Local Happenings

Dwight Misner and Jay McGuire were in Heppner Monday on business from Thornton, Wash. Mr. McGuire is a neighbor of Mr. Misner, former north-Ione wheat farmer, and a cousin of Mrs. Lucy E. Rodgers, county school superintendent, whom he visited while in the city. Dwight said he and Mrs. Misner like their location very much, and that he has begun to get back on "Mr. Misner's feet" again. The trip was made especially to pick up some farming machinery from the former place, and the men were guests of Mr. Misner's son-in-law and daughter, Mr. and Mrs. Fred Mankin. Mr. Mankin accompanied them to town Monday. One thing Dwight enjoys about his new location is that he's among a bunch of good checker players. He is making arrangements to hold an interstate checker tournament some time in the near future, when he expects to match Thornton talent against some of Morrow county's best, including C. J. D. Bauman, John Wightman and Lee Howell.

Mrs. J. W. Stevens of Hardman returned home yesterday from a two weeks' trip to Seattle and Willamette valley points. At Seattle she attended a family reunion at the home of her brother, J. C. Ensley, and family. All members of the immediate family were together for the first time in 49 years. Though it was raining when she first arrived in Seattle, the weather was sunshiny and beautiful most of the time she was away, making the trip very enjoyable.

Herbert Hynd was in town Monday from Hynd Bros. Butterby Flats farm at Cecil. He reported that his father, Jack Hynd, had dug into the sand range on their place with a post-hole digger and had found the moisture at a depth of 26 inches. Prospects look good for better range in the north country this year.

Miss Mildred Clowry, superintendent of Heppner hospital, returned this week from a motor trip east on which she visited in the states of Illinois and Indiana. She experienced some of the cold wave visiting that section, seeing the mercury at 20 degrees below zero.

Tony Vey was in the city Tuesday from the Butter creek ranch where growing conditions are promising. For many years a performer at the local Rodeo, Tony will have a larger part in its production this year as a member of the board of directors.

Byron Johnson, former Heppner boy, son of the late John E. Johnson and now a student at Oregon State college, is among students of that institution supporting the student fee bill to be voted on tomorrow. This office received a card to the effect this week.

Mr. and Mrs. Hollis Bull visited for several days this week at the home of Mr. and Mrs. J. F. Lucas, coming over from their home at Pendleton. Mr. Bull formerly bought wheat for Kerr-Gifford Co. in this county with headquarters at Lexington.

E. L. Smith was in town Tuesday from the north Lexington farm. He reported a good covering of snow on the ground, and anticipated good growing conditions with more moisture than for several years.

R. L. Ekleberry, wheat raiser of the Morgan district, was transacting business in the city Tuesday. He reported two inches of snow there which should help in bringing along the new wheat crop.

M. O. Woods, foreman in charge of the SCS shop for the maintenance of SCS autos and trucks in the Heppner camp has been transferred to SCS camp 07 at Warrenton, Ore.

Bert Johnson was in the city yesterday from the north-Ione farm. He reported the temperature there at 10 degrees above zero yesterday morning.

Geo. N. Peck, county commissioner, was in town Tuesday from the Clarks canyon farm. Mrs. Peck returned home Sunday after a week's visit in the Willamette valley.

Mrs. Michael Bell returned to her home in Seattle Saturday after an extended visit at the home of her parents, Mr. and Mrs. J. N. Batty, near Hardman.

The regular meeting of the American Legion auxiliary will be held Tuesday evening, Feb. 4, at the home of Mrs. Harry Tamblyn.

Captain Allan S. Watts was recently assigned to Camp Heppner, Co. 2113, CCC, from the Fresno district of this corps area.

Miss Lois Oliver of Pendleton was a week-end guest at the home of Mr. and Mrs. Blaine E. Isom at the Jones apartments.

There will be a dance at Rhea Creek grange hall Feb. 8. Good music.

Dr. and Mrs. R. M. Rice motored to Portland yesterday on business.

Keep It Up

Keep what up? Keep up the enthusiasm that has been apparent at the games lately. We are glad to see the students taking more of an interest. It was proved at the assembly held Friday afternoon that we hadn't lost our yelling ability.

Maybe there weren't many students at the game Saturday night, but those present are to be complimented. They cheered and made all the noise they possibly could. We are all proud of our team, and we are proud that Heppner has the honor of being host to several other towns at the district tournament. Last year we were to have the district tournament here, but owing to certain complications it was given to another town. Now that we have it here we will show the surrounding country what Heppner can do.

