

Local Happenings

Mr. and Mrs. J. D. Ekleberry of Morgan were in the city yesterday on business. Mr. Ekleberry reported a good covering of snow in his district with the recent storm. Though it would have been welcome before cold weather set in, he believes it will prove of much value to the growing wheat crop anyway. Some fear prevails there that Aroo and Federation wheat may have suffered some from the freeze.

Peterson and Peterson, Pendleton attorneys, this week inserted a professional card in the Gazette Times. Will M. Peterson, head of the firm, has been active in the practice of law in Umatilla county since 1902. Partners in the firm are his sons, Raley, admitted to the bar four years ago, and Charles, who began practice two years ago.

Earl Bailey, young son of Mr. and Mrs. N. D. Bailey, received a severe cut above his eye when he fell against a sharp projectile on a door at the family home Tuesday evening. He was rushed to the doctors' office, and five stitches were taken to close the wound.

Don Turner, son of Mr. and Mrs. J. O. Turner is forced to take a two-weeks' vacation from his place on the high school basketball squad because he inadvertently chopped his finger while cutting wood at home last week end.

Ray P. Kinne, P. P. & L. manager, went to Portland Monday to attend a general meeting of managers, chief clerks and chief salesmen, held in the city Tuesday and Wednesday.

C. G. Blayden and E. E. Brower were transacting business in the city Tuesday from Boardman. Mr. Blayden is justice of the peace of the north end town.

Born, to Mr. and Mrs. Alfred Lovgren of Eight Mile at the maternity home of Mrs. Lillie Aiken in this city last Thursday, a 10-pound son.

Dr. J. P. Stewart, Eye-Sight Specialist of Pendleton will be at the HOTEL HEPPNER on WEDNESDAY, FEB. 19th.

The Hobo party planned by Rhea Creek grange for social evening, Feb. 14, has been postponed until a later date.

Newspaper Story Effective Oregon City—The effectiveness of newspaper publicity was convincingly illustrated in Clackamas county recently, according to County Agent J. J. Inskeep. Mr. Inskeep released an article to the papers of the county in which he advocated the use of organic mercury in place of the older wet dip method of treating seed grain. In a very short time seed stores reported a 50 percent increase in sales of this material over any previous like period, saying that many growers came into the stores with the article clipped from the paper and asked for the material.

Milk Production Increased Prairie City—Shelter provided by feeding sheds and improved feed rations and management have resulted in definitely increased milk production in the herd on the Galbraith dairy farm, according to County Agent R. E. Brooke.

February Anniversaries

February may send a cold chill through our bodies, but it warms our hearts when we stop to think of the three pleasant anniversaries this month has brought to us. Lincoln's birthday is becoming less of a patriotic occasion than it used to be. We do not think as much as we did about the Civil War or the martyrdom of Lincoln, but we do think a lot about his jokes, his simplicity, his eloquence, and especially his rise from the rank of common people to the position of a statesman and leader.

Washington's birthday reminds us of a figure, who as years pass, seems to grow more fatherly in stature and kindness. Perhaps it is because we keep finding new facts about him which are interesting to us.

Between these birthdays we may be permitted to place that international rogue, Saint Valentine, who is remembered at all hours of the day and night. For a week before St. Valentine's Day children toil to paint and paste Valentines, which are made in honor of this famous character.

We must not forget that George may have founded his country, and Abe may have saved it, but good St. Valentine perpetuates it.

"H" Club and Girls' League Carnival A CARNIVAL! A CARNIVAL! BALLOONS, FISH PONDS, CANDY AND EVERYTHING!

This is what you'll find if you come to the gym on the night of March 13, which is on Friday. However, conditions will be reversed this time—Friday the thirteenth will not be an unlucky day if you plan to attend this carnival. And don't come alone, either. Bring all your family and all your friends. Don't forget, now. We're going to have a grand time if you, and you, and you, will be there.

