And Poisonous Waste

Your kidneys help to keep you, well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distrems.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doon's Pills. A multitude of grateful people recommend Doon's. Ask your neighbor!