—H.H.S.—

Rodman Speaks to Class

Millard Rodman, head of the soil erosion work of the government soil conservation project in Heppner, gave a review to the General Science class of the work being done. In his talk, he brought out the problems and ways of conserving the fertile soil of this vicinity. Experimental work is being carried out on four farms where representative problems of the community are found. Some of these problems are the washing of the soil on the hills, trampling of new grass because of lack of watering places, collecting of the debris in creek channels, and the decreasing amount of bunch grass. To counteract these things, terracing of the hills, developing of springs, widening and clearing of creek channels and the planting of crested wheat and trees are being done. The illustrations of the problems and rectification of them were shown to the class. Concluding his talk, he invited the boys of the class out to the camp to lunch and to become acquainted with the program being carried out, and also to be shown around the CCC camp.

—H.H.S.—

Assembly

An assembly was held last Friday, January 24. Howard Cleveland, student body president, reminded the classes to elect officers for this semester. Mr. Bloom pleasantly surprised the student body by announcing that Heppner would be host to the district basketball tournament in the spring.

A program was given by the "H" club. This was given as a radio program over station "WOW." William McRoberts and Len Gilman were the announcers. The program was as follows, Neva Bleakman, "Advantages of Leap Year;" Beth Vance, "Why Basketball Players Should Not Keep Late Hours;" Bernard McMurdo, "The Art of Selling Tickets to a Show;" Don Turner, "The Music Goes Round and Round;" Norton King, a trombone solo; Jimmy Farley, "Why Seniors Think They Are So Important;" Bill McCaleb, "Pep in the High School;" Charles Cox, "Why Eligible Young Men Must be on the Lookout During Leap Year;" Ray Coblantz, "Mary Had a Little Lamb;" Paul Brown, "Why All of the High School Should be at the Game Saturday;" Riley Munkers, "Women;" Boyd Redding, accordian solo. The program finished with the striking of the gong for 11:50 o'clock.

After the program the basketball team attempted to prove that they could make more noise than the rest of the student body. The results were non-decisional. To close the assembly, everyone made use of his vocal cords by joining in a rally.

Heppner Loses Exciting Game

The game with the Mac Hi team Saturday night was a very exciting one. In the first quarter Mac Hi began to tramp down the floor for baskets. Then in the second quarter the fighting Irish began clicking and ran the score up fifteen points before the end of the half. The half-time score was 15-20. Heppner fans had high hopes as their team came out for the final half. They were not disappointed until mid-way in the third period when Mac Hi rallied with a barrage of long howitzers to run the score from 19-21 to 19-38. Although the Heppnerites shot often they failed to connect with the basket the rest of the game. The score at the end of the game was 19-44 in Mac Hi's favor. The Irish are looking forward to some measure of revenge at Milton when they contest the Pioneers again during the middle of February.

Grade School News

The first grade pupils have started on their word picture dictionaries. Each pupil is to illustrate his own dictionary. All the words they have had, and all the new words they have, will be put in alphabetical order in the dictionary.

The second grade pupils have been anxiously wating for snow so they will be able to complete their Eskimo unit. They have been reading stories and making posters about the Eskimos.

The fifth grade elected the following monitors for their grade: blackboard cleaner, Billy Bucknum; wastepaper basket. Alberta Adkins; pencil sharpener, Earl Bailey.

The sixth grade Booker's club elected officers for the new term. They are, president, Calvin Crawford; vice-president, Claudine Drake; secretary, Billy Scrivner.

—H.H.S.—

Club News

Last week was a very profitable week for the Heppner high school "H" club. As nearly everyone knows, "The Hoosier Schoolmaster," shown at the Star theater last Wednesday and Thursday was sponsored by the "H" club. The club is very grateful to Mrs. Sigsbee for her cooperation. It also greatly appreciates the turn-out by the townspeople. There was a large attendance.

The Heppner high school student body wishes to express its gratitude to the class of 1933. Final dividend from the Farmers & Stockgrowers National bank, amounting to $5.86, has been presented to the student body by Edmund Gonty, treasurer of the class of 1933.

Do You Know the Answer?

1. When "Salty" Morton is to make up her mind as to blonde, brunette, or red-head?
2. Why were Necha and Jimmie late one noon?
3. Did you think that "Pinkey" Clark had the nerve?
4. What attraction does Lexington hold for Heppner boys and girls?
5. Have you ever wondered if Howard might like the name of "Betty"?

—H.H.S.—

Humor

Marj. Parker: Norton, may I have a word from you?