The Late Fashions in Make-Up Have you noticed the late fashion in make-up since the cold weather started? They aren't exactly satisfactory, but it is just something that can't be helped. Even the boys have taken up this fashion. When one comes in from the cold, his cheeks, nose, and ears are very red. It is common to see the girls with glowing cheeks and lips, but it is rather novel for the boys. Red noses and ears are usually only for drunks. It is a good thing that everyone knows about the cold weather, or some rumors might get started. If one doesn't like the new fashions, the thing he should do is to go to Florida.

Class News The public speaking class is preparing for the debate tournament which is to be held in Pendleton about the middle of March.

The English classes have been having a contest with their drill sentences which have been written on the board. Each class takes the same set of sentences, and it is interesting to watch the results. Last week the Junior English class won by a large number.

The Farm Problems class has begun the study of gasoline engines—their construction, motive power, etc.

The Biology class has been very interested and surprised upon finding the number of bones in the human body.

The first grade is finishing the study of animals, about which they are making pictures and writing poems. They are giving a Valentine party Friday afternoon and are drawing names for their Valentine box.

The second grade is working on the Indian unit in drawing and dramatizing.

The third grade also drew names

for their Valentine box and are giving a Valentine party Friday afternoon.

The fourth grade has drawn names for their Valentine box which will be opened Friday afternoon.

The fifth grade has elected officers for school-room duties: wastepaper basket, Jean Gemmel; pencil sharpener, Herbert Schunk, and blackboard monitor, Claude Drake. They have also drawn names for Valentine's Day.

Fighting Irish Take Ione The high school team avenged themselves of the defeat the night before at Boardman by romping over the Ione team to the tune of 47-18 on the Ione floor. The first half passed without incident. Early in the second half, James Driscoll, Heppner center, started on a meot course of lightning passes, flashy dribbles, and dazzling shots. His total for the game was 31 points. All the members of the team who succeeded in getting clear made high percentages in their shooting.

When Coach asked Jim what he had had before the game, the reply was, "Mostly hamburgers." Since then the demand for hamburgers has increased tremendously.

The schedule for the coming week is as follows: Umatilla at Umatilla, Tuesday; Ione here, Thursday; Irrigon here, Saturday. The CCC boys are having their Eastern Oregon tournament in the gym Friday and Saturday. Teams participating will include the Baker camp, the Condon camp, the Stanfield camp, and others.

No admission will be charged for the games Friday, but the regular prices will be charged Saturday when the CCC championship is played and Heppner plays Irrigon. This should provide two very good games for the price of one.

THE Family Doctor

JUST OPINIONS

It is by reading the opinions of other men and from observation of what is around us that we learn. This is an age of thinking and of rationalism. I am glad that I live in it.

I could not help smiling the other day when I read a statement by a very interesting medical writer who declared, "I never prescribe for a patient with high blood-pressure, until I have determined the exact cause of the symptom."

I reflected, "then my dear sir, you do not prescribe for many cases of that nature?" True, advanced kidney disease will cause elevation of arterial tension. It is our business to investigate the kidneys, or other conditions presented by the patient, and to treat the cause, as far as we can determine the cause. That is our first duty.

But the cause may be so obscure as to be indeterminate. We pause at that and say the case is one of "essential hypertension." We are perfectly justifiable in prescribing on that basis and I have brought many patients back to comfort by that method.

We have certain drugs, apparently harmless, that will reduce a distressing hypertension—even up to 250. It is known as "empiric" practice—not "rational," to do it that way. I believe I am safe in saying that we do not know the exact manner of drug-reaction in nine-tenths of the drugs we prescribe. Hence, most of our practice is "empirical," and what matters, so long as we relieve the patient?

We have learned the efficiency of many drugs by experience. Why draw hair-lines over the impossible? If we can do good, let us do it, without puzzling over "just how."

FISH OVERFED, NOT GASSED. Corvallis—Gold fish are not injured by chlorinated water common in most cities, but they are injured by over feeding, according to investigations made by Dr. Nathan Fasten, head of the zoology department at O. S. C. Dr. Fasten has recently published in the American Naturalist the results of a test he made which showed that gold fish live indefinitely in chlorinated city water, and that they will live from four to six months in many cases with no food whatever.

