And there'll be Roscoe Turner's inside story of the famous London-to-Melbourne air race.

There'll be advice on hobbies, sports tips from famous coaches and players, suggestions on money-earning and low-cost travel, and articles on dog training, nature's oddities and tomorrow's airplanes.

COUNTRY SUPPER Oven Fried Chicken Rice Potatoes Mint Butter Carrots Blueberry Betty Coffee	DOWN EAST LUNCH Baked Beans Au Gratin Brown Bread Cabbage Relish Baked Spiced Apples Coffee

Now you can do away with the hot job of summer cooking—yet never do without a hot meal. Incredible? It's true. Science now gives you a new miracle of electricity—"Absent Cooking".

You place your entire meal—from meat to dessert—in a cold oven, set the time and temperature controls, and leave the house if you wish. Return just before dinner and your meal is ready. Even if your electric range doesn't have a time control, its temperature control will free you from all oven watching while your meal is cooking.

Another astonishing fact is that kitchen temperature is raised only about 1° during the cooking of an entire meal. *Electric cooking is cool cooking!*

Visit any dealer's or our nearest office today and see the wonderful new electric ranges on display.

Electric ranges are very reasonably priced. And you may purchase yours on convenient terms. The operating cost is very reasonable, too, with low-cost Pacific Power & Light Company electricity.

GEE...it's swell to have hot water all the time!

Plentiful hot water whenever you turn a faucet, day or night, winter or summer, certainly is a joy. And you can have it by installing an automatic electric water heater. Then you won't be dependent on range or furnace coils. You won't have to heat up your kitchen or your house every time you need hot water for baths, laundering or any other purpose. Ask about our attractive water heating rate today.