Norton King: Certainly. What will you have?

Marj.: "Yes" or "No." This is Leap Year.

• • •

Clerk: I can't stand here all day. What do you want for a penny—the moon with a red fence around it?

Little Jimmie Farley: Let me see it.

• • •

Dora Bailey: Did you see the movie "Oliver Twist"?

Harriet Hager: Yes. Say, wouldn't that make some book!

Seed Corn Selection Started

Hillsboro—To develop a uniform and high-yield strain of Minnesota "13" seed corn, Floyd Bierly of Route 1, Beaverton, is conducting a rigid program of seed selection, reports L. E. Francis, assistant county agent. He began last year by selecting 40 ears from two tons of seed corn, planting 30 hills from each ear in 100 foot rows in a special seed bed. After inspection for uniformity of stand, type and yield, seven of the 40 rows were selected. From these the corn was husked, weighed and yields per acre calculated, after which five rows were selected from the seven. The seed from the five ears from which this seed came will be planted in a separate plot to produce the seed for the 1937 crop.

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination, backache, headache, dizziness, swollen feet and ankles? Are you tired, nervous—feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

DOAN'S PILLS

Pasture Most Important Oregon Farm Crop, OSC

Surprising as it may seem to anyone who has never seen the figures, approximately 69 per cent of the farm land in Oregon is used for pasture purposes, and the most important farm crop in Oregon is grass.

Research men in the farm management department at Oregon State college, who have recently issued a progress report on a survey of the costs and carrying capacities of farm pastures in Oregon, point out that only in the Willamette valley is less than half of the farm area used for pasture, and in some sections of the state more than 80 per cent of the farm acreage is in some grass or pasture crop.

This study of Oregon farm pasture land, the first year of which has just been completed and is discussed in the progress report, is being conducted with four main purposes in view. These are to determine the carrying capacities of various types of tame and native pastures in the different agricultural regions of Oregon; to find the costs of establishing and maintaining these pastures; to point out the major factors which affect these costs, and to find methods by which such costs may be reduced.

Preliminary figures for the 1935 census show a total of 171,000 horses and mules, 929,000 cattle, and 2,210,000 sheep on Oregon farms on January 1, 1935, the report points out. Much of the feed supply of this vast herd must come from farm pasture land of the state.

The great economy in cost of maintaining stock on pasture as compared with feeding hay and grain, both in direct cash outlay and in gross cost, is one of the principal points brought out by the survey in which information has been obtained so far on 15,964 acres of pasture on 319 different farms. About 50 per cent of the total cost of producing hay and grain is direct cash outlay, while the cash cost of pasture is only about 25 per cent, it is pointed out.

The report is available in mimeographed form to all Oregon residents upon request. While much of the information contained in t is necessarily of a preliminary nature, it would undoubtedly be of value to those planning to establish permanent pastures, those conducting the survey believe.

GRANGE COUNCIL TO MEET.

Morrow County Grange council will meet at the Rhea Creek grange hall Sunday morning, Feb. 2. Officers will be elected for the year and other work will be taken up. The Pomona master, Minnie McFarland of Irrigon, urges all subordinate grange officers, committees and members who possibly can, to attend. Potluck dinner will be served at noon.

NOTICE OF STOCKHOLDERS' MEETING.

Notice is hereby given that the annual meeting of the stockholders of Heppner Mining Company will be held in the courthouse at Heppner, Oregon, on Tuesday, February 1, 1936, at 2:30 o'clock in the afternoon of said day. The meeting is for the purpose of election of officers and for the transaction of such other business as may come before the meeting.

D. B. STALTER, President.
J. O. HAGER, Secretary.

NOTICE OF FINAL ACCOUNT.

Notice is hereby given that the undersigned has filed her final account as administratrix of the estate of William Shipley, deceased, and that the County Court of the State of Oregon for Morrow County has appointed Monday, the 2nd day of March, 1936, at the hour of 10 o'clock a. m. of said day, as the time, and the county court room in the court house at Heppner, Oregon, as the place, of hearing and settlement of said final account. Objections to said final account must be filed on or before said date.

SYLVA WELLS.

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that *before the discovery* of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is good for thought if you seek quick, *safe* relief.

Scientists rate Bayer Aspirin among the *fastest methods yet discovered* for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it *safe* for the average person to use regularly. *In your own interest remember this.*

You can get Genuine Bayer Aspirin at any drug store — simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this — and see that you *get* what you want.

