### Keep It Up

Why is there a tendency on the part of so many students to neglect their work and just sit around wishing that school was out? Why not do the work? The time will seem to go faster, and there will be far more accomplished. Just because a student has received high grades throughout the year does not mean that he is entitled to a vacation for the last two or three weeks. He might wake up and find that he has failed.

Perhaps the person with the opposite idea is in just as bad a fix. Some are inclined to believe that they can play during the six weeks or the semester, work hard the last two weeks, and receive a high passing grade on their report card. Well, it just doesn't work. No matter how it is worked the one who does his as it is assigned to him will come out above the one who does it by stops and starts.

### Teachers Leaving

This year Heppner high school has the misfortune of losing four teachers who have nobly given their support to the school and tried to work for the betterment of the students and school. These teachers are Mr. Evans, English; Miss Rockhold, home economics, general science, art and sophomore English; Miss Peterson, commerce, and Mr. Pevey, algebra, geometry and science.

As students of Heppner high school we wish to express our thanks and appreciation to these teachers for the work which they have prepared for us and their excellent ability in trying to teach us the work which will help us in later life.

### Band Gives Concert

On Wednesday evening, May 13, the Heppner school band, under direction of Mr. Harold Buhman, presented its annual spring concert at the auditorium. The large crowd attending displayed enthusiastic appreciation for the class "D" state contest champions.

The junior band, composed of first year members, also played three selections in very good style. The program opened with the snappy Washington Post March by Sousa, after which were played three numbers: Overture, Euterpean by F. H. Lowey; A Japanese Sunset by Jessie L. Deppen, and F. J. St. Clair; Overture, Urbana, C. J. Roberts.

The junior band selections, next played were Rosebud Waltz, Sailor Song March and Magdeline Waltz.

The senior band then continued the program playing five numbers, Yankee Spirit March by Weber, Memories of Stephen Foster, arranged by G. E. Holmes; Blue Danube Waltz by John Strauss and E. De Lamater; overture, Oracle, by Otis Taylor and C. J. Roberts. The program was concluded by playing of the march medley, Chaser, by P. Yarder.

After the program Mr. Buhman was presented with a small token from band members as appreciation for the unselfish devotion of his spare time to hand work.

Students playing in the band were, senior band: trumpets, Irene Beamer, Charles Cox, Gerald Cason, Jack Merrill, Harry Tamblin, Jr., Jack Morton, Donald Fredrickson, Thomas Gonty, Kemp Dick, Kay Ferguson; clarinets, Harriet Hager, Ray Coblant, Omer McCaleb, Richard Hayes, Donald Jones, Carolyn Vaughn, Jeanette Blakely, Kathryn Thompson, Paul Doolittle, Alan Gibb; saxophones, Boyd Redding, Betty Happold, Margaret Tamblin; altos, Emery Coxen, Donald Bennett, Calvin Crawford, Jack Vaughn, Jimmy Gemmell, Jackson Gilliam; baritone, Hugh Crawford; trombones, Norton King, Jackson Gilliam, John Crawford, Joe Aiken; basses, William Lee McCaleb, Jimmy Driscoll; drums, Ethyl Hughes, Warren Blakely, Jr.

STEEL MAKERS say—"Ford buys the best steel." Other suppliers of materials and parts will tell you—"Nobody checks up as closely on quality and price as Ford."

This means a great deal to you as a motorist. It is our way of safeguarding the interests of every purchaser and it leads to this—"The mechanical depreciation on a Ford is less than most cars, especially after the first year."

This is one sign of the extra value in the Ford V-8. Accuracy in manufacturing is another. (The Ford is made to unusually close precision limits.) And there is a long list of fine-car features that are exclusive with Ford in the popular field.

Have you a V-8 engine in your car? You pay \$1645 for it in any other car but Ford.

Does your car have Center-Poise Riding? Ford gives you this modern feature—"a front-seat ride for back-seat passengers."

Does your car have fool-proof Super-Safety Mechanical Brakes? The Ford V-8 gives you this proved design, with 186 square inches of braking surface.

Does your car have a genuine steel body structure? Does it have Safety Glass all around? Ford is the only low-price car that gives you this extra protection without extra cost.

You get these fine-car features in the Ford V-8 because of Ford manufacturing methods and low-profit policy.

\$25 A MONTH, after usual down-payment, buys any model of the new Ford V-8 car—from any Ford dealer—anywhere in the United States. Ask about the new UCC 1/2% per month Finance Plans.
