## AS SEEN BY A LEGISLATOR

By GILES L. FRENCH.

The very best argument that could be made for organization among farmers has been made in Salem within the past week. The bills making it possible for the public to control strikes were sent back to committee after it was determined that there were not enough votes in the house to carry them.

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—its life—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

block final passage of any wild legislation in any event which may assure the citizen who fears great change.

For the mid-Columbia district some legislation has been sent well on its way. The bill allowing farmers to organize into erosion control districts has passed the house without a dissenting voice and is now in the senate where it will be handled by men who are respected for their wisdom. The bill, if passed and signed by the governor, will make it possible for neighbors to stop dangerous soil blows before they reach the dangerous stage and it is expected to stop wind erosion such as damaged many hundred acres last spring.

More citizens are dropping in each day now and it takes several minutes each session for the speaker to grant requested "Courtesies of the house" to visiting friends from other sections of the state. The lobbies of the Marion hotel are full each afternoon with those who come to confer with and advise their legislators. Groups of school children file into the gallery and listen with expressions of awe at the process of democratic government.