FOREIGN DEBATORS VISIT. Corvallis—Debaters at O. S. C. are having opportunity this season of matching wits with men from far distant university centers. A team from the University of Melbourne, in Australia, debated the relative merits of democracy and dictatorship, while a team from St. Thomas college of Minnesota argued the question of whether congress should have power to override a supreme court "veto" the same as it can presidential disapproval.

SCHOENFELD HEADS BOARD. Corvallis—Wm. A. Schoenfeld, dean of agriculture at Oregon State college, has been reelected chairman of the board of directors of the Farm Credit Administration for the Twelfth district at Spokane. The board has under its direction the four units consisting of the Federal Land bank, the Bank for Cooperatives, the Intermediate Credit bank, and the Production Credit corporation.

Excellent results from the use of Gazette Times Want Ads are reported to us each week.

OSU POULTRY HEAD RESIGNS. Corvallis—A. G. Lunn, former head of the poultry department at Oregon State college, has resigned from the staff and has gone to Massachusetts to be connected with a commercial poultry farm near Boston. Professor Lunn spent last year near there in research work with the famous Mt. Hope experimental poultry farms. Lunn has been connected with OSC as a student and teacher for about 20 years.

DISCOVERY RECOGNIZED. Corvallis—The accomplishment of Dr. R. J. Williams, professor of chemistry at OSC, in discovering and isolating pantothenic acid, has been listed in "Science News" of Washington, D. C., as one of the outstanding scientific accomplishments of the past year. Pantothenic acid is believed to be a universal essential in growth and respiration of cells of living bodies.

Modernize your laundry ...and you'll minimize your work! Basic plan 1—Chute, 2—Sorting table, 3—Washer, 4—Wall cabinet, 5—Trays, 6—Table, 7—Ironer, 8—Ironing board, 9—Chair, 10—Lines, 11—Electric water heater, 12—Drain, 13—Rack.

FREE.. plans for all-electric laundries! If laundering is one of your hardest tasks, you need an all-electric home laundry to lighten your work. An electric washer, an electric ironer and an automatic electric water heater will gladly take over the drudgery of washing, ironing and heating water. For that's their job—not yours. With the assistance of these willing appliances, your laundering time will be cut almost in half. Your pieces will be cleaner, crisper, more attractive. And they'll wear longer because they've been handled gently. To enjoy the utmost laundering efficiency, however, your equipment should be carefully placed in a planned laundry. This is important whether you buy your laundering equipment all at once or one appliance at a time. As a basis for your planning, Jeannette Cramer, well-known home service advisor, has designed all-electric laundries for 6 typical locations. Copies of her helpful plans are free at your P. P. & L. Co. office. Get yours today.

For a limited time only... at P. P. & L. Co. TWO FACTORY SPECIALS at lowest prices ever quoted on these models Thor Washer \$64.50 • Thor Ironer \$39.95 (Convenient Terms)

Find Out From Your Doctor if the "Pain" Remedy You Take Is Safe. Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations. BEFORE you take any preparation you don't know all about, (or the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin. We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice. Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct. Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly. You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy. Bayer Aspirin

Watch Your Kidneys! Be Sure They Properly Cleanse the Blood YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fall to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset. Don't delay? Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist. DOAN'S PILLS

I FEEL FINE Mothers read this: A CONSTIPATED child is so easily straightened out, it's a pity more mothers don't know the remedy. A liquid laxative is the answer, mothers. The answer to all your worries over constipation. A liquid can be measured. The dose can be exactly suited to any age or need. Just reduce the dose each time, until the bowels are moving of their own accord and need no help. This treatment will succeed with any child and with any adult. Doctors use liquid laxatives. Hospitals use the liquid form. If it is best for their use, it is best for home use. And today, there are fully a million families that will have no other kind in the house. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, now so widely known that you can get it all ready for use at any drugstore.