DOCTORS KNOW

Mothers read this:

A cleansing dose today, a smaller quantity tomorrow; less each time, until bowels need no help at all.

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use a *liquid* laxative.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. *Reduced dosage is the secret of any real relief from constipation.*

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara — both *natural* laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

Title Insurance Is *Preferred*

THIS is not an empty assertion. Large operators recently financed through federal financing agencies have titles insured by this method. Such operators as

HYND BROTHERS CO.
PAT DOHERTY
and many others

have recently obtained title insurance.

Title Insurance Insures *at* Less Cost

Morrow County Abstract and Title Co., *Inc.*

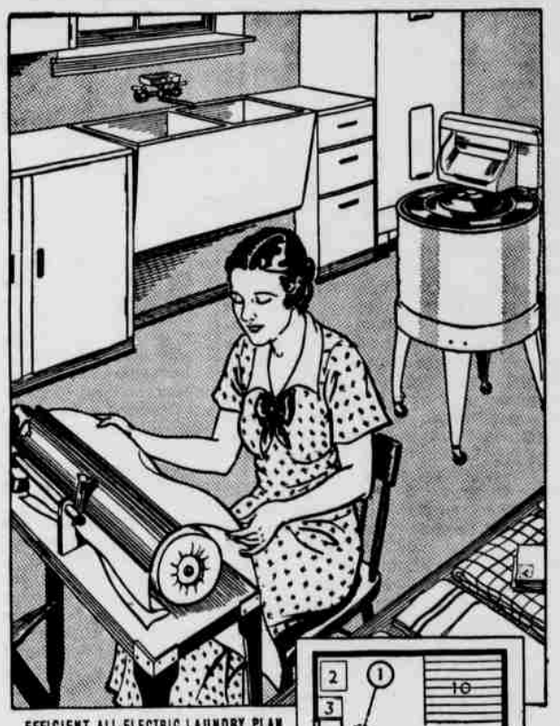
F. B. NICKERSON, President

3 *reasons why you should have an* All-Electric Home Laundry...

1 *To banish laundering drudgery!*

2 *To make your clothes last longer!*

3 *To turn out more attractive work!*



EFFICIENT ALL-ELECTRIC LAUNDRY PLAN
1—electric washer which is rolled over to tubs (4). 2—automatic electric water heater. 3—work counter with drawers below. 4—stationary tubs. 5—work counter with cupboards above and below. 6—laundry chute. 7—electric ironer. 8—ironing board. 9—table. 10—lines.

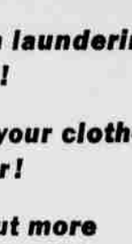
● Any electric laundering appliance—washer, ironer or water heater—will do so much to lighten your work. Any two of them—or all three—will make your work still easier. But the ideal arrangement is to have all three placed in a carefully designed laundry. Then you will enjoy maximum efficiency with a minimum of labor. You will waste no steps, no motions. Your equipment will do all the hard work—*not you.* And your laundering time will be very substantially reduced.

So decide now to have an all-electric laundry. You may have to acquire your washer, ironer and automatic electric water heater one appliance at a time. But do work out a plan for your all-electric laundry and work toward the completion of that plan as you buy equipment.

Dealers and P. P. & L. Co. will gladly assist you in working out your laundry plan, in arranging convenient terms.

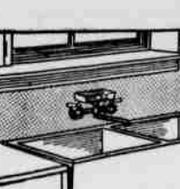
EVERY HOME LAUNDRY NEEDS THESE

Electric Washer



Modern electric washers are kind to even the most delicate fabrics. Yet so efficient is their washing action that every trace of dirt is swished away in 5 to 7 minutes. The wringers are remarkable, too. From paper-thin pieces, from bulky pieces, water is extracted equally well without your having to adjust the wringers in any way. Both washers and wringers are built to give years of trouble-free service.

Electric Ironer



The electric ironer was designed to take the backache out of ironing. *And it certainly does that!* You sit comfortably and feed your dampened pieces through so easily. The ironer exerts all the pressure—not you. It also frees you from lifting and pushing. Your pieces are finished with a truly professional look. Best of all, your ironing is completed in half the time formerly required.

Electric Water Heater

When you have an automatic electric water heater, you not only have abundant hot water for laundering, but also have it for any use whenever you turn a faucet—day or night, winter or summer. No waiting—no firing up—no heating water on top of the stove—no holding a fire just for hot water—*in fact, no bother at all!* It's just as if you had an ever-flowing hot spring in your home. Investigate this service.
