

The two children of Mr. and Mrs. Burl Coxen are reported confined at home with influenza.

#### Land Bank Farm Sales Set New High Record

As a barometer measuring how armers of the northwest have regained confidence in land as an investment, the land department of the Federal Land bank of Spokane reports that three all-time records ere broken in 1935 in the sale of

equired farm property. Individual sales, numbering 1211, represented 25 per cent more buyers than in 1934, and the dollar vol-ume of \$3,120,000—greatest in the 18 years of the Land bank's operation—was approximately \$600,000 ahead of last year's peak. Of even more significance, cash down pay-ments totalling in excess of \$600,-000 were considerably larger than in any year before.

"Naturally the Land bank is gratified with this success in the liquidation of the properties that have had to be acquired in the normal process of conducting this cooper-

ditions, distance to markets, social advantages, etc. This eliminates promotional and speculative values which have cost farmers and investors untold millions of dollars in days gone by, and tends to sta-bilize land values at a level which protects both farmers and invest-

### TO DEDICATE BUILDING.
